IN REPLY REFER TO: PA

December 9, 1966

Peter Roedler
Reuterweg 69
6 Frankfurt (Main)
West Germany

Dear Peter:

Dr. von Braun asked me to convey to you his sincere thanks for your nice letter of October 3, 1966, and the fine spacecraft models that you sent.

Dr. von Braun was very happy to hear of your enthusiastic interest in the exploration of space. He is sending you herewith some information material describing our launch vehicles for manned and unmanned space flights. I trust you will find this material useful and am extending to you best wishes for your future career on behalf of Dr. von Braun.

Sincerely yours,

Bart J. Slattery, Jr.
Chief of Public Affairs
