

COMPU SERVE DIRECTORY

Your Complete Guide to the
Information Service You Won't Outgrow

Here is your CompuServe Directory, a concise listing and description of CompuServe's online services. CompuServe is the world's most comprehensive network of people with personal computers. To make it easy for you to access the thousands of

CompuServe services, we've listed them alphabetically and grouped them under major categories. Access services quickly by selecting GO from the Services pull down menu and typing in the Quick Reference Word that is part of each Directory entry.

At CompuServe, we are constantly expanding our services by adding new information and updating existing services.

Use this Directory as your guide, and you'll find that CompuServe is the service you won't outgrow.

Codes Used in the Directory

CompuServe basic services* have no symbol next to them on menus, making them easy to identify. Extended services, which are available at an hourly rate, have a "+" next to them. Premium services, which have an hourly rate and a surcharge, have a "\$" next to them on menus. Executive Option services, which have an hourly rate and sometimes a surcharge and are accessible only through an Executive Option membership, have an "E" or a "\$E" next to them. GO EXECUTIVE to learn more about the Executive Option Service.

Here's a handy chart to help define CompuServe product categories:

Type of Service	Cost	Symbol	Example
Basic*	\$7.95/mo.	none	Academic American Encyclopedia
Extended	hourly	+	IBMNEW +
Premium	hourly/surcharge	\$	IQuest (\$)
Executive w/surcharge	hourly/surcharge/membership	\$E	Disclosure (\$E)

Note: When selecting a CompuServe service with the "+" symbol, hourly pricing begins with the next screen. When a surcharge is incurred for a portion of a product, the \$* designation is used.

*For more information on basic services see the last page of this directory.

Section 1

Membership Support Services

This section helps you find your way around the CompuServe Information Service. It provides information such as billing, logging on, ordering and operating rules.

Ask Customer Service QUESTIONS

Customer Service makes it easy to get the help you need whenever you need it. When a question comes up while you're online, visit Customer Service. Customer Service provides a list of commonly asked questions about CompuServe and their answers. Questions are answered on such topics as CompuServe Mail, billing, forums, logon, CB and CompuServe software. Customer Service is continually updating the Questions and Answers database to keep up with the growing Information Service. When you can't find the assistance you need in users guides or online, let Customer Service answer your individual questions. Customer Service Representatives help solve any problems you may encounter and encourage your comments. Select the option for FEEDBACK to visit the Feedback area and send questions, comments or suggestions to CompuServe.

If you have a question or problem that requires immediate attention, a Customer Service Representative can help you. Members from the U.S. can call (614) 457-8650. Members from the U.S. including Puerto Rico, St. Thomas, St. John and St. Croix can call (800) 848-8990. Representatives are available from 8 A.M. to midnight, Monday through Friday and from noon to 10 P.M. on weekends, Eastern Time. Holiday hours vary. Recorded support is available around the clock through the Customer Service phone system. Using a touch tone phone you can find assistance with file transfers and CompuServe Mail, phone numbers, rates and more. European members may contact their CompuServe Europe Representative in the United Kingdom at 0800 289 458, in Switzerland at 155 31 79 and in Germany at 0130-4643. Other members from outside the U.S. can call (614) 457-8650 for help.

Billing Information BILLING

View your charges or look up current rates in this service area. You will find explanations of the available billing options and your personal billing information for the last 12 weeks. You can also change your billing option, change your billing address or select the Executive Service Option. A section explains the various billing options available to CompuServe members including VISA, MasterCard, American Express, Electronic Funds Transfer and Business Account. Members using the Electronic Funds Transfer billing option can find the amount they owe and review charges. The terms for Electronic Funds Transfer are also listed.

Change Equipment/ Display Profile TERMINAL

This powerful area enables you to change your terminal type, your settings (such as line length, baud rate, parity and output delays) and your first logon action. In addition, you can build your own personal menu of products that will display at logon.

Change Your Billing Address ADDRESS

Use this choice to change your billing address and phone number.

Change Your Billing Method BILOPT

You can change your billing option from Electronic Funds Transfer (EFT) to credit card, from credit card to EFT or from one credit card to another. EFT members can change their checking account information. If your card has been recently renewed and you need to enter the new expiration date, you can use this option to do so. You can also find information about converting your account to a business account.

Change Your Password PASSWORD

This option enables you to change your password.

CIM Support Forum CIMSUP

If you use or are considering using CIM, join the CompuServe Information Manager™ (CIM) Support Forum. Operated by CompuServe Incorporated, this forum provides information about CIM's powerful interface that allows you to use all of CompuServe's online features such as forums, CB, news and reference products, financial databases and quotes and CompuServe Mail. Find answers to your questions about installation, required hardware, terminal emulation and general use of CIM.

Command Summary/ How To Use COMMAND

Command Summary explains the commands that can be used in the CompuServe Information Service and how to use them. It explains the menus, control characters and communication standards. It also lists access telephone numbers and gives access to billing information.

CompuServe Information Services CISSOFT

CompuServe offers its subscribers information and support for CompuServe's communication programs such as CompuServe Information Manager (DOS and Mac versions), CompuServe Navigator and Professional Connection, which simplify the user interface to CompuServe and other computer systems. Learn about each product's special features, equipment requirements and upgrade information. Receive prompt answers to your questions through forums that are available for each product.

Current Rates RATES

This section lists the fees associated with CompuServe use and the billing options available to subscribers.

Feedback to CompuServe FEEDBACK

Feedback enables you to send your question, comment or suggestion to CompuServe. The Customer Service Representative will respond via CompuServe Mail as quickly as possible.

Find a Topic INDEX

CompuServe indexes products by topic and alphabetically. In INDEX, if you enter a topic such as food or sports, you are given a menu list of CompuServe products and their Quick Reference Words or page numbers. Enter the GO command with either the Quick Reference Word or page number to quickly go to the product. You can also get an alphabetical listing of all CompuServe products and their Quick Reference Words. The index is also available by entering the FIND command at any ! prompt.

Free Practice Forum PRACTICE

Practice makes perfect and that's what this forum is all about. You can learn how to use the CompuServe software and tap into its many powerful features without incurring any CompuServe connect charges. Learn to navigate through the forums and become familiar with their look and feel. You can experiment and post questions on this forum's message board at your leisure and get the most from your paid forum time.

General Billing Information BILINF

This section provides detailed information about your charges and ways to inquire about them. It tells you how to submit error correction requests to CompuServe. It also tells you how to avoid unauthorized use of your account and what to do if you suspect unauthorized use.

Mac CIM Support Forum MCIMSUP

If you use or are considering using CompuServe Information Manager™ (CIM) for your Macintosh, join the Mac CIM Support Forum. Operated by CompuServe Incorporated, this forum provides information about CIM's powerful interface for the Macintosh that allows you to use all of CompuServe's online features such as forums, CB, news and reference products, financial databases and quotes and CompuServe Mail. Find answers to your questions about installation, required hardware, terminal emulation and general use of CIM. See CIM Support Forum (GO CIMSUP) for information about CIM for the PC.

Member Recommendation Program FRIEND

The Member Recommendation Program enables you to earn online usage credit for introducing friends to CompuServe. Information is provided on the program and on any additional offers or contests available for winning online usage credit for member referrals.

Membership Changes MEMBER

This enables you to change the way that information is displayed on your screen or printer. You can add or remove your name from various mailing lists associated with the CompuServe Information Service, including the *CompuServe Magazine* subscriber list, CompuServe special mailings list, and a list made available to vendors. You can add your name to the online membership directory. You can also change your password or billing option and notify CompuServe of your change of address or if you must cancel your membership. More information on these areas can be found in the *Users Guide*.

Membership Directory DIRECTORY

This directory enables you to search for other members by name. All members are included in the Membership Directory, unless they specifically request exclusion. Now you can obtain the User ID number of other members and easily communicate with them via CompuServe Mail or through our other online communication services.

Navigator Support Forum NAVSUP

Prospective and current users of CompuServe's Navigator, a program that helps members save connect time, can find the latest information on the program in the Navigator Support Forum. Find answers to your questions about installation, session parameters, hardware required, Navigator faces and Navigator patches.

Node Abbreviations NODES

This section lists the unique three-letter CompuServe codes that indicate a member's local telephone access point.

Online Today Advertisers

Online Inquiry OLI

You can request general information about an ad displayed in *CompuServe Magazine* and request product literature directly from advertisers.

Order Executive Service Option EXECUTIVE

CompuServe's Executive Service Option enables you to access additional value-added services, purchase many CompuServe products at a discount, and increase your online storage capabilities, including increasing the storage period from 30 days to six months. Members with the Executive Service Option also receive volume discounts on information retrieval from selected transaction price financial databases. The option provides access to exclusive databases including Ticker Retrieval, DISCLOSURE II, Executive News Service, SuperSite, Institutional Broker's Estimate System, Securities Screening, Return Analysis and Company Screening. Those members whose accounts carry the Executive Service Option also receive direct marketing offers from many of CompuServe's affiliated merchants and manufacturers. Most executive products display best on 80-column screens. Online services provided with the Executive Service Option are marked with an (E) on menus.

Order From the CompuServe Store ORDER

Access CompuServe's online ordering service and place your order by selecting from CompuServe's many exciting products — users guides, communication software, game maps and more. You can check on an existing order's status and change an order before it is filled.

Quick Reference Word List QUICK

A list of Quick Reference Words is provided. The Quick Reference Words are used following the GO command to quickly take you to the product named. In the Almanac, Quick Reference Words are at the upper-right corner of each description. Example: GO QUICK.

Reviewing Your Charges/Usage CHARGES

Review your usage and your charges as current as yesterday's logoff and typically as far back as 12 weeks. See for yourself when your payment is posted, which services you used that generated a surcharge, credits applied and your account balance. You can find explanations of each billing option's billing process. A hard copy of your usage details can be mailed to you for a fee.

Rules of Operation/Copyright RULES

This section offers a complete description of the CompuServe Operating Rules. The Operating Rules are designed to protect the data and communications offered by CompuServe information providers and customers, and make online usage a positive experience for everyone. The Operating Rules cover copyright policy and service agreement terms including commonly asked questions about copyright and ownership of material, particularly as they relate to public domain information and shareware programs.

Specials/Contests SPECIALS

Something new is always happening at CompuServe. Here you can learn where you can win prizes, who is offering free connect time or discounts, and what extra-special events are being held.

Telephone Access Numbers LOGON

This section gives information related to accessing CompuServe including telephone access numbers, busy signal/network problems, node abbreviations and communication surcharge information. Specific instructions are also available for logging on using the CompuServe, TYMNET, Sprintnet (Telenet), Datapack, LATA, INFONET, FALNET (Australia), TTN-Net communication networks, as well as European, Japanese and Venezuelan access information.

Telephone Access Numbers PHONES

This section enables you to list or search for network access telephone numbers that connect to the CompuServe Information Service.

Tour TOUR

The CompuServe Guided Tour takes you on a quick trip through the Service, giving you an overview of what's available in each of the General Services categories. After each section you have the option of continuing on the Tour or learning more about that section.

What's New This Week NEW

What's New is a weekly column that describes new and updated services on CompuServe. It includes news from the Electronic Mail, forum conference schedules, CompuServe community news and *Online Today Daily Edition*.

Section 2

European Services

CompuServe provides its European members with the same high quality service for which CompuServe is renown in the United States. The European section (GO EUROPE) of CompuServe contains many of the same services available in Membership Support Services (see Section 1.) This chapter contains the services in the European section which are specifically directed towards European members including Company Information, Logon Instructions and Personal Computer Support. Most of the services listed in these sections are described fully in other sections of this Directory. See Related Topics for a list of international services.

Company Information EUR-25

Company Information provides you with several resources for finding financial information about European and American companies. For full descriptions about each resource, see Section 4, Computer and Software Support; Section 7, Investing and Finance; Section 8, News, Weather, Sports and Section 11, Reference Library.

Logon Instructions (Europe) EUR-9

This section gives information about accessing CompuServe including telephone access numbers, busy signal/network problems, node abbreviations and communication surcharge information for the United Kingdom, Switzerland, Germany and all other European countries. Specific instructions are also available for logging on using the CompuServe, Intonet, PSS Dialplus, Telepac, Datex-P and PTT (public Packet Switching Network) communications networks.

Personal Computer Support EUR-18

Personal Computer Support lists forums that contain information specifically for European users such as IBM European Users Forum, UK Computing, Nantucket Germany Forum, German Markt & Technik AG and Microsoft Central Europe Forum. For descriptions on individual forums, see Section 4, Computer and Software support.

Section 3

Communications

This section contains information on products that enable you to communicate with other CompuServe members. You can use CompuServe Mail to send messages to specific people, forums to participate in discussions on specific topics, CB to type in real-time with other CompuServe members around the world, and the CompuServe Classifieds to post ads. However you choose to communicate, there are opportunities for you to get answers to your questions, make new friends and exchange ideas.

CB Band A CB-1

CB Band B CB-2

There are two bands of CB, each with 36 channels. You can access either through the Communications menu or by using the GO command. CB helpers are available for those new to CB on Band A, Channel 2 (the Newcomer Channel) between 6 P.M. and 2 A.M. Eastern Time. +

CB Club CBCLUB

Special pricing is available for members who use CB frequently. +

CB Forum CBFORUM

The CB Forum consists of a bulletin board and member and data libraries. There are sections for CB party information, teen talk, new CBers, tech talk, etc. +

CB Profiles CBPROFILES

Learn more about your friends on CB by checking the CB Profiles. Your CB Profile contains your handle (reserved handle if you are a CB Club member), User ID, age, city and state, the computer you are using, occupation and interests. Once your CB Profile is installed in the database, it is available for others to read whenever you are on CB. +

CB Simulator CB

CompuServe's CB Simulator is an electronic conferencing program. It's a little like CB radio, except that you use a computer or terminal and, instead of speaking into a microphone, you type at a keyboard. Your reach isn't limited to a few miles, either. You can converse with other people all around the world. +

CB Society — Cupcake's Column CUPCAKE

Cupcake is our resident CB columnist. Here's where you can get the scoop on the latest party, who's engaged, who's new and what's happening. +

CompuServe Classifieds CLASSIFIEDS

Want to sell your boat, car or old computer? Are you looking for a new job, condo or something special? Then browse through CompuServe's Classified ads to find what you are seeking. Or post an ad to sell your unwanted treasures. CompuServe's Classifieds is just like the classified section in most newspapers, only national in scope. There is a surcharge for posting an ad but not for browsing.

CompuServe Mail MAIL

CompuServe Mail is CompuServe's electronic mail service. It gives you the opportunity to communicate not only with any CompuServe Information Service member, but also with any Internet (a group of university and government networks) user, all MCI Mail, AT&T Mail or AT&T Easylink members, any NetWare MHS Local Area Network or stand-alone user, any person around the world with a postal address, any Group 3 Fax machine and any Telex machine. When you send Faxes or Telexes, you'll get notification on whether

the message could be delivered and the time of delivery. You can also send all types of files through CompuServe Mail. Besides text messages, you can upload and send binary files, such as spreadsheets, graphics, worksheets and wordprocessor documents in their native format to any CompuServe member. You also have the ability to download any of your mail messages and file them. If you send a "receipt requested" message, you will find a notification in your mailbox when the message has been retrieved by the recipient. CompuServe Mail has an electronic address book to store the names and mailing addresses of the people to whom you send messages. For information on CompuServe Mail prices, GO MAILRATES.

CompuServe Mail Hub MHS or MHSADM

The CompuServe Mail Hub is a global message exchange facility which gives NetWare MHS users (either on Local Area Networks or on stand-alones) the ability to communicate with each other without having to dial each individual MHS site directly. The hub also allows the exchange of messages with any CompuServe member. +

CONGRESSgrams CONGRESS

If you want to send your opinions or views to members of the United States Congress or to the President or Vice President of the United States, use the CONGRESSgram feature of CompuServe Mail. Your letter is printed on paper, placed in an envelope and mailed to your recipient who usually receives it the next day. You can also use the Congressional database to look up information about any United States Congressman. Each listing includes committee assignments, hometown, party affiliation and phone number.

The Convention Center CONVENTION

The Electronic Convention Center is a special meeting place to conduct live conferences of up to 300 people. You can view information on scheduled conferences and decide if you would like to attend. Information about each conference is displayed: general description, conference type, date and time, expected length and whether a reservation is required. A reservation, if needed, can be made at that time.

Directory of Members DIRECTORY

This directory enables you to search for other members by name. All members are included in the Directory of Members, unless they specifically request exclusion. Now you can obtain the User ID numbers of other members and easily communicate with them via CompuServe Mail or through our other online communication services.

Forums (SIGs) FORUMS

Forums are places where people of similar interests can exchange information, participate in discussions in real-time conferences or share software programs. There are three types of forums:

- ▶ Computer forums where you will find experts to solve problems or exchange technical ideas about computers
- ▶ Professional forums geared to specific professions like medicine or law
- ▶ General interest forums where people with similar interests or hobbies exchange ideas or information.

All forums have a similar structure and use the same commands. They are run by one or more Forum Administrators (SysOps — system operators) who are in charge of the forum and have some expertise in the subject matter of the forum. Most forums prefer that you use your full name, and they do not tolerate disruptive behavior. There are three main areas of a forum:

- ▶ A message board containing hundreds of messages placed there by members.
- ▶ A library containing text files and software programs, transcripts of conferences and essays
- ▶ A conference mode where members get together for real-time conferences. Conference mode is similar to the CB Simulator.

For more information on forums and how to use forum commands, see the Users Guide or stop by the Practice Forum (GO PRACTICE).

Participate[®] PARTI

Want to start your own ad hoc group discussion about a particular topic? Then GO PARTI to access Participate, a member-controlled messaging system where you lead the discussion and choose the participants. The command structure for Participate is unique, so be sure to read the available online help files. +

Section 4

Computers and Software Support

CompuServe offers you the most concentrated source of computer and software support anywhere in the world. You can obtain support for virtually any software or computer on the market. Support includes direct links to software and hardware companies, libraries of online information and forums of knowledgeable users willing to help you solve your problems. Twenty-four hours a day, you can logon and communicate with someone online or post messages which will be answered, typically within 24 hours.

This section contains the products pertaining to computers and technology. It includes software and hardware forums, electronic magazines and newsletters. Many of the products described in this section contain software patches and enhancement programs, tips and techniques which will expand your capabilities and productivity.

Abacus ABACUS

Abacus Software provides technical support for its utility applications including BeckerTools and Virus in the Abacus section of the Windows Third Party Applications C Forum. In addition to software development, Abacus is also a publisher of software and computer books. +

Access Softek WINAPA

Access Softek produces a series of text and file utility products for the Windows 3.0 environment including TakeNote, Dragnet and Prompt!, which are supported in the Access Softek section of the Windows Third Party Applications A Forum. +

Access Technology Forum ACCTECH

The Access Technology Forum links users of Access Technology software to Access Technology and other experienced users. Support is provided for Vivid, all versions of Access Technology's 20/20 spreadsheet software, as well as ForWords and ForComment. Libraries provide 20/20 macro files, 20/20 applications and Vivid graphic images. +

ACIUS Forum ACIUS

The ACIUS Forum supports all ACIUS products. This includes 4th Dimension, File Force and 4D Modules. Libraries contain time saving programs including externals and sample databases. +

Activision (Tenpointo) MACAVEN

Receive support for products such as Focal Point II and City to City in the Activision section of the Mac A Vendor Forum. +

Adobe Forum ADOBE

Operated by the Adobe technical support staff, the Adobe Forum is for users, dealers, service bureaus, developers and other interested parties to discuss desktop publishing. This forum is especially of interest to users of Adobe typefaces, Adobe Illustrator, Transcript and Photoshop. The forum's libraries contain company press releases and new product announcements. +

Advanced Gravis Computer Technology PCVENB

Advanced Gravis Computer Technology Ltd. supports its full line of products in its section of the PC Vendor B Forum. The Advanced Gravis product line includes analog

joysticks, switch joysticks, programmable/optical joysticks, programmable/multi-button mice, high speed game cards, security software and portable hard disk drives. +

AI EXPERT Forum AIEPERT

AI EXPERT Forum has been created for the Artificial Intelligence community as an information exchange and a supplemental resource to AI Expert magazine. In this forum, you can query industry and academic leaders in the AI field as well as exchange AI information with other members. AI Expert articles and supporting program listings are available here for downloading to your machine, as are public domain expert systems and software. AI Expert editor Alan Zeichick and many of the AI Expert columnists and authors are available to chat with you. +

Aladdin Systems, Inc. MACCVEN

Shortcut, Stuffit and Stuffit Deluxe are supported in the Aladdin Systems support section of the Mac C Vendor Forum. +

Aldus Customer Services Forum ALDSVC

This customer service forum from Aldus provides Aldus and Silicon Beach software users with information about Aldus and Silicon Beach product upgrades and new releases, as well as information about CustomerFirst Online, an online support service for Aldus customers with registered products. The libraries contain sneak previews of new and updated Aldus products such as FreeHand, PhotoStyler and PageMaker. For technical questions, access the Silicon Beach/Aldus Public Forum, GO SBSALD. +

Altsys Corporation MACBVEN

Access the Altsys Corp. section of the Mac B Vendor Forum to obtain technical support for Altsys' Fontographer, Metamorphosis, The Art Importer, Fontastic Plus and Family Builder products. +

Amiga and Commodore Users Network CBMNET

There are seven forums devoted to Commodore computers: the Amiga Arts Forum (GO AMIGAARTS), the Amiga Tech Forum (GO AMIGATECH), the Amiga User Forum (GO AMIGAUSER), the Amiga Vendor Forum (GO AMIGAVENTOR), the Commodore Arts and Games Forum (GO CBMART), the Commodore Applications Forum (GO CBMAPP) and the Commodore Service Forum (GO CBMSERVICE). +

Amiga Arts Forum AMIGAARTS

Amiga Arts Forum is for anyone with an interest in the creative aspects of the Amiga personal computer. Members can access conference rooms, libraries and message boards which are broken down by topic. Forum libraries contain hundreds of programs, textiles, help info, product reviews and transcripts of previous conferences held in the forum. All are available for downloading to your computer at no additional charge to members whose terminal software supports one of the various file transfer methods, including XMODEM and CIS B and QB protocols. Membership ranges from beginners to advanced professionals who share skills, knowledge or just curiosity. +

Amiga File Finder AMIGAFF

Amiga File Finder provides a quick and easy reference to some of the best programs and files available in the Amiga Arts, Tech, User and Vendor forums. In this comprehensive database, you can quickly find the file you want using search criteria such as a keyword, file submission date, forum name, file type, file extension, file name or submitter's user Id. When you enter the selection criteria, the file's description, forum and library location are listed. +

Amiga Tech Forum AMIGATECH

If you're interested in the technical aspects of the Amiga personal computer, try the Amiga Tech Forum. Members have access to various sections of the message board, the online conferencing feature and extended libraries containing hundreds of public domain programs for the Amiga, help files, product reviews and archived reference texts — all free and available for downloading. Forum members include Amiga enthusiasts of all levels. +

Amiga Vendor Forum AMIGAVENTOR

Talk about Amiga products with other Amiga enthusiasts and find support from selected product vendors in the Amiga Vendor Forum. In addition, you'll find information on the various products available from the following vendors: ASDG, ATI, Avant-Garde Software Inc., Black Belt Systems, Central Coast Software, Impulse, Inc., Inovatronics, New Horizons, NewTek, Right Answers, Soft-Logik, Softwood and Syndesis. See each vendor's individual description within this section for a list of supported products. +

Amiga User Forum AMIGAUSER

The Amiga User Forum is dedicated to the everyday business and personal use of Amiga computers. Experienced and new users are encouraged to frequent the message boards where topics such as Amiga news and rumors, hardware, word processing, personal applications, business applications, amateur radio and communications are thoroughly examined. A classified section is available for members who want to sell or purchase second-hand Amiga products. +

Antic Online ANTIC

Welcome to Antic Online, the first online magazine exclusively for Atari computer users. Browse through the "Software Shelf" for Atari programs. About half of these are for 400/800/XL/XE model computers, while the rest are ST programs. Old programs are filed in the SIG*ATARI data libraries. Documentation is also available. +

APPC Info Exchange Forum APPC

IBM offers this forum for the discussion of all topics related to the design and implementation of applications that use Advanced Program-to-Program Communications (APPC). The conference and message sections host discussions about CPI-C (Common Programming Interface Communications) and configuring networks to support APPC applications such as IBM's Advanced Peer-to-Peer Networking (APPN). Communicate directly with IBM and post suggestions for future product development. +

Apple Macintosh Forums MACINTOSH

Macintosh users have a variety of forums from which to choose. Some forums cover the use of the Mac for personal productivity, arts, entertainment new users and communication. Others center on HyperCard, vendors and developers.

Apple II Programmers' Forum APPROG

Learn how to create your own applications programs for your Apple II computers. Sections within this forum are devoted to programming using languages from BASIC, Pascal and machine to the more advanced graphic interface of the HyperStudio program. Members exchange programming tips and application ideas to help solve problems and increase productivity. +

Apple II Users Forum APPUSER

The Apple II Users Forum is for those who use the Apple II personal computer and want to learn more about the available programs for business, school or home applications. Members browse through the message sections and libraries for help in choosing and using hardware and software programs such as AppleWorks and various other Apple II utility programs. Many members are experts in using the Apple II and can offer sound advice in purchasing and using the various products. +

Apple II Vendor Forum APIIVEN

Have a question about an Apple II product? Join the Apple II Vendor Forum for expert advice and support before and after you make your purchase. Companies such as Applied Engineering, Beagle Brothers, 1st Class Peripherals, InSync Software, On Three Inc, Seven Hills Software, Stone Edge Technology and TMS Peripherals have representatives online to answer customers questions about their Apple II products. Library files offer additional information. +

Apple II/III Forums APPLE II/III

This area contains forums devoted to the Apple II, II+, IIe, IIc, IIGS and III. These forums and the Macintosh Forums (GO MACINTOSH) make up the world's largest online community of Apple users. If you are interested in any Apple computer, you will probably want to join several different forums. The individual membership information announcements in each forum detail what each forum offers its members. All forums follow the same general format and are divided into separate message, library and conference areas.

Artisoft ARTISOFT

Artisoft provides support for its LANtastic network operating system product in the PC Vendor D Forum. +

ASDG AMIGAVENTOR

ASDG provides support for its AdPro in the ASDG section of the Amiga Vendor Forum. +

Ashton-Tate Applications Forum ATAPP

The Ashton-Tate Applications Forum provides support for all Ashton-Tate Macintosh products, including Framework III, MultiMate, Byline, Applause/Applause II and Master Graphics. Forum libraries contain templates, help files and utilities. +

Ashton-Tate dBASE Forum DBASE

The Ashton-Tate dBASE Forum provides support for users of dBASE. Support is also provided for 3rd party utilities, Ashton-Tate utilities, dBASE user groups and more. Forum libraries contain utilities, templates and programs. +

Ashton-Tate Support Library ASHTON

The Ashton-Tate Support Library is an easy-to-use, menu-driven reference center for users of dBASE IV, Framework III, MultiMate, RapidFile, Master Graphics, Byline and other Ashton-Tate products. Ashton-Tate provides a product list; developer registry; technical support library, maintained by the Ashton-Tate Software Support Center, which provides new product updates and announcements; and information on customer service, training services, and its beta testing program. Ashton-Tate also provides two forums, one for Ashton-Tate Applications (GO ATAPP) and one for dBASE support (GO DBASE). The forums and monthly user surveys give members a direct line to Ashton-Tate decision makers. +

Ask3Com Forum ASKFORUM

Operated by 3Com's Customer Support organization, the Ask3Com Forum covers a wide variety of global data networking subjects. Join 3Com service engineers and other members in discussions on internetworking hardware, protocols, standards, NetWare compatibility, network management and 3Com adapters. Browse through new articles added monthly to the Technical Library by 3Com support engineers sharing solutions for common problems. +

ASP/Shareware Forum ASPFORUM

The Association of Shareware Professionals' Forum caters to computer users who want to try software before buying it. The General Info library contains ASP program files you can download to your computer. By joining this forum, you can communicate directly with members of the ASP or other members of the forum who are knowledgeable about shareware and its advantages. +

Asymetrix Corporation ASYMETRIX

Asymetrix Corporation produces ToolBook, an application development package for the Windows 3.0 environment. ToolBook is supported in the Asymetrix section of the Windows Third Party Applications A Forum. +

Atari 8-Bit Forum ATARI8

The forum is not affiliated with Atari Corporation but is maintained by independent Forum Administrators (SysOps) and centers on the Atari 8-bit computer. The libraries contain programs, text files, help information, product reviews and transcripts of previous conferences. The Forum Administrators and others in the forum are willing to help you and answer your questions. +

Atari File Finder ATARIFF

Browsing through the Atari forum files has never been easier. The Atari File Finder is a comprehensive keyword-searchable database of files found in the Atari forums. Participating forums include the Atari ST Productivity Forum, Atari ST Arts Forum and Atari Vendors Forum. You can search by a keyword, file submission date, forum name, file type, file extension, file name or submitter's user ID number. +

Atari Portfolio Forum APORTFOLIO

The Atari Portfolio Forum provides support for Atari's newest computer, the hand-held Portfolio. Forum libraries and message sections contain information on telecommunications, database support, text editing, entertainment and more. +

Atari ST Arts Forum ATARIARTS

The Atari Arts and Entertainment Forum is one of five Atari Special Interest Group Forums. This forum supports and exchanges information pertaining to art and entertainment software for the Atari 16-Bit (ST) series of computers. Talk to other Atari owners through message boards or conference rooms and learn about the top-quality public domain graphics and entertainment software available through this forum. +

Atari ST Productivity Forum ATARIPRO

The Atari ST Productivity Forum is also one of five Atari Special Interest Group Forums. This forum connects you with people all over the world who share your interest in the exchange of information and programs about business, telecommunications, programming and more. Check out this forum for support and information about productivity software for the Atari 16-Bit (ST) series of computers. +

Atari Users Network ATARINET

Atari computer users have several forums and areas covering their interests. These include forums for the 8-bit computer, the 16-bit computer, the Atari Portfolio, a vendor's forum and an electronic magazine. +

Atari Vendors Forum ATARIVEN

The Atari Vendor Forum provides access to well-known Atari related software and hardware vendors. This forum includes the following companies: CodeHead Software, Double Click Software, Gadgets By Small, Gribnif, ICD Inc., INTERSECT Software, ISD Marketing, Lexicor Software, Maxwell CPU, Michtron, Practical Solutions, Precision Software, Soft-Logik Publishing and Supra Corporation. See each vendor's individual description within this section.

for a list of supported products. Support and product information can be obtained via the message boards and libraries. +

ATI AMIGA VENDOR

ATI provides support in the ATI section of the Amiga Vendor Forum for its Whap! communications program. +

Authorware AUTHORWARE

Authorware provides support for Authorware Professional, an interactive multimedia authoring software program for Macintosh and Microsoft Windows 3.0 in the Authorware section of the Multimedia Vendors Forum. +

Autodesk AutoCAD Forum ACAD

If you use or are considering using computer-aided design, join the Autodesk AutoCAD Forum for hints and techniques in using Autodesk's various products such as AutoCAD, AEC and AutoShade. Inside the forum, members discuss CAD applications software, hardware, operating systems, languages, management and productivity. For quick, accurate answers to your questions, forum messages are monitored by Autodesk training, quality assurance, customer service, software development, marketing and administration personnel. +

Autodesk Retail Products Forum ARETAIL

Autodesk created this forum to keep its users up-to-date on current news and special items of interest about Autodesk or Generic Software products. Developments in the PC CADD industry are discussed in conferences and through the message boards. Questions directed to Autodesk are answered within 24 hours. +

Autodesk Software Forum ASOFT

Autodesk provides this forum to support users of its multimedia and Science Series products and those who are interested in generating computer graphics. Products such as Animator, 3D Studio, CA Lab and Chaos: The Software are discussed in detail to help you understand the products and to improve your techniques. Also, Autodesk maintains a wish list to encourage you to make suggestions on ways to improve the products and policies. +

Avant-Garde Software Inc. AMIGA VENDOR

Avant-Garde Software supports its current product line which consists of Benchmark module-2 Software Construction Set, Simplified Amiga Library for Benchmark Module-2, "C" Language Library for Benchmark Module-2 and IFF & Image Resource Library for Benchmark Module-2. Avant-Garde Software supports these products in the Amiga Vendor Forum. +

Avatar Corp. MACC VENDOR

Find support from Avatar Corp. for its products such as Avatar 4/16Mb token-ring card and token-ring gateway in the Mac C Vendor Forum. +

Banyan Forum BANFORUM

The Banyan Forum provides direct access to Banyan System Inc. support personnel. Messages cover Banyan network products and more. Libraries contain patchware and shareware for improving the efficiency of your network. +

Banyan Systems BANYAN

Banyan's display area provides Banyan's latest press releases, a searchable technical notes database, a searchable third party database that includes application and hardware certification information, and a support forum. You can also send electronic feedback directly to Banyan. +

Baseline Publishing MACC VENDOR

Baseline Publishing provides technical support for The Talking Moose, INIT Manager, One Shot and Thunder 7. Baseline Publishing also supports all Preferred Publishers

products including DATABASE, Vantage, DoubleTalk, Screenshot and Exposure Pro. +

BASIC Forum MSBASIC

The BASIC Forum provides support for users of Microsoft's BASIC, QuickBASIC and Visual Basic software for program development. Members discuss programming techniques, applications and experiences in using Microsoft BASIC products for developmental purposes. Customer service is available for nontechnical questions. +

BASIS International Forum BASIS

Primarily of interest to business application engineers, the BASIS International Forum provides product support for BASIS authored and distributed software products. Join the forum and attend regularly-scheduled online conferences. Download public domain software and review the company's application catalog. +

Bell Atlantic THINX

Bell Atlantic produces and supports ThinX, a visual data management application program, in the Bell Atlantic section of the Windows Third Party Applications C Forum. +

Berkeley Systems (Macintosh) MACBVEN

Berkeley Systems provides technical support in the Mac B Vendor Forum for After Dark, ScreenKeys, Stepping Out II, OUTSPOKEN, INLARGE and INTOUCH. +

Berkeley Systems (Windows) WINAPC

Berkeley Systems produces After Dark for Windows, a screen saver program for the Windows 3.0 environment. After Dark for Windows is supported in the Berkeley Systems section of the Windows Third Party Applications C Forum. +

Beyond, Inc. BEYOND

Beyond representatives are available within the Beyond, Inc. section of PC Vendor C to answer your questions about BeyondMail. +

Big Noise Software, Inc. MIDIVENDOR

Big Noise Software provides support for its MIDI-based products in the MIDI Vendor Forum. Its products include Gadenza (a graphic sequencer for IBM compatibles) and the Big Noise Editor/Librarian. +

Black Belt Systems AMIGA VENDOR

Black Belt Systems provides the Amiga technical community with highly sophisticated and unusual hardware and software. These products are supported in Black Belt Systems' section in the Amiga Vendor Forum. +

BLOC Publishing Corporation BLOC PUB

BLOC Publishing Corporation produces productivity software for the IBM and compatibles. It provides support for FormTool, FormFiller, Personal Law Firm, FastPak Mail and Diskvision within its section of the PC Vendor D Forum.

Blyth Software Forum BLYTH

The Blyth Software Forum is for those who are interested in Blyth's database programs and products. This forum provides Blyth users with technical support, as well as the ability to contact other Blyth users to share experiences and knowledge about the database products. Members are encouraged to share files through the various libraries contained in this forum. +

Borland Application Products Forum BORAPP

The Borland Application Products Forum is for users of the Borland Application Products — SideKick, SideKick Plus,

Sprint, SuperKey, Turbo Lightning, Quattro, Quattro Pro and Eureka. Members can talk to Borland Technical Support Representatives as well as other forum members. Libraries contain patches, enhancement programs and product information. +

Borland Database Products Forum BORDB

The Borland Database Products Forum is for users of the Borland Database Products, Paradox and Reflex. Members can talk to other members or ask technical questions from the Borland Technical Support Representatives. Libraries contain patches, enhancement programs and product information. +

Borland International BORLAND

In this area users of Borland software can obtain information about Borland International. Included are a what's new section containing Borland press announcements and other news, company and product information, and employment opportunities. The section also contains an R & D suggestion box and four forums. +

Borland Programming Forum A BPROGA

This forum is used to exchange tips, techniques and any other information directly related to the actual use of software from Borland International. It concentrates on Turbo Pascal, Turbo Basic and object-oriented programming. +

Borland Programming Forum B BPROGB

In this forum users of software by Borland International exchange tips, techniques and any other information directly related to programming with Turbo Prolog, Turbo C, Turbo C++, Turbo Assembler and Turbo Debugger. +

Brightbill-Roberts PCVENC

Brightbill-Roberts offers support in the PC Vendor C Forum for its products — HyperPAD - the Hypermedia product for DOS and Show Partner F/X - the PC desktop presentation and animation package. +

Brightwork Development BRIGHT

Brightwork Development provides support for the following products in its support section of the PC Vendor D Forum: SiteLock, PS-Print, NetRemote, LAN Support Center and LAN Automatic Inventory. +

Broadview Communications PCVENA

Broadview Communication Software Inc. provides support for PibTerm EZ, PibTerm Professional and PibTerm LAN within its support section of the PC Vendor A Forum. +

Broderbund MACAVEN or PCVENA

Broderbund provides online support for its Macintosh products including TypeStyle and New Print Shop within its section of the Macintosh A Forum. Access the Broderbund section of the PC Vendor A Forum for support for Broderbund's MS-DOS products such as NPDS Graphics Library Editions, Wolfpack, Playroom and Bannermania. +

ButtonWare, Inc. PCVENA

ButtonWare provides support for the following products in its section of the PC Vendor A Forum: PC-File+, PC-Type II, Baker's Dozen, PC-Tickle, PC-Stylist and PC-Dial. +

Cabletron Systems, Inc. CTRON

Cabletron Systems, Inc. offers this forum to inform and support users of LAN services and products developed and manufactured by Cabletron for Ethernet, Token Ring and FDDI networks. Learn more about Cabletron's exclusive Integrated Network Architecture (INA) that allows you to build and manage a global, distributed network of interconnected LANs that work together regardless of which media type or network standard is used. +

CADD/CAM/CAE Vendor Forum CADDVEN

The CADD/CAM/CAE Vendor Forum, managed by the League for Engineering Automation Productivity (LEAP), is dedicated to the support of computer-aided design, manufacturing and engineering software and hardware. Company representatives from Evolution Computing, ISICAD, SurfTek and Universal Technical Systems are currently online to provide technical support, information on product upgrades, new product announcements, and much more. See each vendor's individual description within this section for a list of supported products. +

Campbell Services ONTIME

Campbell Services produces and supports OnTime for Windows, a personal information manager, in the Campbell Services section of the Windows Third Party Applications C Forum. +

Canon Peripherals CANON

Visit the Canon Forum to receive technical support directly from Canon's Help Desk staff. The Canon Peripheral Forum provides support for Canon products such as Laser Beam printers, Bubble Jet printers, Scanners and the Navigator. This forum is an online supplement to Canon's Printer Division support, providing a direct link between you and the staff at Canon. Visit this forum to communicate with other users of Canon peripherals to share information and ideas and exchange helpful hints. +

CASE - DCI Forum CASEFORUM

The CASE - DCI Forum, sponsored by Digital Consulting, Inc., is available for software developers using CASE tools. From novices to more experienced users, members share information and helpful tips on using CASE tools anywhere in the development process. Through this forum, users keep informed about educational events sponsored by Digital Consulting and about CASE-NET, an international CASE user group. +

CASEWORKS CASEW

CASEWORKS provides support for its applications development software for the Windows 3.0 and OS/2 Presentation Manager environments including CASE:W and CASE:PM in the Caseworks section of the Windows Third Party Applications B Forum. +

Casio Inc. PALMTOP

Casio Inc. provides support for its Casio B.O.S.S. line of electronic organizers in the Casio B.O.S.S. section of the PalmTop Forum. +

CDROM Forum CDROM

For information about CDROM technology, reviews of seminars and conference sessions, a calendar of upcoming CDROM events, comparisons of CDROM applications and product announcements, try the CDROM Forum. +

CE Software MACAVEN

Access the CE Software support section of the Mac A Vendor Forum to obtain technical support for CE Software's full line of Macintosh products. These products include QuickMail, QuickKeys, Disktop, Alarming Events, Amazing Paint and CalendarMaker. +

Center for Electronic Arts CFEA

Find information and discussions on training seminars provided by the Center for Electronic Arts, covering multimedia production techniques and technologies, in the Multimedia Vendors Forum. +

Central Coast Software AMIGAVENTOR

Central Software provides support for its Amiga utility titles including Quarterback, Quarterback Tools, DOS 2 DOS and MAC 2 DOS products within the Amiga Vendor Forum. +

Central Point Software, Inc. Forum CENTRAL

Central Point Software offers its customers in both PC and Macintosh environments online access to technical support from Central Point representatives and experienced users. Text files about products such as Central Point Anti-Virus, PCTools, PC Shell, MacTools and other programs are accessible in the libraries and can be downloaded or read online. Members interact daily to share tips, solutions, experiences and general information about the products. +

ChipSoft PCVENB

TurboTax is supported by ChipSoft in its section of the PC Vendor B Forum. +

Claris Corporation MACAVEN

Claris supports File Maker II, MacDraw II, MacWrite II, Claris CAD, MacProject II, Claris Graphics Translator and SmartForm Designer within its support section of the Mac A Vendor Forum. +

CodeHead Software ATARIVEN

CodeHead Software produces utility and productivity software for the Atari ST. CodeHead provides support for these products in its section of the Atari Vendor Forum. +

Color Computer Forum COCO

The TRS-80 CoCo Users Group provides independent support for owners and operators of the TRS-80 Color Computer and related peripherals. Technical information, programming examples, and a forum where CoCo owners can meet and discuss problems and desires are also included. +

Commodore Application Forum CBMAPP

The Commodore Application Forum disseminates information and support to users of Commodore 8-bit computers, including terminal and bulletin board software, word processing, speech synthesis and education. Programming and technical information on the C-128, C-64 and various public domain programs are also available. +

Commodore Arts and Games Forum CBMART

Commodore Arts and Games Forum is an interactive electronic forum dedicated to creative and entertainment applications for the Commodore 8-bit line of computers, including games, graphics and music. Support is also provided for all games and Geos programming. +

Commodore Newsletter CBMNEWS

The Commodore Business Machines Newsletter offers information on Commodore computers direct from the manufacturer, including new product announcements, software updates and user group information. You can also visit the Commodore Service Forum, where CBM representatives provide assistance to Commodore computer owners. +

Commodore Service Forum CBMSERVICE

Commodore Service Forum is staffed and maintained by Commodore Business Machines, Inc. and offers direct customer support for all Commodore computer models. There are no data libraries, but message and conferencing facilities are provided. +

Complementary Solutions Inc. PCVEND

Complementary Solutions Inc. provides technical support for TELEMATE and the following TELEMATE add-ons: Report Writer, Plus, ANI reporting, Global and Phone Book. +

Computer Club Forum CLUB

Computer Club Forum is the home for users of computers no longer supported by the manufacturers, or which have no specific forum dedicated to their hardware on CompuServe. Computers supported in CLUB include Actrix, Adam, Amstrad, Apricot, Eagle, Kaypro, Ohio Scientific, Panasonic, Sanyo, all Timex/Sinclair hardware and the Victor 9000, although users of other computer systems are always welcome. +

Computer Language Forum CLMFORUM

The Computer Language Magazine forum contains source code, programs, and articles mentioned in the magazine along with additional information on computer languages. Languages and topics covered in the forum and libraries include: 'C' language and tools; debugging techniques; Object Oriented Programming; software engineering; shareware/freeware; Modula-2, ADA, the high order language designated by the Department of Defense as the official language for all future embedded computer application programs; Computer Aided Software Engineering including Toolworks, EasyCASE and EasyCASE+; Embedded Systems Programming; and TesSeRact and other TSR applications, which can take advantage of 4-dimensional storage capabilities. You can also find information on subscriptions to the magazine. +

Computer Presentations Inc. CPI

Computer Presentations Inc. produces a series of image processing applications for the Windows 3.0 environment including Color Lab and Image Prep, which are supported in the CPI section on the Windows Third Party Applications B Forum. +

Computer Shopper ZNT:COMPSHOP

The Computer Shopper Forum is part of ZiffNet's Buyer's Resources section that helps you make more informed decisions about what personal computer products to buy, where to buy them and how to get the best deals possible. In addition, the forum will regularly feature special guests who are principals from leading direct vendors so you can get answers to your specific questions from the people shaping the industry.

Computer Virus Help Forum VIRUSFORUM

Learn how to protect your computer against viruses through the Computer Virus Help Forum. Join discussions with virus experts from around the world on current developments. Sponsored by McAfee Associates, this forum contains libraries with informative text files and downloadable programs that detect and remove computer viruses. Participate in conferences and the message boards for accurate diagnoses and prompt relief. The National Computer Security Association operates a section in the forum. Technical support is also offered for virus-fighting products from Trend Micro Devices and McAfee Associates. +

Connectix MACAVEN

Connectix supports its HAND-Off II, MAXIMA, Mode32, MC73 PMMU and Virtual in the Mac A Vendor Forum. +

Contact Software International PCVENE

Access the Contact Software section of the PC Vendor E Forum to obtain assistance from the Contact representatives for its contact management software, ACT! +

Coordination Technology PCVEND

Coordination Technology provides information and technical support for TOGETHER in its section of the PC Vendor D Forum. +

Corel Systems COREL

Corel Systems provides support for its graphics program Corel Draw! in the Corel section of the Windows Third Party Applications B Forum. +

Coromandel COROMANDEL

Coromandel Industries produces and provides technical support for its series of SQL applications-development tools including C-SQL for Windows, C-Trieve, the Integra family of relational databases and ObjectTrieve. These products are supported in the Coromandel section of the Windows Third Party Applications C Forum. +

CoStar Corporation COSTAR

Find support for CoStar Corporation's printing products in the CoStar section of the Mac C Vendor Forum. CoStar develops small specialty printers and software for labels and envelopes including LabelWriter (a palm-sized label printer) and AddressWriter (a printer designed specifically to print envelopes, postcards and labels). +

CP/M Forum CPMFORUM

The CP/M Forum is dedicated to users of the CP/M 8-bit and 16-bit computer operating systems. Members exchange information and discuss problems with other CP/M users. In addition to discussing CP/M itself, programs that run on CP/M computers such as word processors and database programs are discussed. +

Crosstalk Forum XTALK

Software products developed and marketed by DCA/Crosstalk Communications are featured in this forum. The forum also offers libraries of data files for use with the products, a conferencing facility, bulletins and a message base for each product. +

Ctrllt Associates PCVENA

Ctrllt Associates support its full line of products including CTRLALT, CTRLALT PLUS, STACKY and BATUTIL in its section of the PC Vendor A Forum. +

Cumulus Corporation PCVEND

Cumulus Corporation designs and manufactures a complete line of PCs, custom memory products and mass storage devices. Systems are available in 386sx, 386dx, 486 and other technologically advanced configurations. Find support for these products in the Cumulus Corporation section of the PC Vendor D Forum. +

Custom Applications DTPVENDOR

Custom Applications produces and provides technical support for Freedom of Press, a device-independent PostScript language compatible multi-platform interpreter, in the Customer Applications section of the Desktop Publishing Vendor Forum. +

Custom Technologies PCVENA

The CheckMate series and Magic Menus are supported by Custom Technologies in the PC Vendor A Forum. +

DacEasy PCVENB

Lucid 3D spreadsheet, Rolodex Live, the Lightning Disk accelerating package and the Breakthru 286 accelerator cards are supported by DacEasy in the PC Vendor B Forum. +

Data Access Corporation DAC

Data Access Corporation provides information about Data Access products such as product descriptions and specifications. Learn about product news and get technical support for your Data Access products. An Online Application Search helps you discover new ways of using Data Access products and services. +

Data Access Corporation Forum DACCESS

Join the Data Access Corporation Forum and investigate software products like DataFlex and OfficeWorks. Here you will find technical support, a library of programs and informative discussions from users of Data Access products. Technical bulletins, programming techniques and training are available when you join the Data Access Corporation Forum. +

Data Based Advisor Forum DBADVISOR

Database troubles? Join the Data Based Advisor sponsored by Data Based Advisor magazine. This forum will help you choose the best database program for your needs. In the message sections, members discuss the merits of many database programs, the correct way to choose a database and other related topics. The forum offers its members objectivity because it is not product-specific. +

Databook Incorporated DATABOOK

Databook provides support in its section of the Palmtop Forum for its products which support the credit-card size IC memory cards used in palmtop and notebook computers. +

Datastorm Technologies Support Forum DATASTORM

The Datastorm Technologies Support Forum offers support for users of the ProComm communications products, such as ProComm, PROCOMM PLUS, Procomm Plus Network version and HotWire. Libraries offer communications utilities and help with modem configuration. +

DaVinci DAVINCI

DaVinci provides support for DaVinci E-Mail, an electronic mail handling software product for the Windows 3.0 environment, in the DaVinci section of the Windows Third Party Applications A Forum. +

Daystar Digital MACAVEN

For technical support or product information on any Daystar Digital product, access the Daystar Digital section of the Mac A Vendor Forum. +

DEC PC Forum DECPC

The DEC PC Forum is intended for users of Digital Equipment Corporation (DEC) personal computers. Members exchange information, ideas, public domain programs and problems concerning DEC PCs with other members. +

DEC Users Network DECUNET

The DEC Users Network contains three forums: the DEC PC Forum (GO DECPC), the PDP-11 Forum (GO PDP11) and the VAX Forum (GO VAXFORUM). +

Dell Computer Corporation DELL

Dell Computer Corporation provides support for its desktop products ranging from floor standing 486 systems and laptops to notebook computers. Access its section of the PC Vendor D Forum and talk with Dell's support staff. +

Delrina Technology DELRINA

Delrina Technology supports its series of form development and facsimile creation products including Perform Pro and WinFax in the Delrina section of Windows Third Party Applications B Forum. +

DeltaPoint MACAVEN

MindWrite, Trapeze, Express, DeltaGraph and Taste are supported by DeltaPoint within its support section of the Mac A Vendor Forum. +

Deneba Software MACBVEN

Access the Deneba Software section of the Mac B Vendor Forum for assistance with Canvas, UltraPaint, Spelling Coach Professional, Big Thesaurus and Comment. +

Desktop Publishing Forum DTPFORUM

The Desktop Publishing forum provides information and tools for anyone who uses, plays with, or makes their living via electronic publishing, design, advertising, non-fiction writing, and/or printing. Forum message cover hardware, layout, design and printing. A classified ads section is available. The libraries contain utilities, fonts, demos, reviews and "publication quality" desktop publishing templates, photos, and line and clip art. +

Digital Research Forum DRFORUM

The Digital Research Forum is a professional forum for Digital Research end users and software developers. Topics cover application notes and patches, concurrent operating system information, DR-DOS and graphics. In addition, end user support and information are available. +

Digital Vision DIGVIS

Digital Vision offers technical support for its ComputerEyes line of digitizers in the Digital Vision section of the Graphics Vendor Forum. +

Digitaltalk Forum DIGITALK

The Digitaltalk Forum provides helpful information about the SmallTalk/V programming language and development environment directly from the staff at Digitaltalk and from other users. Members discuss Digitaltalk applications in the Macintosh, DOS, OS/2 and MS Windows environments. Visit the libraries for more tips and general information, periodic digests of the SmallTalk/V Scoop newsletter and user group listings. +

Digital's PC Integration Forum DECPCI

Sponsored by Digital's Personal Computing Systems Group (PCSG), this forum provides support for Digital's PC integration software and hardware such as PATHWORKS for DOS, Macintosh, VMS, Ultrix and OS/2. It also provides support for the DECpc family of personal computers and peripherals and the EtherWORKS family of network connectivity products. In this forum, find answers to your questions or just chat with others about PATHWORKS applications. +

Double Click Software ATARIVEN

Access the Double Click Software section of the Atari Vendor Forum to obtain technical support for DC Desktop, DC Utilities and Shadow products. +

Dr. Dobb's Journal DDJ

In the electronic edition of Dr. Dobb's Journal, you can gather information about computer languages, tools, utilities, algorithms and programming techniques. In addition, reviews of commercial software development tools and libraries available to the professional microcomputer programmer are presented. You may also submit articles that will be reviewed for use in future publications. +

DTP Vendor Forum DTPVENDOR

The DTP Vendor Forum, supported by the same operators of the Desktop Publishing Forum, is available for those who use desktop publishing on the job or just for fun. Members ask questions about their desktop publishers to specific vendors such as Custom Applications, Fontbank, Hyphen, QMS, Scitex, Sigma Designs, Timeworks and XChange or engage in lively discussions with other members who enjoy desktop publishing. While in the forum, visit the libraries to learn more about the vendors and their products. Members of the DTP Forum are encouraged to join for further desktop publishing support. +

Echelon Development WINAPB

Echelon Development produces Windowcraft, an application development package for the Windows 3.0 environment. Windowcraft is supported in the Echelon section of the Windows Third Party Applications B Forum. +

EETNet EETNET

The Electronic Engineering Times newspaper provides forums for electronic engineers to exchange information and ideas with other engineers and companies. While in EETNet, join one, two or all three forums: the Profession Forum for career and professional issues; the Japan Forum for discussions with and about Japanese engineers; or the Engineering Forum for discussions on technical issues and design problems. EETNet also provides headline news from the EE Times to brief you on what is happening in the world of electronics, as well as current job opportunities for electronic engineers. +

E-Mu Systems MIDIVENDOR

Find support for E-Mu Systems in the E-Mu Systems section of the MIDI Vendor Forum. E-Mu manufactures sampling keyboards such as Emulator II, Emulator III, Proteus/1 and Proteus/2, along with an electric piano module called Proformance. +

Enable Software, Inc. PCVENA

Enable Software supports ENABLE/OA and ENABLE/GE in the PC Vendor A Forum. ENABLE is a live-function integrated product for the IBM PC and compatible computers. +

Engineering Automation Productivity Forum LEAP

The Engineering Automation Productivity Forum, sponsored by the League for Engineering Automation Productivity (LEAP), hosts discussions about CADD/CAM and other programs that are used by engineers, architects and other professionals for computer-aided design. Members help one another find the right software programs for specific applications and draw from their own expertise to offer tips and techniques on using the programs. The libraries are also full of articles about engineering technology and software applications. +

Epson Forum EPSN

The Epson Forum provides Epson microcomputer printer users with product information, technical assistance, public domain software and a nationwide communications network. Also included are a message exchange area, database 'reference libraries' and forums that offer the Epson user valuable technical insight into the product's use. Representatives from Epson make frequent appearances to answer questions. +

Evolution Computing EVOLUTION

Evolution Computing provides support for its DOS-based computer aided design products, EasyCAD and FastCAD, in the EasyCAD/FastCAD section of the CADD/CAM/CAE Vendor Forum. +

Farallon PCVENE or MACCVEN

Access the Farallon section of the PC Vendor E Forum to get support for PhoneNET Talk Software, PhoneNET Card PC for Local Talk and Timbuktu. Farallon also supports its complete line of Macintosh products within its section of Mac C Vendor forum. +

Fifth Generation Systems MACAVEN

Powerstation, Suitcase II, Pyro! and Disklock are just a few of the products that Fifth Generation Systems supports within its section of the Mac A Vendor Forum. +

FontBank FONTBANK

FontBank produces a complete line of fonts for the desktop publishing and word processing markets. Support is provided for the fonts in the FontBank section of the Desktop Publishing Vendor Forum. +

Foresight Corporation PCVENA

Support for Drafix Windows CAD, Drafix CAD Ultra, Otto and Drafix CAD Overlay is provided by Foresight in the PC Vendor A Forum. +

Forth Forum/Creative Solutions FORTH

This forum is sponsored by Creative Solutions, Inc., to support its Forth products and to answer all general Forth questions. Forth is a powerful but compact programming language well-loved by programmers. +

Fox Software Forum FOXFORUM

The Fox Software Forum provides support for Fox database management and graphics software. Software supported includes FoxPro, FoxBASE+ and FoxBASE+/Mac. Support is also provided for third-party software, hardware, applications and development, operating systems and consultants. The libraries contain templates, technical notes and programs for use with Fox software. +

Future Soft Engineering DYNACOMM

Future Soft Engineering, Inc. provides support for its multiple platform communications software including DynaComm Asynchronous Edition and DynaComm Synchronous Edition for 3270 communications in the Future Soft section of the Windows Third Party Applications A Forum. +

Gadgets By Small, Inc. ATARIVEN

In the Atari Vendor Forum, Gadgets By Small supports its Macintosh Plus emulator for the Atari ST series computer, the Spectre 128. +

Gammalink PCVEND

Gammalink provides product support for its Gammalink Network-Ready Micro-Processor Based Fax Boards and Gammalink Software in its section of the PC Vendor D forum. +

Gateway 2000 PCVENC

Gateway 2000 representatives support Gateway's full line of IBM compatible microcomputers including 2686/16, 386SX-16, 386SX-20 cache, 386-25, 386-33 cache, 486-25 cache and 486-33 cache systems within Gateway's section of PC Vendor C. +

GCC Technologies MACBVEN

Find technical support from GCC Technologies within its support section of the Mac B Vendor Forum. Some of the products supported include GCC's complete line of hard disk drives, QuickEnvelope, QuickSpool II and Headliners. +

Genus Inc. GENUS

Genus Inc. provides support for its full line of graphics programming toolkits in the Genus section of the Graphics Vendor Forum. +

Geographix WINAPA

Geographix produces a series of seismographic and geological analysis applications for the Windows 3.0 environment including SeisMap, which are supported in the Geographix section of the Windows Third Party Applications A Forum. +

Global Softworks Ltd. GSLSUPPORT

Global Softworks provides support for its GeoClips clip art packages in the Graphics Vendor Forum. GeoClips packages provide over 250 pieces of high quality original and public domain clip art for GeoDraw, suitable for both business or personal use. +

Glockenspiel GLOCK

Glockenspiel produces and supports Glockenspiel C++, a programming language, along with CommonView in the Glockenspiel section of the Windows Third Party Applications C Forum. +

GO Corporation PCVEND

Find technical support for GO Corporation's PenPoint, a general purpose operating system, in the PC Vendor D Forum. +

Graphics Software, Inc. RIGD

Graphics Software provides support for its graphics program BIG-D in the Graphics Vendor Forum. BIG-D provides realistic renderings for AutoCAD users and performs texture-mapping, shadow-casting and light-sourcing tasks. +

Graphics Vendor Forum GRAPHVEN

The Graphics Vendors Forum provides support from manufacturers of graphics hardware and software products. Company representatives from graphics vendors are available online to answer questions on the installation and use of their products and to offer tips to help you get the most out of your investment. This forum includes the following companies: Digital Vision, Genus Inc., Global Softworks Ltd., Graphics Software, Inc., Jovian Inc., Mathematica, Inc., Paul Mace Software, Rix Softworks, and STB Systems. See each vendor's individual description within this section for a list of supported products. +

Great American Software PCVENB

Great American Software supports its full line of One-Write Plus products in its section of the PC Vendor B Forum. +

Gribnif Software ATARIVEN
Gribnif Software supports its full line of Atari products within its section of the Atari Vendor Forum. +

Hardware Forums HARDWARE
Hardware Forums enable users of particular hardware to exchange ideas. Many forums provide interaction with hardware manufacturers and include extensive libraries which contain software programs.

Harvard Associates, Inc. LOGOFORUM
Harvard Associates provides support for its Logo products such as PC Logo and Valiant Turtle in the Harvard Associates section of the Logo Forum. +

hDC Computer Corp. WINAPA
hDC Computer Corporation produces a complete line of utilities for the Windows 3.0 environment including hDC File Apps, hDC First Apps, hDC Icon Designer, hDC Power Launcher and hDC Windows Express. These products are supported in the hDC section of the Windows Third Party Applications A Forum. +

Hi-Q International WINAPA
Hi-Q International produces Mission Control, communications software for the Windows 3.0 environment, which is supported in the Hi-Q section of the Windows Third Party Applications A Forum. +

Hooper International PCVENC
TAKIN' CARE OF BUSINESS and CHEQUE-IT-OUT are supported by Hooper International in its support section of the PC Vendor C Forum. +

HP Peripherals Forum HPPER
The Hewlett-Packard Peripherals Forum provides support for HP peripherals such as printers, plotters, scanners, fax units and storage devices. HP's Personal Peripherals Assist Group and other users are online to answer technical questions about installation, configuration, utilities, usage and trouble-shooting. In addition, files such as device drivers, data sheets and application notes are available for downloading. +

HP Systems Forum HPSYS
The Hewlett-Packard Systems Forum provides support for HP systems such as personal computers, calculators, network products, mini-computers, workstations and software. Hewlett-Packard product experts from around the world give answers and trouble-shooting advice for products like Vectra, NewWave, 95LX Palmtop and Series 3000. The library files contain data sheets, application notes and shareware programs. +

Hyperkinetix, Inc. PCVEND
The Hyperkinetix section of the PC Vendor D Forum provides support for The BUILDER, DeltaFile, DemoIT! and Warplink. +

Hyperpress Publishing MACBVEN
To obtain assistance with Hyperpress Publishing products such as Icon Factory, Intelligent Developer, PictureAccess, SuperPalette and SlepAhead, access the Hyperpress section of the Mac B Vendor Forum. +

Hyphen HYPHEN
Hyphen provides support for its line of raster image processors for the desktop publishing market in the Hyphen section of the Desktop Publishing Vendor Forum. +

IBM Applications Forum IBMAAPP
The IBM Applications Forum addresses core applications for the PC including word processing, database management, business and personal accounting, business graph-

ics, desktop publishing and educational software. You'll find thousands of downloadable programs in the libraries of this forum. Many industry experts participate in lively discussions on the forum message board. +

IBM Bulletin Board Forum IBM8BS
The IBM Bulletin Board Forum provides information about bulletin boards for IBM PCs and compatibles. Messages and libraries cover uploads, BBS programs, utilities, standards, doors, BBS management, hardware, user questions and answers and more. Libraries also contain listings of BBS's and BBS notices. +

IBM CAD PCVENC
Access the PC Vendor C Forum for support for IBM CAD, a full function Computer Aided Design and Drafting system with 3D wireframe capabilities for 286 and up IBM compatible machines operating under DOS or OS/2. +

IBM Communications Forum IBMCOM
This forum is devoted to the topic of telecommunications on the IBM personal computer and compatible computers. Public domain and commercial communications programs are supported. +

IBM European Users Forum IBMEUROPE
The IBM European Users Forum provides information on IBM PCs and compatibles as they apply to European users. The forum contains information on accessing CompuServe from Europe, answers to questions regarding modem configurations and software needs, keyboard drivers, foreign characters, multilingual user problems and more. +

IBM File Finder IBMFF
IBM File Finder is an online comprehensive keyword searchable database of file descriptions found in the most popular IBM-related forums. It was designed to provide quick and easy reference to some of the best programs and files available in the following forums: Adobe, Ashton-Tate, Borland Applications, Borland Database Products, Borland Programming A, Borland Programming B, Crosstalk, Data Based Advisor, Fox Software, IBM Applications, IBM Bulletin Board, IBM Communications, IBM Desktop, IBM Hardware, IBM OS/2, IBM Programming, IBM New Users, IBM Special Needs, IBM Systems/Utilities, LDC Words & Pixels, Lotus Spreadsheets, Microsoft Applications, Microsoft BASIC, Microsoft Client Server Computing, Microsoft DOS 5.0, Microsoft Excel, Microsoft Languages, Microsoft Operating Systems/Development, Microsoft Systems, Microsoft Windows Advanced, Microsoft Windows New Users, Microsoft Windows SDK, Novell A, PC Vendor A, PC Vendor B, PC Vendor C, PC Vendor D, TAPCIS, Windows 3rd Party A, Windows 3rd Party B, Windows 3rd Party C, WordPerfect Support Group A, WordPerfect Support Group B and Zenith Data Systems. You can search by topic, file submission date, forum name, file type, file extension, file name or submitter's user ID. +

IBM Hardware Forum IBMHW
The major theme in the IBM Hardware Forum is the discussion of the various products available for the PC. The PC world changes rapidly, and keeping up-to-date on new developments and sharing experiences with certain products make purchasing decisions easier. In the libraries are hardware-related programs and reviews of new and useful products. +

IBM New Users/Fun Forum IBMNEW
If you are just getting started with your IBM, either in the world of communications or using the CompuServe forums, this is the forum for you. You will find lots of helpful hints from expert users and SysOps, plus many entertainment programs. +

IBM OS/2 IBMOS2
Users of IBM's OS/2 can share information and experiences in the IBM OS/2 Information Exchange Forum. In the Exchange, users of OS/2 discuss topics related to the OS/2 operating system such as hardware requirements, version differences and problem-solving. Through the message boards, conferences and libraries, you can learn more about IBM OS/2, find answers to questions, get technical assistance from experienced users and participate in online conferences with other IBM OS/2 users. +

IBM PC Users Network IBMNET
This area is devoted to the topic of the IBM Personal Computer and IBM PC compatibles. It includes a wide variety of special interest forums that address the needs of both new and expert users.

IBM Programming Forum IBMPRO
If you are interested in programming for the IBM PC or compatible, the IBM Programming Forum is for you. IBMPRO contains assemblers, source codes in a variety of languages, and help from other programmers. Experienced programmers will find valuable information, and beginners will discover hints, tips and tutorials. +

IBM Systems/Utilities Forum IBMSYS
In this forum you'll find the latest and greatest in general utilities and information on the various operating systems and environments available for the IBM-PC including multitasking and OS/2. In the libraries, you'll find various programs including DOS additions and improved DOS utilities, as well as resident desktop utilities and all those small programs that make living with a PC easier. Download many popular shareware programs including menu programs, file managers and disk managers. +

ICD, Inc. ATARIVEN
ICD supports the following products for the Atari 8 bit computer: US Doubler, P-R: Connection, ACTION!, The ACTION! Toolkit, MAC/65, The MAC/65 Toolkit, BASIC XL, The BASIC XL Toolkit, BASIC XE, SpartaDOS Construction Set, The SpartaDOS Toolkit, Printer Connection, RAMBP XL, Multi I/O, FlashBack!, R-Time 8 and hard disk drives. The following products for Atari ST and MEGA ST computers is supported in this same section of the Atari Vendor Forum: Personal PASCAL version 2.0, BBS Express! ST, ICD ST Host Adapter, ICD Host/Controller Kits, Complete hard drive kits and FAST hard drives. +

ICOM Simulations ICOM
ICOM Simulations provides support for its screen saver programs and utilities including Intermission and On Cue II in the ICOM section of the Windows Third Party Applications A Forum. +

Impulse, Inc. AMIGAVENTOR
Impulse, Inc. supports its full Amiga product line including Imagine, Terrain and VD1 in the Amiga Vendor Forum. +

InfoWorld On-Line INFOWORLD
The InfoWorld On-Line library provides the full text of articles from the current and prior weeks of InfoWorld and access to the InfoWorld database. In the database you can search through the hundreds of product comparisons, reviews and test-drives from InfoWorld's test center. +

Inline Design MACCVEN
Inline Design supports its full line of Macintosh products within its section of the Mac C Vendor Forum. Inline's products include Darwin's Dilemma and Tesseract (color puzzle games), Cliff Johnson's 3 in Three and Swamp Gas Visits the United States of America. +

Innovative Data Concepts PCVENC

Innovative Data Concepts offers full support services for its product line in the PC Vendor C Forum. IDC's SWAP Utilities programs, SWAPODOS and TesSeRact are supported within the forum. +

Inovatronics AMIGAVENTOR

Inovatronics' product list includes PowerWindows 23.5, C.A.P.E. 68K 2.5, InovaTools1 and CanDo. These products are supported within Inovatronics' support section of the Amiga Vendor Forum. +

Intel Forum INTELFORUM

The Intel Forum offers support for Intel's products. Intel's Personal Computer Enhancement Division is online to provide assistance in using Intel's modems, fax boards, LAN products, accelerator boards and co-processors, and its Development Tools department supports Intel's compilers and emulators. Check the libraries for the latest drivers, software revisions and product information or use the message area to ask questions about compatibility, price and other product issues. +

INTERSECT Software Corporation ATARIVEN

INTERSECT Software supports Interlink ST and Deluxe Piano in its section of the Atari Vendor Forum. +

Iomega Corporation PCVENC or MACCVEN

Iomega support representatives support Iomega's Bernoulli Box line of reliable data storage within the Iomega section of the PC Vendor E Forum. Iomega also supports its full line of Macintosh product in its section of the Macintosh C Vendor forum. +

IRUG Forum IRUG

Sponsored by Intel for its iRMX User's Group (iRUG), this forum provides technical support for users of the iRMX Operating System. The libraries contain downloadable text and program files, and the message board offers forum members opportunities to exchange development ideas on iRMX products with other iRMX users. +

ISD Marketing ATARIVEN

ISD Marketing supports its full line of products for the Atari including VIP, DynaCadd and Calamus in its section of the Atari Vendor Forum. +

ISICAD, Inc. ISICAD

ISICAD provides support for its complete line of integrated graphics and database systems for the architectural engineering, facilities management and communications management markets, including its popular CADVANCE product, in the ISICAD/CADVANCE section of the CADD/CAM/CAE Vendor Forum.

Jasik Designs MACBVEN

Jasik Designs supports its MacNosy and The Debugger products within its section of the Mac B Vendor Forum. +

Javelin/EXPRESS Forum IRIFORUM

Information Resources Incorporated provides support for users of Javelin and EXPRESS software in the IRIFORUM. Javelin is the leading financial modelling tool available and has presentation-quality graphics. EXPRESS is a line of decision support software that can enhance your productivity by enabling you to make more informed decisions. The IRIFORUM helps you take full advantage of Javelin and EXPRESS's capabilities. Forum members can download demo programs. +

JLCooper Electronics MIDIVENDOR

Find support for JLCooper's leading MIDI accessories in the JLCooper section of the MIDI Vendor Forum. Specific prod-

ucts supported include switching boxes, data mergers and automated MIDI mixing equipment. +

Jovian Inc. JOVIAN

Find support for Jovian Inc.'s product line in the Jovian section of the Graphics Vendor Forum. Jovian products include SuperVIA, VIN, VINPlus, Gloria digitizer and Genie sound board. +

J.P. Software JPSOFT

J.P. Software provides technical support for its 4DOS program in the PC Vendor B Forum. +

Kidasa KIDASA

Kidasa Software produces and supports Milestones, Etc., a project scheduling application program, in the Kidasa section of the Windows Third Party Applications B Forum. +

Knowledge Garden KNOWLEDGE

Knowledge Garden provides support for KnowledgePro for Windows, a development environment for the Windows 3.0 environment. KnowledgePro is supported in the Knowledge Garden section of the Windows Third Party Applications B Forum. +

Korenthal Associates, Inc. PCVENC

Korenthal Associates supports the following products in its section of the PC Vendor B Forum: Webster's New World software series, 4PRINT and TAPMARK. +

Kurzweil Music Systems - Young Chang MIDIVENDOR

Kurzweil Music Systems provides support for its sampling equipment in the YC/Kurzweil section of the MIDI Vendor Forum. Its products include the Kurzweil 250 and the 1000 series sample playback units. +

LDOS/TRSDOS 6 Forum LDOS

The LDOS/TRSDOS 6 Forum welcomes all users of the Radio Shack TRS-80 Models 1, 3, 4, 4P, 40 as well as 'work-alike' computers such as the LOBO MAX-80. Topics discussed include BASIC, C, Fortran, Ratfor, the Z-80 assembly language and the 'hardware' of the TRS-80 product line. In addition, users of TRS-80 hardware and software and the LDOS 5.1 and TRSDOS6 operating systems can gain support. +

Lexicor Software ATARIVEN

Lexicor Software provides technical support for its full line of animation products within the Lexicor section of the Atari Vendor Forum. +

Logo Computer Systems, Inc. LOGOFORUM

Find support for LogoEnsemble, The Phantom Fish Tank, Logo II, LogoExpress and LogoWriter in the LCSI section of the Logo Forum. +

Logo Forum LOGOFORUM

The Logo Forum uses a light-hearted approach to explore the use of the Logo computer language and technologies that influence our lives. Cartoon characters keep interest high. Vendors are available online and provide support for their products. This forum includes the following companies: Harvard Associates, Inc., Logo Computer Systems, Inc., Paradigm Software, Inc., Power Industries LP, Schemers Inc. and Terrapin, Inc. See each vendor's individual description within this section for a list of supported products. +

Lotus Spreadsheet Forum LOTUSA

The Lotus Spreadsheet Forum provides users of Lotus 1-2-3, Lotus Symphony, HAL and Jazz with information and product support. Here you can communicate with other Lotus users and download models, command-language programs or templates for use with these Lotus products. You can also communicate with experts and consultants who have had similar experiences. +

Lotus Technical Library LTL

At the Lotus Technical Library, you will find an extensive library of technical bulletins about all Lotus products and releases from spreadsheets to word processing. Lotus users can search the library to receive helpful tips and accurate information about any Lotus product. +

Lotus Word Processing Forum LOTUSWP

The World of Lotus brings you the Lotus Word Processing Forum to provide thorough product support for users of Ami Pro, Ami, Lotus Manuscript, Samna Word IV and SmartText word processing programs. By interacting through the message boards and conferences, members can build on one another's ideas and experiences to better understand the programs and to learn how to get better results for different applications. +

Lotus Words & Pixels Forum LOTUSB

Users of Lotus Magellan, Freelance, Freelance Plus, Users of Lotus Metro, Lotus Express, Lotus Agenda Graphwriter, Lotus Metro, Lotus Express, Lotus Agenda and other non-spreadsheet Lotus products can exchange ideas in the Lotus Words & Pixels Forum. Members discuss graphics business communication such as charts, diagrams, word charts, freehand drawings, symbols and maps. +

Mac Applications Forum MACAP

Join the Mac Applications Forum to get the most from your Macintosh application programs. This forum hosts discussions about Macintosh applications for word processing, databases, graphics and spreadsheets. Learn more about the programs you use or about other Mac programs that can help you get the job done. +

Mac A Vendor Forum MACAVEN

The Mac A Vendor Forum features Macintosh vendors delivering online support to their customers. The following companies and the products they support are included in this forum: Activision, Broderbund, CE Software, Claris, Connectix, Daystar Digital, DeltaPoint, Fifth Generation Systems, Mainstay, Paragon Concepts, Portfolio Systems, Sitka and Survivor Software. See each vendor's individual description within this section for a list of supported products. For additional vendors and support, GO MACBVEN or GO MACCVEN. +

Mac B Vendor Forum MACBVEN

The Mac B Vendor Forum features Macintosh vendors delivering online support to their customers. This forum includes the following companies: Altsys Corp., Berkeley Systems, Deneba Software, GCC Technologies, Hyperpress Publishing, Jasik Designs, Microseeds Publishing, Olduvai Corporation, Radius, Software Ventures, SuperMac Technology, Tactic Software, T/Maker and Working Software. See each vendor's individual description within this section for a list of supported products. For additional vendors and support, GO MACAVEN or GO MACCVEN. +

Mac C Vendor Forum MACCVEN

The Mac C Vendor Forum features Macintosh vendors delivering online support to their customers. This forum includes the following companies: Aladdin Systems, Avatar Corp., Baseline Publishing, CoStar Corporation, Inline Design, Iomega Corporation, TMS Peripherals Softsync, Inc. and Farallon. See each vendor's individual description within this section for a list of supported products. For additional vendors and support, GO MACAVEN or GO MACBVEN. +

Mac File Finder MACFF

Browsing through forum files has never been easier. Mac File Finder is an online comprehensive keyword searchable database of file descriptions of the most popular Macintosh-related forums. Use this database to locate and download interesting files from the following forums: Adobe, Ashton-Tate, Borland Applications, Borland Programming A, Fox Software, Mac Hypertext, Lotus Spreadsheets, Mac Applications, Mac A Vendor, Mac B Vendor, Mac C Vendor, Mac Communications, Mac Community Clubhouse, Mac Developers, Mac Entertainment, Macintosh System 7.0, Mac New Users and Help, Mac Systems, Microsoft Applications, Microsoft BASIC, Microsoft Excel, Microsoft Languages, Symantec and WordPerfect Support Group B. +

Macintosh Communications Forum MACCOMM

Information on Macs communicating with other Macs and with other personal computers is available in the Macintosh Communications Forum. It covers CompuServe Navigator, other terminal programs, facsimiles (FAX), scripts and tools, hardware, local area networks, connecting Macs to PCs and private bulletin board systems. Li-

braries contain upgrades, patches, press releases on modems, reviews, documentation, demos and more. +

Macintosh Community Clubhouse Forum MACCLUB

The Macintosh Community Clubhouse is the main area where Macintosh users go to get to know one another. Meet members of the Macintosh Community by attending special conferences or parties where members introduce new products and where rumors concerning Macintosh are discussed. Also in the Clubhouse, find out what's been recently uploaded in the other Mac Forums. +

Macintosh Developers Forum MACDEV

The Macintosh Developers Forum provides programming information for commercial Mac programmers, Mac developers, people who program for their own use, and new programmers. You can contact expert programmers and discuss BASIC, C and Pascal, assembly language and object oriented programming. Tools, debuggers, shareware, utilities and source code samples are also available. The system software which Apple licenses for electronic distribution is made available in the forum, including the latest versions of System, Finder, Macsbug and Resource Editor. Members of the MacApp Developer's Association meet to share information on the latest developments in object oriented programming tools. +

Macintosh Entertainment Forum MACFUN

This forum helps people discover fun and creative new ways to use the Macintosh. The forum also places each member in touch with like-minded Macintosh enthusiasts from all over the world. There are sections on games, music, sound and more. +

Macintosh Hypertext Forum MACHYPER

The Macintosh Hypertext Forum provides information on Hypertext, which are databases that use words, sounds and pictures. Discussions cover Hypercard, Hypertalk language, stack ideas and external resource programs. Support is also provided for programs of developers who work outside of Apple, including SuperCard and Plus+. The libraries contain press releases, demos, shareware, utilities, games, educational tools, music and sounds, source code and personal databases. +

Macintosh New Users and Help Forum MACNEW or MACHELP

Are you a new Mac user suffering from confusion and overload? Then GO MACNEW or MACHELP to join the Macintosh New Users and Help Forum where experts are available to answer your questions and help you gradually work through your system. Feel free to consult the experts as often as necessary until you feel comfortable using your Macintosh computer. +

Macintosh System Forum MACSYS

The Macintosh System Forum is devoted to helping you get the most from your Mac System hardware and software. The message board enables you to learn how to set up and use your System Software according to your needs. By communicating with Macintosh experts and users, discover how to choose printer defaults, what hardware is needed for desired results and how to connect the hardware and use it in conjunction with the software. +

Macintosh System 7.0 Forum MACSEVEN

Join this forum to get information and help in using Macintosh System 7.0 — system software for the Macintosh that enables you to do multitasking and access virtual memory. Participate in discussions on the message board and conferencing area about topics related to System 7.0, such as extensions, Apple menu documents and publishing. Access the forum's libraries for additional information and guidance. +

Macola Incorporated PCVENC

Macola supports its full line of accounting packages in its support section of the PC Vendor C Forum. The products supported included General Ledger, Accounts Receivable, Accounts Payable, Payroll, Assets and Depreciation. +

MacUser Forum ZMC:MACUSER

The MacUser Forum, part of Zmac, gives you an opportunity to interact with the editors, writers, columnists and other readers of the magazine. You'll have instant access to free downloadable utilities — evaluated and tested in Macuser's labs and exclusive System 7.0 utilities designed by MacUser. The complete indexes of MacUser (and MacWEEK) are available online, so you can quickly and easily find information. +

MacWEEK Forum ZMC:MACWEEK

The MacWEEK forum, part of Zmac, lets you exchange ideas with the editors and writers of the magazine. Also you can take a look at the headlines and summaries of the news stories the Saturday before they are published. The complete indexes of MacWEEK (and MacUser) are available online, so you can quickly and easily find information. +

Magee Enterprises, Inc. MAGEE

Magee Enterprises supports Automenu, Treeview and Screen Manager Professional in its section of the PC Vendor A Forum. +

Magma Systems PCVEND

Magma Systems supports its MEWEL Window Library and ME Text Editor in its section of the PC Vendor D Forum. +

Mainstay MACAVEN

Mainstay provides online support in the Mac A Vendor Forum for its line of products including Think'n Time, MacFlow, MacSchedule, Telescape and Visual Interactive. +

Mansfield Software Group PCVENA

KEDIT, REXX and Personal REXX are supported in the Mansfield Software Group's section of the PC Vendor A Forum. +

Markt & Technik AG MTD

Markt & Technik AG is a leading publisher of German Computer Magazines, which include *Computer Persoentich*, *PC Magazin* (German Issue) and *Computer Live*. These publications are targeted to the business and private user of personal computers. This forum enables the readers of M&T's publications to communicate among each other and with the editors of the magazines. The libraries contain programming code and samples, which are published in M&T's magazines. The messages and library files in this forum are in German. +

Matesys Corp. MATESYS

Matesys Corp. provides support for its graphical interface development tools for Windows 3.0 and SQL Server including Object Script, Object Tel, Object View and Simple Win. Support for these products is in the MATESYS section of the Windows Third Party Applications C Forum. +

Mathematica, Inc. TEMPRA

Mathematica Inc. provides support for its Tempra Pro paint program in the Tempra section of the Graphics Vendor Forum. +

Maxwell CPU ATARIVEN

Access the Maxwell CPU section of the Atari Vendor Forum to obtain technical support for Megstender, GoGo-ST and Fractal Fantasy. +

MECA Software Forum MECA

The MECA Software Forum provides support for users of Checkwrite Plus, Home Lawyer, TaxCut, Managing the Market, Financial Calculator, The Managers Organizer and Managing Your Money. Communicate directly with MECA's technical support and with other members who use MECA's full line of products. +

Megahertz PCVENC

Megahertz manufactures a complete line of laptop enhancement products including Modems, LAN adapter cards for both Ethernet and Token Ring LANs, 3270/5250 Terminal Emulation, 3270/5250 remote terminal emulation cards and Memory upgrades. Support for these and other Megahertz products is provided in the Megahertz section of PC Vendor C. +

Meridian Data MERIDIAN

Meridian Data provides support for its multimedia products in the Meridian Data section of the Multimedia Vendors Forum. Meridian Data products include CD-ROM authoring and pre-mastering systems, CD Net networked CD-ROM drives and file servers, MacCD desktop recordable CD-ROM systems for in-house prototyping and low volume CD-ROM duplication and DOS and Macintosh drivers for a variety of CD-ROM drives. +

Metz Software METZ

Metz Software provides technical support for its complete series of utility applications such as Metz File Manager F/X and Metz Shareware products. These products are supported in the Metz Software section of the Windows Third Party Applications C Forum. +

Michtron ATARIVEN

Michtron supports its full line of Atari products in its section of the Atari Vendor Forum. +

Micrografx MICROGRAFX

Micrografx provides support for professional graphic construction programs such as Charisma, Designer, Draw Plus, Picture Publisher and XPort in the Micrografx section of the Windows Third Party Applications A Forum. +

Microseeds Publishing MACBVEN

Support for Rerdux, Rival, Initpicker, Screen Gems and Astrix is provided by Microseeds Publishing within its section of the Mac B Vendor Forum. +

Microsoft Applications Forum MSAPP

Take advantage of the support available for all of your Microsoft applications on the Microsoft Applications Forum. Microsoft support personnel provide support for applications products including all versions of Microsoft Word, Microsoft Works, Microsoft Mouse and Microsoft Windows applications. Both the message sections and the libraries contain information and files that can help you use Microsoft applications more effectively. +

Microsoft Central Europe Forum MSF

The Microsoft Central Europe Forum supports Microsoft's programming languages and hosts discussions among Microsoft users and Microsoft Central Europe. Visit the forum's libraries for products such as drivers, programming samples and other Microsoft local language products. For additional support, see other Microsoft forums in this section. +

Microsoft Client Server Computing Forum MSNETWORKS

The Microsoft Client Server Computing Forum provides in-depth information about Client Server. Information is also available about the Microsoft LAN Manager network operating system and the SQL Server database. Support personnel at Microsoft monitor this forum to ensure that correct information is presented. Files from the Microsoft Operating Systems and Development Forum that are related to the Client Server are located in the libraries in this forum for easy access. +

Microsoft Connection MICROSOFT

The Microsoft Connection provides you with company information and access into the Microsoft Forums. You can communicate directly with Microsoft and other users of Microsoft software. The Microsoft Connection includes technical product information, sales and training information, information about product support services, and the Microsoft software library with files for downloading. Access is also provided to the Microsoft KnowledgeBase (GO MSKB), which enables you to access the Microsoft engineering support files used by Microsoft support engineers for product support. +

Microsoft Developer Support Forums MSDEV

Microsoft Connections provides the following four forums to give support for users of Microsoft products for program development: BASIC, Client Server Computing, Languages and Windows. Each forum provides members with nontechnical support. +

Microsoft DOS MSDOS

The Microsoft Connection supports users of MS-DOS through the Microsoft DOS Forum. In the message section and conference area, members share information about all aspects of MS-DOS including setup and installation, hardware, conversions and command usage. Representatives from Microsoft Product Support Services participate in this forum to make sure that MS-DOS users get the most current information available. A special Developers Exchange section is available for members to share development ideas. +

Microsoft End-User Support Forums MSUSER

Microsoft offers several forums in which users of various programs can access technical support directly from Microsoft representatives and other members. These forums include Microsoft Applications Forum, Microsoft Client Server Computing Forum, Microsoft Excel Forum and Microsoft DOS Forum. +

Microsoft Excel Forum EXCEL

The Microsoft Excel Forum provides technical support for all versions of Microsoft Excel. Templates and spreadsheets are available for downloading. +

Microsoft Knowledge Base MSKB

Microsoft Knowledge Base is a database which provides access to information about Microsoft products previously available only to the Microsoft support engineers. Search the database by product name, version or category. Or for immediate responses to your questions, perform a full-text search of all documents contained within database that contain the subject of your question. Also communicate directly with Microsoft by sending an electronic message to its Help Desk. +

Microsoft Languages Forum MSLANG

Users of Microsoft software and operating systems are invited to join the Microsoft Languages Forum, operated by the Microsoft Product Support Group. Members have direct access to technical support about using program-

ming languages such as C, QuickC and QuickPascal. Microsoft libraries feature more than 2000 files containing macros, utilities and shareware. +

Microsoft Windows Advanced User Forum WINADV

Power users of Microsoft Windows communicate with one another to solve problems and share experiences in the Microsoft Windows Advanced User Forum. Microsoft's Product Support Group is online to answer members' questions about items such as accessories, batch files, com ports, enhanced mode, games, graphics and memory. Talk with Customer Service representatives about non-technical questions such as ordering and order tracking. +

Microsoft Windows New User Forum WINNEW

Whether you have just started using Microsoft Windows or have yet to install it, joining the Microsoft Windows New User Forum will soften the bumps in your road to success. As a member, you will receive information about the fundamentals of using Microsoft Windows such as Setup/Install, Running DOS applications, Icons/Bitmaps, Printing and Paintbrush directly from Microsoft's Product Support group. Advanced users are also encouraged to join to share their experiences with Microsoft Windows. Customer Service provides nontechnical information such as ordering and order tracking. +

Microsoft Windows SDK Forum WINSDK

Developers using the Windows Software Development Kit will want to take advantage of the community of assistance and support available in the Windows SDK Forum. Help is available for subjects such as tools, accelerators, controls, dialogue boxes, memory management, fonts, palettes and color. +

Microware Online Support MICROWARE

Microware Online Support introduces Microware products to interested parties and aids users of Microware software. The service answers members' technical questions about OS-9, a multi-user, multi-tasking operating system, and provides direct access to Microware and information about tutorials and known software problems. +

MIDI Vendor Forum MIDIVENDOR

Whether you are an experienced or novice user of MIDI music products, you can communicate directly with several vendors in the MIDI industry by joining the MIDI Vendor Forum. Vendors participating in this forum provide you with easier access and wider support for their products. Also professional musicians who are members in this forum discuss their experiences with MIDI and can further provide you with recommendations. This forum includes the following companies: Big Noise Software, Inc., E-Mu Systems, JLCopier Electronics, Kurzweil Music Systems - Young Chang, Opcode Systems Incorporated, Turtle Beach Systems and Twelve Tone Systems. See each vendor's individual description within this section for a list of supported products. For additional MIDI support and vendors, access the MIDI/Music Forum, GO MIDIFORUM. +

MIDI/Music Forum MIDIFORUM

The MIDI/Music Forum is for members interested in Musical Instrument Digital Interface. Topics covered here include recording, synthesizers, samplers and music in different computing environments. If you are familiar with MIDI, download files from the musical composition libraries to play at your leisure. +

Model 100 Forum M100SIG

The Model 100 Forum is intended for the users of the TRS-80 Model 100. Members can share knowledge, experiences, programs and product information with other members. There are 17 message board topics and databases which contain 1,000+ files of interest to Model 100 users. The library and message board also support Tandy models 200 and 600. +

Multimedia Forum MULTIMEDIA

The Multimedia Computing Corporation offers this forum for people who are interested in the emerging technology of multimedia, the use of audiovisual enhancements with computers. The use of computer enhancements such as audio, video, animation and music, along with platform-specific topics are common areas of discussion in this forum. Members can learn from one another's experiences and knowledge and find application ideas through the conference area and message boards. +

Multimedia Vendors Forum MULTIVENDOR

When you are ready to add video, sound, animation or music capabilities to your computer, join this forum to find answers to your questions about many of the leading multimedia hardware and software products. Learn about other members' first-hand experiences in multimedia equipment for purchasing advice. Vendors are online to help you choose the right equipment for your application. This forum includes the following companies: Authorware, Center for Electronic Arts, Meridian Data, nTergaid, Owl International, VideoLogic and The Voyager Company. See each vendor's individual description within this section for a list of supported products. +

Multisoft Corporation PCVENA

Multisoft supports Super PC-Kwik Power Pak, PC-Kwik Power Disk and Super PC-Kwik Disk Accelerator in PC Vendor A. +

Mustang Software PCVENA

Mustang Software supports WILDCAT! Bulletin Board system, QMODEM, OFFR-LINE, vCMHS and MIDNIGHT MAIL in the Mustang Software section of the PC Vendor A Forum. +

Nantucket Forum NANFORUM

The Nantucket Forum is designed primarily for Clipper and McMax users, but can be beneficial to anyone interested in developing database applications. Clipper developers can learn about creating user-defined functions, using powerful language extensions, building networking applications, accessing quick menu-building routines, and integrating C, Assembly and other languages. McMax users will discover how to run existing dBase applications on the Macintosh, use programmable pull-down and pop-up menu commands, and develop true Macintosh database applications. For German support, see the Nantucket Germany Forum (GO NANGMBH). +

Nantucket Germany Forum NANGMBH

The Nantucket Germany Forum supports Nantucket's German-speaking customer base in Germany, Switzerland and Austria. Members can directly communicate in German with Nantucket's technical and marketing staff or browse the forum's libraries for German programs and support. For additional Nantucket support, see the Nantucket Forum (GO NANFORUM) and the Nantucket Reference Center (GO NAN). +

Nantucket Reference Center NAN

Access the Nantucket Reference Center and you'll discover a world of informative articles and reference materials about Clipper and McMax. There's also a support log packed with undocumented Clipper facts. The Reference Center includes online articles from Nantucket's technical journal about developing in Clipper and McMax, along with programming tips not published anywhere else. +

National Window Users Group Network (WUGNET) WUGNET

The National Window Users Group Network (WUGNET), provides technical information to users and developers of software for the Windows 3.0 and OS/2 Presentation Manager environments. Included as part of the services is a bimonthly WUGNET Journal. Find support for WUGNET products in the Windows Third Party Applications B Forum. +

NBI LEGACY

NBI, Inc. produces Legacy, a word processing program developed for the Windows 3.0 environment. Legacy is supported in the NBI section of the Windows Third Party Application B Forum. +

NetFRAME Systems PCVENC

NetFRAME supports its Network Server Systems in its support section of the PC Vendor C Forum. +

New Horizons AMIGAVENTOR

New Horizons Software, Inc. produces personal productivity packages for the Amiga computer including ProWrite, ProScript and Flow. New Horizons supports these products online in the Amiga Vendor Forum. +

NewTek AMIGAVENTOR

NewTek has many products exclusively for the Amiga computer. NewTek's products supported in the Amiga Vendor Forum include Digi-View, Digi-Paint3, Digi-View Gold and the Video Toaster. +

NeXT Forum NEXTFORUM

The NeXT Forum provides technical support for users of the NeXT computers and products. Through the message sections and libraries, you can learn more about NeXT products such as Interface Builder, Edit and Webster and other NeXT application software from companies such as WordPerfect, Frame Technology and Lotus. +

Northgate Computer Systems, Inc. NORTHGATE

Northgate Computer Systems supports Microstation - high performance 286 Computer Systems; SlimLine - high performance 286, 386DX and 386SX computer systems, the SlimLine series; Elegance - high performance 386 and 486 computer systems; and Omni, including the Omnistation, OmniSystem and OmniKey keyboards in the Northgate Computer section of the PC Vendor A Forum. +

Norton/Symantec Forums SYMANTEC

The Norton/Symantec Forums section hosts a Symantec Application Forum (GO SYMFORUM) for users of Q&A word processing, Time Line, and other Symantec programs. Also featured is a utilities forum for both Norton and Symantec utilities software (GO NORUTL). Ask questions about Symantec's Anti-Virus and Norton's utility products for both PC and Macintosh equipment that allow you to backup, edit and organize your electronic files. Members frequent the message board to ask questions and solve problems. Data libraries offer reports, software and product reviews. +

Novell Forums NOVFORUM

Users of Novell's local area network products receive support and technical information directly from Novell through the Novell Forums. Issues such as compatibility and ways to integrate various types of hardware and software into Novell's systems are discussed.

Note that while all Novell forums include messaging and conferencing, only the Novell Library (GO NOVLIB) includes libraries and files.

Novell Forum A NOVA

This forum covers the topics relating some of the NetWare operating systems and Novell's communication products. This forum also includes libraries that contain utilities and programs provided by Novell and other members of the Novell forums. For more information about Novell products, see Novell Forum B, Novell Forum C, Novell NetWare 2.X Forum and Novell NetWare 3.X Forum. +

Novell Forum B NOV8

Network topologies, file servers and workstation issues are discussed in this Novell forum. Users of Novell systems can find support and answers to technical questions about backups, printing, cabling, media, UPS monitoring devices and disk drives. For information about Novell products, see Novell Forum A, Novell Forum C, Novell NetWare 2.X Forum and Novell NetWare 3.X Forum. +

Novell Forum C NOV8

Novell Forum C covers NetWare Requester for OS/2 and development, network management, upgrades and programming in the NetWare environment. Find out more about Novell's CNE program. Members can meet with Novell staff members and prospective resellers in this forum to exchange information and experiences about reselling and about becoming a reseller. Support is also offered for users of Btrieve. For more information about Novell products, see Novell Forum A, Novell Forum B, Novell NetWare 2.X Forum and Novell NetWare 3.X Forum. +

Novell Library NOVLIB

The Novell Library is the distribution point for all files uploaded or downloaded in NetWare. A message section is available for question about files that appear in the libraries. +

Novell NetWare 2.X Forum NETW2X

The Novell NetWare 2.X Forum provides information and answers to questions relating specifically to NetWare version 2.X. Individual sections are devoted to printing, utilities, disk drivers and controllers. For information on NetWare 3.X, see Novell NetWare 3.X Forum. +

Novell NetWare 3.X Forum NETW3X

The Novell NetWare 3.X Forum provides information and answers to questions relating specifically to NetWare version 3.X. Individual sections are devoted to printing, utilities, disk drivers and controllers. For information on NetWare 2.X, see Novell NetWare 2.X Forum. +

Novell NetWire NOVELL

Novell's NetWire provides 24-hour information and support for those who develop, sell, maintain and use Novell products. NetWire's online resources include product support, information, press releases, compatibility information, a technical bulletin database and a calendar of events. NetWire is updated daily with current information on installing, maintaining and using Novell's local area network products. +

nTergaid NTERGAID

Find online support for HyperWriter, nTergaid's hypermedia authoring software, in the nTergaid section of the Multimedia Vendors Forum, along with support for other hypermedia-related products. +

Olduvai Corporation MACBVEN

Olduvai provides support for its products including Read-It!, OCR for any scanner, Personal, MultiClip, ClipShare and Video Pain in the Olduvai section of the Mac B Vendor Forum. +

Online Today OLT

Online Today provides daily updated computer and information industry news, CompuServe news, product announcements, reviews of new hardware, software, books and more. +

Online Today Readers' Forum OLTFORUM

Readers of CompuServe Magazine and Online Today use this meeting place to learn how to use CompuServe more productively and efficiently. The forum administrators answer questions about articles appearing in CompuServe Magazine and help readers learn more about the online community and online computing in general. +

Online with Hayes HAYES

You'll find the latest information on Hayes and its hardware and software products in Online with Hayes. Learn firsthand about Hayes product introductions, upgrades and pricing. Full product descriptions, special support programs and the Online with Hayes Forum are contained in separate sections within this area. +

Online with Hayes Forum HAYFORUM

In the Online with Hayes Forum, members receive online technical support for Hayes products such as Smartcom, Smartmodems, ULTRA/OPTIMA, personal modems and JT Fax. Members share their knowledge and experiences with Hayes products and trade hints on installing, configuring, programming and using both the communication hardware and software. +

Opcode Systems Incorporated (MIDI) MIDIVENDOR

Find support for products developed by Opcode Systems in the Opcode section of the MIDI Vendor Forum. Opcode manufactures an array of products for the MIDI environment including Book of MIDI, CUE-The Film Music System, EZ Vision, Galaxy, Max MIDI Translator, MIDIplay, OMS, Studio Vision, Track Chart and Vision. +

Oracle Forum ORACLE

The Oracle Forum provides support for Oracle users and links them directly to Oracle developers and other professionals who respond to technical questions. Scan the forum's technical libraries for tips and solutions to common questions about Oracle products, including SQL*Forms, SQL*Plus and Pro*C. Also find software patches and programs. +

OS-9 Forum OS9

The OS-9 Operating System Forum is dedicated to users of the OS-9 operating system. The forum contains programs, utilities, data files, hints, tips and discussions that pertain to OS-9. +

Owl International (Multimedia) OWLINTL

Access the Multimedia Vendors Forum to find support for Owl International's multimedia-based products. These products include Guide 3.0 interactive multimedia/hypermedia authoring software for Microsoft Windows 3.0 systems and Guide 2.0 for Apple Macintosh systems. +

Owl International (Windows) WINAPB

Owl International produces and supports Guide, a file management application for the Windows 3.0 environment, in the Owl Intl. section of the Windows Third Party Applications B Forum. +

Pacific Data Products, Inc. PACDATA

Pacific Data Products manufactures a full line of printer utilities, drivers and spoolers including printer boards and cartridges. Find support for its products in the PC Vendor D Forum. +

Palmtop Forum PALMTP

The Palmtop Forum provides information about the smallest type of computers. Members discuss topics such as how to interface a palmtop with a desktop system and using a palmtop for telecommunications. Besides general discussions about palmtop computing, this forum also offers its members individual message sections and library files devoted to specific models and brands of palmtop computers. Several vendors of palmtop products are online offering technical support for their products. This forum includes the following vendors: Casio Inc., Databook Incorporated, Poget Computer, Sharp Electronics Corporation and Traveling Software, Inc. See each vendor's individual description within this section for a list of supported products. +

Paradigm Software, Inc. LOGOFORUM

Find support for Object Logo, developed by Paradigm Software for the Macintosh, in the Object Logo section of the Logo Forum. +

Paragon Concepts MACAVEN

The Paragon Concepts section of the Mac A Vendor Forum provides support for Paragon products including Nisus, QUED, QUED/M, MacTAG, MacQuerty, PUP and Laser TechFonts. Obtain information, demos, technical support, upgrades, macros and wish/suggestion lists within the section. +

Parsons Technology, Inc. PCVENC

MoneyCounts, Quickverse, Personal Tax Edge and other Parsons Technology products are supported within the PC Vendor C Forum. +

Paul Mace Software GRASP

Paul Mace Graphics Software provides support for its GRASP presentation/animation program in the Grasp section of the Graphics Vendor Forum. +

PC/Computing Forum ZNT.PCCONTACT

PC/Contact, part of ZiffNet, is a forum for discussions among PC/Computing's editors and readers. In addition to exchanging ideas or getting questions answered from your favorite writer or colleague online, you can contact the PC/Advocate about problems with vendors or talk to the Phantom Shopper to share your experiences with computer dealers around the country. Browse through the library for tips and download software programs. +

PC Magazine ZNT.PCMAGNET

PC MagNet, part of ZiffNet, is the source for some of the finest collections of utilities that meet the standards of PC Magazine. In addition to downloading utilities from the latest issues, you can also contact the staff at PC Magazine — tell the editors what you thought about their latest product reviews, debate the issues with the columnists or

get answers to your specific questions from the PC Labs technical experts online. +

PC Vendor A Forum PCVENA

The PC Vendor A Forum provides members with support from vendors of PC products. This forum includes the following companies: Broadview Communications, Broderbund, ButtonWare, Ctrlalt Associates, Custom Technologies, Enable Software, Foresight, Magee Enterprises, Mansfield Software, MathSoft, Multisoft Corporation, Mustang Software, Northgate Computer Systems Inc., Qualitas, Quercus and Sitka. See each vendor's individual description within this section for a list of supported products. Libraries contain help files, programs and patches for the products. For support from additional PC vendors, see PCVENB, PCVENC, PCVEND, PCVENE or specific software publisher's forums. +

PC Vendor B Forum PCVENB

The PC Vendor B Forum provides members with support from vendors of PC products. This forum includes the following vendors: Advanced Gravis Computer Technology, ChipSoft, DacEasy, Great American Software, Korenthal Associates, Personics Corporation, Primavera Systems, PRO-C Corporation, Prolog Development Center, Quarterdeck Office Systems, Quicksoft, SPECTRA Publishing and TurboPower Software. See each vendor's individual description within this section for a list of supported products. Libraries contain help files, programs and patches for the products. For support from additional PC vendors, see PCVENA, PCVENC, PCVEND, PCVENE or specific software publisher's forums. +

PC Vendor C Forum PCVENC

The PC Vendor C Forum provides members with support from vendors of personal computer products. This forum includes the following companies: Beyond, Inc., Brightbill-Roberts, Gateway 2000, Hooper International, IBM CAD, Innovative Data Concepts, Macola Incorporated, Megahertz, NetFRAME Systems, Parsons Technology, PKWare, Rupp Corporation, Vericom Corporation and Wordtech Systems. See each vendor's individual description within this section for a list of supported products. Libraries contain help files, programs and patches for the products. For support from additional PC vendors, see PCVENA, PCVENB, PCVEND, PCVENE or specific software publisher's forums. +

PC Vendor D Forum PCVEND

The PC Vendor D Forum provides members with support from vendors of personal computer products. This forum includes the following companies: Artisoft, BLOC Publishing, Brightwork Development, Complementary Solutions Inc., Coordination Technology, Cumulus Corporation, Dell Computer, Gamma Link, GO Corporation, Hyperkinetix, Magma Systems, Pacific Data Products, Procom Technology Inc., Tech III and Timeslips Corporation. See each vendor's individual description within this section for a list of supported products. Libraries contain help files, programs and patches for the products. For support from additional PC vendors, see PCVENA, PCVENB, PCVENC, PCVENE or specific software publisher's forums. +

PC Vendor E Forum PCVENE

The PC Vendor E Forum provides members with support from vendors of PC products. This forum includes the following companies: Contact Software International, Farallon, Iomega, SemWare, Turbo Power C++, XTree Company and Zeus. See each vendor's individual description within this section for a list of supported products. Libraries contain help files, programs and patches for the products. For support from additional PC vendors, see PCVENA, PCVENB, PCVENC and PCVEND or specific software publisher's forums. +

PC Week ZNTNEWS

PC Week is online as part of ZiffNet enabling you to keep up with all the industry news — you can even see the headlines and summaries of news stories the Saturday before they are published. See what the notorious Spencer F. Katt has discovered this week or discuss the news and issues of the industry with the writers, editors and other readers of the magazine. +

PC Week Forum ZNTPCWEEK

The PC Week Forum on ZiffNet provides a platform for corporate buyers and the writers and editors of PC Week to exchange information and ideas on what products and services to buy, plus an opportunity to debate industry issues. Typical discussions focus on managerial issues, networking strategies and news and current events in the computer industry. In addition, staff analysts and writers discuss product reviews and solicit your input as they develop future editorial plans. +

PDP-11 Forum PDP11

This forum encourages the exchange of software designed to run on Digital Equipment Corporation's PDP/LSI computer systems and covers many languages used on PDPs including Macro, Fortran, Basic, Basic-Plus, C, DIBOL & DBL and Pascal. PDP-11 Users Group is designed to facilitate communication between users of the PDP-11, LSI-11 and PDP-10 series of computers. +

Personal File Area PER

As a CompuServe member you are able to store files on CompuServe. This menu choice enables you to catalog those files, edit them, rename them, change their protection level or delete them. A hard-copy printout of your files can be mailed to you for the printing and mailing charges. You can upload and download files from this area and enter the command mode. However, please read your Users Guide before using the command mode. \$*

Personics Corporation PCVENB

Personics provides technical support for UltraVision, Look&Link, @Base, @Base Option Pac, SeeMore for 1-2-3, SeeMore for Symphony, SmartNotes and Headmaster in the PC Vendor B Forum. +

PKWare PCVENC

PKWare supports its data compression products in the PC Vendor C Forum. Its product line includes PKZIP, PKUNZIP, PKSX (Shareware), PKLITE (Shareware), PKLITE Professional (Commercial), PKZMENU (Shareware), PKWARE Data Compression Libraries (Commercial) and PKZFIND. +

Playroom Software PLAYROOM

Playroom Software supports its series of environment enhancement products such as Button Maker, Makeover and OSFrame in the Playroom section of the Windows Third Party Applications A Forum. +

Polaris Software POLARIS

Polaris Software produces PackRat, an information manager for the Windows 3.0 environment. PackRat is supported in the Polaris section of the Windows Third Party Applications A Forum. +

Poqet Computer POQET

Access the Poqet Computer Section of the Palmtop Forum to find support for Poqet Computer's palmtop computer line. +

Portable Programming Forum CODEPORT

The Portable Programming Forum supports programmers who use various computer languages, such as Modula-2, C-language, UCSD Pascal and P-System, that are highly portable between different hardware platforms. Learn more

about portable languages not supported by other CompuServe forums within this forum. Members work with one another on joint, online projects. +

Portfolio Systems MACAVEN

Portfolio Systems provides technical support for its Dynodex product in the Portfolio Systems section of the Mac A Vendor Forum. +

Power Industries LP LOGOFORUM

Access the LOGO Forum to find support for Power Industries' Delta Drawing Today product. +

Practical Peripherals Forum PPIFORUM

The Practical Peripherals Forum provides help, advice, and technical support for owners of products manufactured and sold by Practical Peripherals and anyone else with an interest in computers and telecommunications. P/Net, which can tie a group of computers and peripherals together, is discussed along with modems, communication programs and printer buffers. Libraries contain utilities, shareware, information files and P/Net files. +

Practical Solutions ATARIVEN

Practical Solutions supports Monitor master, Mouse Master, Drive Master and VideoKey in its section of the Atari Vendor Forum. +

Precision Software (Atari) ATARIVEN

Access the Precision Software section of the Atari Vendor Forum to receive technical support for Precision's full line of Atari products. +

Primavera Systems, Inc. PCVENB

Primavera Systems, Inc. offers technical support for its products including Primavera Project Planner (P3), Primavision, Finest Hour, Parade and Expedition within PC Vendor B. +

PRO-C Corporation PCVENB

PRO-C Corporation provides technical support for PRO-C products in its section of the PC Vendor B Forum. +

Procom Technology, Inc. PTINC

Procom Technology manufactures storage devices for the PC industry. Its products range from fixed drives with either SCSI, IDE, ESDI or Micro Channel interfaces to a full range of external SCSI devices such as CD-ROMs, removable drives, erasable optical drives, tape back-up devices and the latest floptical drive. Procom also develops SCSI host adapters. Find support for all of these products in the Procom Technology section of the PC Vendor D Forum. +

Prolog Development Center PCVENB

Support for PDC Prolog Compiler 3.2, PDC Prolog Toolbox, PDC Prolog Advanced Developer's Guide and Turbo Prolog is provided in the PDC Prolog section of the PC Vendor B Forum. +

Publishing Technologies PUBTEC

Publishing Technologies produces a series of environment enhancement products for the Windows 3.0 environment including Batchworks, MultiTack, PubTech File Organizer and PubTech Text Editor. These products are supported in the PubTech section of the Windows Third Party Applications A Forum. +

QMS QMSPRINT

QMS provides support for its complete line of non-impact print systems including the QMS-PS 410, QMS-PS 815, QMS-PS 825, QMS-PS 810 and the ColorScript 100 Model 10. Support for these products is available in the QMS section of the Desktop Publishing Vendor Forum. +

Qualitas PCVENA

Support for 386MAX, BLUEMAX and MOVE'EM is provided by Qualitas within its section of the PC Vendor A Forum. +

Quarterdeck Office Systems PCVENB

DESQview 386, OEMM 386, QRAM: Manifest, DESQview, OEMM-50/60 and DESQview API Tools are supported by Quarterdeck within its section of the PC Vendor B Forum. +

Quercus PCVENA

Quercus provides technical support for its Personal REXX and REXXTERM in its section of the PC Vendor A Forum. +

Quicksoft, Inc. PCVENB

Quicksoft supports PC-Write and Font Selector in the Quicksoft section of the PC Vendor B Forum. +

Radius Incorporated MACBVEN

Find support and information about Radius products in its section of the Mac B Vendor Forum. +

Revelation Tech Forum REVELATION

To build on innovative ideas in database programming, visit with the members of the Revelation Tech Forum. Sponsored by Revelation Technologies, this forum is designed to support users of the relational database, Advanced Revelation. Members share their experiences in developing application programs using this relational database and help others learn how to develop database programs. +

Right Answers AMIGAVENDOR

Right Answers provides technical support for its products such as LOADFAST in the Amiga Vendor Forum. +

Rix Softworks RIXSOFT

Rix Softworks provides support for its paint programs including ColoRix for DOS and WinRix for Windows in the Rix Softworks section of the Graphics Vendor Forum. +

Roykore WINAPA

Roykore produces a line of organizational charting and flowcharting products for the Windows 3.0 environment including OPUS I, Instant Orgchart and ABC Flowchart, which are supported in the Roykore section of the Windows Third Party Applications A Forum. +

Rupp Corporation RUPP

FastLynx, FastLock and Plus FastLynx LapPack are supported by Rupp corporation in the P Vendor C Forum. +

Saros SAROS

Saros Corporation produces and supports its series of network file management facilities including Mezzanine and Viewz in the Saros section of the Windows Third Party Applications C Forum. +

Schemers, Inc. LOGOFORUM

Schemers provides support for its Logo-based products such as Scheme and EdScheme in the Schemers section of the LOGO Forum. +

Scitex America Corp. SCITEX

Scitex America Corp. produces and supports its series of prepress products for the publishing industry. These products are supported in the Scitex section of the Desktop Publishing Vendor Forum. +

SemWare PCVENE

SemWare is providing support for QEdit, its full-featured text editor, within its section of the PC Vendor E Forum. +

Sharp Electronics Corporation SHARP

Sharp Electronics Corporation provides support for its Wizard line of handheld organizers in the Sharp Wizard section of the Palmtop Forum. +

Sigma Designs SIGMA

Sigma Designs produces and supports its complete line of color, grayscale and monochrome displays and controller boards for IBM compatible and Macintosh computers. These products are supported in the Sigma Designs section of the Desktop Publishing Vendor Forum. +

Silicon Beach/Aldus Forum SBSALD

If you use Silicon Beach or Aldus products, join this forum for online support for products in Macintosh, Windows and DOS environments. Learn more about how to most effectively use the software for your applications by exchanging ideas and experiences with other users through conferences and informal message boards. For non-technical questions, access the Aldus Customer Services Forum, GO ALDSVC. +

Sitka (DOS) PCVENA

SITKA provides support within its section of PC Vendor A Forum for Network Bundle for DOS 3.0, FlashCard and FlashCard MicroChannel. +

Sitka (TOPS) (Macintosh) MACAVEN

Sitka supports its full line of Macintosh products in the Sitka section of the Mac A Vendor Forum. Find support for products such as Invox and Network Bundle for the Macintosh. +

Softbridge SOFTBRIDGE

Softbridge supports its series of products for its Bridge 2.0 batch-command language including Auto Test Facility, Bridge Batch and Bridge Tool Kit in the Softbridge section of Windows Third Party Applications B Forum. +

SoftCraft WINAPB

SoftCraft produces a series of font applications for the Windows 3.0 environment including WYSIfonts!, Spontfont, Font Effects and SoftCraft Font Editor, which are supported in the SoftCraft section of the Windows Third Party Applications B Forum. +

Soft-Logik Publishing Corp. AMIGAVENTOR

Find support for Soft-Logik's PageStream, a desktop publishing software program for Amiga computers, in the Amiga Vendor Forum. +

Softsync, Inc. SOFTSYNC

Softsync provides support for its Accountant, Inc. integrated accounting packages and Expert Color Paint within its section of the Macintosh C Vendor Forum. +

Softview WINAPB

Softview Inc. produces tax preparation products for the Windows 3.0 environment including MacInTax for Windows and Taxview, which are supported in the Softview section of the Windows Third Party Applications B Forum. +

Software Forums SOFTWARE

Software Forums provide you with information and support on the most popular software packages on the market. The majority are sponsored by software publishers so you have easy and timely access to their most current technical support information. You can communicate with the software publisher or other users who may have worked through the same problems you are currently experiencing. Libraries contain useful programs that you can download to your computer. Some forums also offer real-time electronic conferences that shed light on current topics. Look for additional related software forums in the Hardware Forums section (GO HARDWARE). By utilizing the software forums,

you have support for your computer software 365 days a year, 24 hours a day.

Software Publishers Association Forum SPAFORUM

The Software Publishers Association (SPA) sponsors this forum to keep members of SPA, developers and users of computer software aware of SPA activities and developments. Members of the SPA are available online to answer questions about publishing software such as how to obtain a copyright for a newly developed program and to audit multiple computers for pirated programs. +

Software Publishing Forum SPCFORUM

Software Publishing Corporation offers technical support through its forum for the full range of SPC software products including Harvard Graphics, Superbase, OfficeWriter, Professional File, Professional Write, Harvard Draw and Harvard GeoGraphics. Support covers international versions of the products. +

Software Ventures MACBVEN

Access the Software Ventures section of the Mac B Vendor Forum to obtain support for Microphone, Microphone II and Microphone 4.0. +

Softwood AMIGAVENTOR

Softwood supports its entire Amiga product line in its support section of the Amiga Vendor Forum. Access this section to receive technical support on Pen Pal, Electric Thesaurus, Classic Clip-Art, People Clip-Art, Proper Grammar and Animal Clip-Art. +

Spectra Publishing PCVENB

Spectra Publishing supports its PowerBASIC 2.0 in the PC Vendor B Forum. +

Spinnaker Forum SPINNAKER

The Spinnaker Forum provides users of Spinnaker products such as Spinnaker PLUS, Word Publisher, PFS:First Choice, PFS:First Publisher, Eight-in-One, Resume Kit, PFS:WindowWorks, PFS:Write and the EasyWorking product line with current product information and technical support by product specialists. Each section of the message board contains comments and questions about individual products and has a correlating library section full of text files with more information. Special Spinnaker-sponsored conferences are scheduled when the need arises to thoroughly discuss individual products or issues. +

Standard Microsystems Forum SMC7

Find information on the latest products and developments from Standard Microsystems Corporation. SMC's product used with ARCnet, Ethernet, SMC EISA, NetWare and other network drivers are discussed and supported in this forum. Download programs such as pictorial network maps that can be used to trouble-shoot networking problems and text files that relay important developments and/or technical tips concerning SMC's products. +

STB Systems STBSYS

STB Systems offers technical support for its PC compatible hardware boards including PowerGraph, PowerView, PowerMeg, 4-on-the-floor, VGA 800/16 and other graphics display boards. STB Systems supports these products in the STB section of the Graphics Vendor Forum. +

The Stirling Group STIRLING

The Stirling Group supports the SHIELD series of software development tools for the Windows 3.0 and OS/2 Presentation Manager environments including DbxSHIELD, DemoSHIELD, InstallSHIELD, LogSHIELD, MemSHIELD and TbxSHIELD in the Stirling Group section of the Windows Third Party Applications C Forum. +

Super Mac Technology MACBVEN

Super Mac Technology provides technical support for Pixel Paint and Pixel Paint Professional within its section of the Mac B Vendor Forum. +

Supra Corporation ATARIVEN

Supra Corporation supports the SupraModem 2400 and many other Supra products in its section of the Atari Vendor Forum. +

SurfTek SURFTEK

Find support for SurfTek's computer-aided design and engineering drafting software, MegaCADD and IDraw, plus support for other related products in the SurfTek section of the CADD/CAM/CAE Vendor Forum. +

Survivor Software MACAVEN

Find product support for MacMoney, InvoicIt and Sticky Notes+ within the Survivor Software technical support section of the Mac A Vendor Forum. +

Symantec Forum SYMANTEC

The Symantec Forum is for users of many of Symantec's products including Q & A, More II, Time Line, ThinkTank, SUM, SAM and Think's Lightspeed C and Pascal. Members can talk with other members or have their technical questions answered by Symantec's product support staff. In addition, these forum members love to discuss all types of computers: Macintosh, IBM, portables or networks. Or maybe the future of idea processing, desktop presentations, Macintosh development and electronic mail software. There's never a dull moment. +

Synthesis AMIGAVENTOR

Synthesis produces products that enhance modeling and animation programs. Among those products supported in the Amiga Vendor Forum are InterChange and InterFont. +

Tactic Software MACBVEN

Tactic Software offers technical support for its entire line of Macintosh products such as ArtClips, ArtFonts, Sound Clips, Icon-It, Magic Typist and MasterFinder in its section of the Mac B Vendor Forum. +

Tandy Corporation Newsletter TRS

Tandy Newsletter is designed to keep Tandy computer users informed of current activities within the Tandy corporation. You have access to Tandy product and technical information and a monthly newsletter from Tandy. Or send your questions directly to Tandy for their response. +

Tandy Professional Forum TRS80PRO

The Tandy Professional Forum offers Tandy computer users an avenue for exchanging information with other members regarding the full line of Tandy computers. The libraries are full of software such as applications and utilities. +

Tandy Users Network TANDYNET

The Tandy Users Network comprises five Tandy product forums: the Color Computer Forum (GO CCO), the LDOS/ TRSDOS6 Forum (GO LDOS), the Model 100/Portables Forum (GO M100SIG), the OS-9 Forum (GO OS9), the Tandy Professional Forum (GO TRS80PRO) and the Tandy Corporation Newsletter (GO TRS). +

TAPCIS Forum TAPCIS

The TAPCIS Forum discusses the effective use of TAPCIS, the completely automated program for accessing CompuServe Forums, Forum Libraries and CompuServe Mail with IBM compatible PCs. International users and expatriates will want to check out the international section featuring details for using TAPCIS via an international network. Howard Benner, author of TAPCIS, is available to

answer questions on the message board. Whether you already use TAP, or are just looking for information about it, all are welcome in this forum. +

Tech III PCVEND

Tech III supports its products in the PC Vendor D Forum. Access this section to obtain support for Wing-it!, Who You Know, Code Rider, Foxy Faxer, Scan-A-Lyzer! and The Compressor. +

Telecommunication Issues Forum TELECO

Stop by the Telecommunication Issues Forum to learn the latest developments and share your ideas on telecommunication services and products. Members of this forum discuss topics such as long distance services, protecting First Amendment rights for electronic communication and other telecommunication-related issues. +

Terrapin, Inc. LOGOFORUM

Terrapin, Inc., developers of Logo PLUS and Terrapin Logo, provides support for its products in the Terrapin Section of the Logo Forum. +

Texas Instruments Forum TIFORUM

The Texas Instruments Forum is for anyone interested in any model of Texas Instruments brand computers, especially the TI-99/4A and TI Professional. The TI Forum has an active message base and rapidly expanding data libraries. Weekly conferences are also scheduled. Members and Forum Administrators (SysOps) will be happy to assist new members. The TI Forum is a major source of TI information across the country, supplementing a local users group network and bulletin board systems. +

Texas Instruments Newsletter TINETS

Texas Instruments Newsletter is a menu-driven text area that is updated constantly to provide the latest news, help and information about the TI Forum and TI world in general. Check the "New in TINETS" area regularly for information about the latest features. +

Timeslips Corporation PCVEND

Timeslips Corporation provides support for its Timeslips III, a time tracking and billing program, within the Timeslips section of the PC Vendors D Forum. +

Timeworks TIMEWORKS

Timeworks provides support for its series of full-featured desktop publishing programs including Publish It! in the Timeworks section of the Desktop Publishing Vendor Forum. +

T/Maker Company MACBVEN

T/Maker supports its products such as ClickArt and WriteNow in its section of the Mac B Vendor Forum. +

TMS Peripherals MACCVEN

TMS Peripherals provides support for its products including InnerView and TMSFAX in the TMS section of the Mac C Vendor Forum. +

Toshiba Forum TOSHIBA

If you're interested in portable personal computer laptops and notebooks, you'll enjoy the Toshiba Forum. You can get answers to your questions and accurate product information from other members in the forum and from Toshiba America's Technical Support Group. Access the libraries for downloadable files relating to Toshiba products. +

Traveling Software, Inc. PALMTOP

Access the Traveling Software Section of the Palmtop Forum to find support for software developed by Traveling

Software, which connects palmtop and notebook computers to desktop publishing systems. +

TurboPower Software PCVENB

TurboPower Software offers technical support for Turbo Professional, B-Tree Filer, Turbo Analyst and Object Professional in its section of the PC Vendor B Forum. +

Turtle Beach Systems TURBEACH

Access the Turtle Beach section of the MIDI Vendor Forum to find support for Turtle Beach Systems' IBM graphic MIDI sample editing and digital music software. Turtle Beach products include SampleVision (graphic sample editor), Oview (synth voice editor) and 56K/SoundStage (direct to disk recording/editing systems). +

Twelve Tone Systems MIDIVENDOR

Twelve Tone Systems provides support for its popular DOS-based MIDI sequencing package, CAKEWALK, in the Twelve Tone section of the MIDI Vendor Forum. +

UK Computing Forum UKFORUM

Join the UK Forum to find out about United Kingdom computing and answers to your questions related to UK computer hardware and software. The UK Computing Forum is also the place to discuss a wide range of general UK issues including culture, customs and lifestyle. +

UKSHARE Forum UKSHARE

The UK Shareware Forum is where shareware enthusiasts can exchange information, download upgrades, examine reviews and meet the authors of many of the most popular UK shareware programs for the IBM PC. +

Universal Technical Systems UTSSUPPORT

Universal Technical Systems markets powerful engineering and scientific problem solving software called TK Solver. Find support for TK Solver and related products in the UTS/TK Solver! section of the CADD/CAM/CAE Vendor Forum. +

UNIX Forum UNIXFORUM

UNIX users can discuss UNIX related issues and exchange UNIX related code in the UNIX Forum. Members can discuss the technical merits of the UNIX operating system and how its tools can be used to increase user productivity. +

VAX Forum VAXFORUM

The VAX Forum provides support for users of the VAX series of computer systems from Digital Equipment Corp. Sponsored by Professional Press, this forum enables its members through message boards and library files to better understand the VAX computer in terms of its usefulness, operating systems and programs available for use on the VAX. +

Ventura Forum VENTURA

Sponsored by Ventura Software Inc., this forum provides a place for users of Ventura software products to communicate and get the most out of their software. Software supported includes Ventura Publisher, FormBase and Ventura Database Publisher. Libraries contain public domain software, documentation, commonly asked questions and their answers and more. In addition to applications of the software, messages cover design tips and tricks, utilities and third party software, printers and other hardware used with the software, the different operating systems and network environments running the software, printer fonts, patches and fixes. You can converse with the publishers of *Ventura Professional!* magazine and find product reviews. +

Vericomp PCVENC

Vericomp provides technical support for SoftBytes, memory master and password! in its section of the PC Vendor C Forum. +

Videologic VIDEOLOGIC

Videologic provides online support through the Multimedia Vendors Forum for its multimedia products such as DVA-4000 full motion video adapters for ISA-bus, MCA-bus and Macintosh NuBus-based computers; MediaStation full motion JPEG compatible video compression/decompression processor for use with ISA-bus PCs; Mediator Intelligent VGA and Macintosh video-to-NTSC/PAL video encoders/processors and M.I.C., system II multimedia interactive control system software. +

The Voyager Company VOYAGER

The Voyager Company offers support in the Voyager section of the Multimedia Vendors Forum for its products such as interfaces and drivers for interactive computer control of various videodisc players; VideoStack and CD AudioStack interactive multimedia toolkits for Apple Macintosh; various laserdisc and CD players; CD-Rom's and CD Companion series for Macintosh; Amandastories Hypercard stacks; and the Criterion Collection laserdisc versions of full length motion pictures. +

What's New in the Atari Forums ATA

This area gives useful information about all Atari forums including a What's New section and conference schedules.

The Whitewater Group WHITEWATER

The Whitewater Group provides support for its series of object-oriented programming platforms and development tools including Actor, Object Graphics, Res Tool and WinTrieve in the Whitewater section of the Windows Third Party Applications B Forum. +

Wilson WindowWare WILSON

Wilson WindowWare provides support for Windows 3.0 applications including Command Post, Win Batch, Win Check and Win Edit. These products are supported in the Wilson WindowWare section of the Windows Third Party Applications A Forum. +

Windows Presentation Manager Association (WPMA) Forum WPMA

Discover the power of Windows and OS/2 programs in the WPMA Forum, sponsored by the Windows Presentation Manager Association. Not intended as a technical question and answer forum, members of this forum find valuable information about most versions of Windows and have access to demo software, catalogs and technical support numbers. +

Windows Vendor Forums WINVEN

Microsoft sponsors three Windows vendor forums where owners of non-Microsoft Windows applications can ask technical questions directly from Windows companies: Windows 3rd Party Applications A, Windows 3rd Party Applications B and Windows 3rd Party Applications C forums. Each forum represents a different selection of vendors, so be sure to access all three forums for a complete list of vendors participating online. +

Windows 3rd Party Applications A Forum WINAPA

The Microsoft Windows 3rd Party Applications A Forum provides support for third party applications designed to work with Microsoft Windows. This forum includes the following companies: Access Softek, Asymetrix Corporation, DaVinci, Future Soft Engineering, Geographix, hDC Computer Corporation, Hi-Q International, ICOM Simulations, Inc., Micrografix, Playroom Software, Polaris Software, Publishing Technologies, Roykore and Wilson WindowWare.

See each vendor's individual description within this section for a list of supported products. For additional vendors and support, GO WINAPB or GO WINAPC. +

Windows 3rd Party Applications B Forum WINAPB

The Microsoft Windows 3rd Party Applications B Forum provides support for third party applications designed to work with Microsoft Windows. This forum includes the following companies: CASEWORKS, Computer Presentations Inc., Corel Systems, Delrina Technology, Echelon Development, Kidasa Software, Knowledge Garden, National Window Users Group Network (WUGNET), NBI, Owl International, Softbridge, SoftCraft, Softview Inc., The Whitewater Group, Zenographics and ZSoft Corporation. See each vendor's individual description within this section for a list of supported products. For additional vendors and support, GO WINAPB or GO WINAPC. +

Windows 3rd Party Vendor Applications C Forum WINAPC

Access this forum for a list of additional vendors to those listed in Windows Vendor Applications A and Windows Vendor Applications B forums. As with the other two vendor forums, you can communicate online with vendors of Windows products for non-Microsoft applications. This forum includes the following companies: Abacus Software, Bell Atlantic, Berkeley Systems, Campbell Services, Coromandel Industries, Glockenspiel, Matesys Corp., Metz Software, Saros Corporation, The Stirling Group and Within Technologies. See each vendor's individual description within this section for a list of supported products. For additional vendors and support, GO WINAPB or GO WINAPC. +

Within Technologies WITHIN

Within Technologies produces Realizer, an application development environment for the Windows 3.0 environment. Realizer is supported in the Within section of the Windows Third Party Applications C Forum. +

Wolfram Research Forum WOLFRAM

Wolfram Research's Mathematica is a software program that enables your computer to figure simple and complex math computations. By drawing from other members' expertise using Mathematica, learn to enhance your computer's mathematical capabilities such as by programming your plotter to create precise geometric forms. Access the libraries for text files containing additional information. +

WordPerfect Support Group A Forum WPSGA

Writers and editors can share their ideas, questions and solutions in the WordPerfect Support Group A Forum, which provides support for IBM PC versions of WordPerfect. Whether you are puzzling with file transfers or looking for a good WP reference book, this forum is the place to find help. Other topics of discussion include printers, graphics, desktop publishing, merges, training methods, conversion files, networking, fonts, non-IBM hardware or downloading from a database. The forum is sponsored by the WordPerfect Support Group and contains various macros and help files which will help you use your software more effectively. +

WordPerfect Support Group B Forum WPSGB

The WordPerfect Support Group B Forum provides support for all other WordPerfect Corporation products, including WordPerfect for numerous computer systems, PlanPerfect, DrawPerfect, WordPerfect Library, DataPerfect, WordPerfect Executive and Repeat Performance. Topics of discussion include printers, desktop publishing, networking, fonts, downloading from a database and many more. Programs by 3rd parties which are intended for use with WordPerfect are also discussed. +

WordStar Forum WORDSTAR

The WordStar Forum provides users of WordStar products with support from WordStar International Technical Consulting Group. Members can exchange information, ideas and solutions with other WordStar users. Also available are sample programs, usage articles and press releases for WordStar products. Libraries contain printer drivers, templates and utilities. +

Wordtech Systems WORDTECH

dBXL, Quicksilver, VP-expert and VP-Graphics are supported by Wordtech Systems in the PC Vendor C Forum. +

Working Software MACBVEN

Quickletter, Findswell, Lookup and Spellswell are supported by Working Software in its section of the Mac B Vendor Forum. +

The World of Lotus LOTUS

The World of Lotus contains useful and up-to-the-minute information about Lotus products and services, access to electronic distribution of software and the opportunity to 'talk' with fellow Lotus users. The World of Lotus contains an introduction, a list of recent changes and additions in its data libraries, Lotus company and product news, descriptions of third party products that complement Lotus products, books and periodicals about Lotus products, technical notes, answers to commonly asked questions and lists of supported computers, printers and other hardware. Software developed by Lotus is available along with instructions for downloading it to your computer. +

XChange XCHANGE

XChange offers services and support for developers of XTensions for QuarkXPress and other desktop related publishing products in the XChange section of the Desktop Publishing Vendor Forum. +

XTree Company XTREE

Access the XTree company section of PC Vendor E to obtain support from XTree representatives. The entire XTree product line is supported in this section. +

Zenith Forum ZENITH

The Zenith Forum is open to anyone interested in products from Zenith Data Systems and participating independent companies, including Fifth Generation, SoftKlone and Back & Forth. The forum SysOps can answer questions ranging from your Heath kit to the newest Zenith laptop. The libraries contain utilities from Zenith and the latest in shareware applications and games. +

Zenographics ZENO

Zenographics provides technical support for its series of printing and image handling applications including Import, Pixie and Super Print in the Zenographics section of the Windows Third Party Applications B Forum. +

Zeos International PCVENE

Zeos is now offering informational files and answers to technical and marketing questions through its section in the PC Vendor E Forum. +

ZiffNet ZIFFNET

ZiffNet is the comprehensive online information service and software resource for active buyers and users of personal computer products. Log on to ZiffNet and make more informed buying decisions, get instant access to shareware, utilities and technical tips and stay current on the news and events in the computer industry. With ZiffNet you get timely access to expert information and advice from independent sources that include PC Magazine, PC Computing, PC Week, Computer Shopper and PC Sources. +

ZiffNet/Mac ZMAC

ZiffNet/Mac, also known as Zmac, is the information service and software resource dedicated to Macintosh users and their specific needs. With Zmac you get a full range of reference databases, an authoritative buyer's guide, instant access to technical tips and free downloadable utilities, hand-picked and tested in MacUser Labs. Plus you have access to the leading industry news and opinions from MacUser and MacWEEK. +

ZSoft Corporation (Windows) ZSOFT

ZSoft Corporation produces and technically supports its series of paint and imaging graphic tools including Publisher's Paintbrush for Windows Publisher's Type Foundry and Soft Type in the ZSoft section of the Windows Third Party Applications B Forum. +

Working from Home WORK

Section 5

Electronic Mall/ Shopping

This section contains the CompuServe products that enable you to shop in the comfort of your own home. Depending on the merchant, you can order from online catalogs or have print catalogs sent to your home and order via electronic order forms, by conventional mail or by telephone.

The Electronic Mall Quick Reference chart on the next two pages gives a complete directory of mall stores, including payment options and shipping destination.

The Electronic Mall MALL

The Electronic Mall enables you to order products from over a hundred national retailers without searching for a parking space or waiting in check-out lines. Using your terminal, you can order products, use your credit card to pay for them and have them shipped to your home or office. The Electronic Mall is open 24 hours a day, seven days a week, and there are no yearly membership fees or surcharges. The merchants are grouped in mall departments such as Auto, Books/Periodicals and Business/Finance. Each merchant brings his best products and services to CompuServe members, often at substantial savings. Many offer free catalogs so that you can also order from the merchant using conventional mail or telephone. This Week's Mall News (GO EMN) announces new merchants and special sales and promotions. You can contact the mall merchants directly through their online store or through CompuServe Mail for catalogs or more product information.

Since new merchants frequently appear in the mall, be sure to check the online directories. GO MALLDIRECT will display the merchant directory alphabetically. GO INX will give you a product index list by category merchandise found in the mall. Should you ever have questions or problems with a specific merchant or suggestions on how to improve the mall, you can leave a message through Electronic Mall Feedback (GO MALLMANAGER). A response will be sent to you via CompuServe Mail.

Directory of Catalogs DTC

All catalogs from mall merchants are now available in one directory. Search using any of 14 categories to find the catalog you need. Then, by using a quick reference word, you can go directly to the mall to order the catalog or merchandise.

SHOPPERS ADVANTAGE Club SAC

Now you can join the thousands of other educated consumers who access America's largest discount electronic shopping service. Shop a home for more than 250,000 name-brand products — with savings of up to 50 percent. Now you can access SHOPPERS ADVANTAGE Club as a CompuServe member and browse through the electronic database for everything from air conditioners to computers to microwaves. SHOPPERS ADVANTAGE Club is your link to major manufacturers, wholesalers and suppliers. As a member you pay much less since costly retail price mark-ups, inventories and storefronts are eliminated. When you decide to buy, your low price includes delivery right to your door. There are no hidden costs. Your purchase comes in a factory-sealed carton with all manufacturer's warranties and guarantees in full effect. Visit SHOPPERS ADVANTAGE Club today, and you'll have a world of savings at your fingertips.

SOFTEX Software Catalog SOFTEX

CompuServe's SOFTEX is an electronic software catalog that enables you to purchase and receive commercial software through your personal computer without the inconvenience of driving to a computer store or waiting for mail delivery. SOFTEX's growing selection includes popular commercially available software as well as hard-to-find software from smaller vendors. Selections include programming utilities, tutorials, spreadsheets, accounting packages and games for most personal computers. Your machine requires terminal software that supports an error-checking file transfer protocol, such as XMODEM or CompuServe's 'B' protocol. Purchases are billed to your CompuServe account.

Section 6

Games

This section contains many different types of games. Some games are for one player against the computer. For others, like MegaWars I and III, you interact with other players, either as allies or enemies. Because of this ability to interact and communicate with other players while you are playing the games, we think that you will find our new-technology games exciting and challenging as well as a lot of fun. Most games do not require special equipment. However, some are enhanced if you have CompuServe Information Manager, Professional Connection 3 or a recognized terminal emulator which supports cursor control.

Air Traffic Controller ATCONTROL

If you have nerves of steel and like the challenge of thinking at several levels at once, Air Traffic Controller could be your game. As an ATC, you're responsible for all planes within your sector of airspace. The object is to keep them from running out of fuel or crashing. You must clear planes for arrival and landing while keeping track of those arriving from other sectors. Neighboring sectors may be controlled by other ATC players, challenging your communication skills as well as your nerves. Once you've built up your confidence, you can start again at an increased level of difficulty. In color. +

Biorhythm Charting BIORHYTHM

Biorhythm Charting helps you figure out what your emotional, mental and physical state is and will be. It plots personalized charts for any month or series of months within a given year, and it provides a written analysis of each month. Biorhythms also features NAPLPS graphics and Run-Length Encoded (RLE) graphics capabilities.

BlackDragon BLACKDRAGON

Enter a magical, multilevel Labyrinth filled with treasure, but beware of the deadly creatures, traps and pits which infest it. This fantasy role-playing game lets you accumulate treasures which, when converted to "experience points," add to the strength you'll need to make it through the maze alive and to conquer the evil Arch Demon. If you can make it through all levels of the maze, you are admitted to the Explorer's Hall of Fame for all to admire.

British Legends LEGENDS

As an adventurer in the multi-player game British Legends, you will explore a land filled with mystery ... dense forests, an island, a cottage and much more ... in addition to the computer-generated and human characters you will encounter. Like all the multi-player games, your play is influenced and enhanced by the presence of other players, but unlike other multi-player games, well, take heed of these words of wisdom: "Life is never quite what it seems in 'British Legends'." The goal of the game is to collect treasures, score points, and reach the enviable, honorable status of "Wizard." Once you reach this level of expertise, you are en-

dowed with wondrous magical powers: the ability to become invisible, commit mischievous acts and more. In other words, British Legends is not an ordinary adventure game. It embodies a vast, fantastic world of its own. +

CastleQuest CQUEST

Picture yourself on a long-awaited vacation to Romania's legendary Carpathian Mountains. During your trip your car breaks down, and you can't find help. You walk a long time and make it to a castle perched on the summit of a rocky rise above the road. You pound on the thick wooden door. Nobody answers, but the door slowly swings open. As you enter the castle, you realize that you are very sleepy. You stumble up the stairs and collapse on a bed. When you awaken, your adventure begins. The goal of this game is to thoroughly explore the castle, kill the master, loot the castle of its treasures and accumulate points as the game progresses. To win, you must survive the many dangers you will encounter and reach the castle storeroom to store your treasures. Reaching the storeroom is not an easy task. In fact, it can be deadly. Good Luck!

Chess Forum CHESSFORUM

Make your move and join the Chess Forum where members play against each other in games of electronic postal chess. Earn your own CompuServe rating and/or a rating from the United States Chess Federation. Learn more about "the game of kings" and stay abreast of news about chess tournaments around the world. +

Classic Adventure CLADVENT

This adventure game sparked all other versions, both micro and mainframe. The scene is a forest in which lies Colossal Cave. Most of your adventuring takes place within the cave. You begin your adventure, however, outside a small well house. This is the center of your activities, and it is where you will store your treasures. The entrance to the cave is south of the building, but you will want to

investigate the interior of the house before you leave for the cave. The object of the game is to overcome the cave's deadly challenges as you explore it, collect its numerous treasures and deposit them in the well house. In Classic Adventure a perfect score is 350 points, if you can survive.

The ELECTRONIC GAMER ARCHIVES™ TEG

The ELECTRONIC GAMER ARCHIVES is an online source of reviews and step-by-step "walk-throughs" for some of the popular computer games. While new game articles are continuously added to Section 15 of the Gamers' Forum, TEG is still the place to start when looking for help with the classics. +

Enhanced Adventure ENADVENT

The enhanced Adventure is much like Classic Adventure. The setting is the same, but not that there are more treasures to be found in Enhanced Adventure; more treasure inside and outside of the cave. A perfect ending garners you 751 points.

Fantasy/Role-Playing/Adventure Games ADVENT

If you are in the mood to embark on a fantastic adventure or assume the identity of another person or character, you'll want to explore this outstanding collection of games.

Flight Simulation Forum FSFORUM

The sky is the limit when you join the Flight Simulation Forum. Members who indulge their flights of fancy through the computer share experiences, playing tips and software critiques in the forum. Also popular are the forum's "fly-ins" — coordinated get-togethers where members using customer flight scenery fly their aircraft simulators to a designated airfield. You're cleared to land and join the forum in their discussions about civilian, space, combat and air traffic control simulations. +

Game Forums and News GAMECON

This menu allows you to select from a list of gaming forums. Get information and news, and participate in discussions on computer games such as Flight Simulation and Chess; board, online and modem games; and game cartridges.

Game Publishers Forum GAMPUB

In Game Publishers Forum, participating publishers support a large variety of games and game-related products for all types of computers. Selected publishers each have their own message section for direct correspondence with customers; a library containing product demonstrations, new releases, program updates and announcements; and a conference room for formal or informal interactive, real time discussions with members. Publishers include Accolade, Electronic Arts, Holobyte, Interplay, Lucasfilm, Mediagenic, Merit Software, Microprose, Mindscape, Origin, Sir-Tech, The Software Toolworks, Spectrum Sierra OnLine, SSI, SubLOGIC and Three-Sixty Pacific. +

The Gamers' Forum GAMERS

It's a computer-game-player's dream: an electronic forum dedicated to the communications, support and entertainment needs of the general computer game-playing community. Here you'll find tips, hints, reviews and instructions for the latest computer games on the market. You can also keep up on what is happening with Nintendo and other cartridge games, as well. You can ask questions or discuss games and game hints with other game players via this forum. +

Hangman HANGMAN

The computerized version of the famous game which both children and adults enjoy. You play against the computer which selects the word, and you make the guesses until the poor man is hung or until you guess the correct word. Playing this game helps you find out the size of your vocabulary. It might also teach you a new word or two. If you are very good, you may reach the Hall of Fame.

Introduction to CompuServe Games GAM-222

Newcomers can use the Introduction as a guide to the world of CompuServe Games. It explains game requirements, lists quick reference words for games and explains how to use the help facility.

Island of Kesmai ISLAND

Many years ago, a group of magicians wanted to escape persecution. They settled on the Island of Kesmai where they experimented in the black arts. They created many strange creatures through their sorcery, which took place in catacombs deep underground. As their anger and their pride grew over the years, they determined to have revenge on their persecutors by calling up an ancient Dragon of Dron. They produced the dragon, but they were not able to control it. The dragon destroyed the laboratories and killed most of the magicians. It found its way to the temple located in the lowest levels of the catacombs, and it remains there to this day. Many of the creatures created in the laboratories escaped and have been living and multiplying ever since. You'll travel over many "acres" of land and encounter many computer-run characters during your adventure. The game consists of two segments: the Basic Game, which includes the regions of Kesmai, Leng, Oakvaal and Axe Glacier; and the Advanced Game, which includes the regions of Torii, Annwn, Rift Glacier and Shukumei. The game is constantly evolving, and more mysterious lands are made available regularly. +

MegaWars I: The Galactic Conflict MEGA1

Imagine yourself at the helm of a starship, trying to capture planets and build an empire before the enemy destroys you and your effort. At your command are weapons such as phasers and photon torpedoes and a bank of equipment on board to help you use them. The ship's radio lets you communicate with other members of your team or taunt the enemy into making a fatal mistake. In addition, as your skill increases, you will rise in rank from cadet to admiral and gain the use of specialized ships. +

MegaWars III: The New Empire MEGA3

Imagine yourself in a galaxy filled with strife and destruction. You find that you must have wealth and power in order to survive. But you may not be able to get it by yourself. You may want to join a team of people whose interests are similar to yours, people who want to expand their wealth and protect and manage what they have. So your team forms, but you are cautious because your team members may turn on you. MegaWars III is a multi-player game which consists of two separate phases. The interactive phase is where you fly your ship about the Galaxy exploring for new planets to colonize and fighting with enemies. The second phase is an economic model, where you manipulate the economies and populations of the bases you own. The game's starting point is its main menu. Here you may choose to build, repair or fly your ship, manage your planets and obtain game-related information. Throughout the game you may converse with other players who are playing at the same time. Although many players form teams when they play the game, players can play it alone. With these things in mind, you are ready to enter MegaWars III — The New Empire. +

The Modem-To-Modem Gaming Lobby MTMLOBBY

The MTM Gaming Lobby lets you play PC computer games in head-to-head competition with players from around the world. Check into Lobby to meet and play against your chosen opponent or visit the Lobby for a quick, pick-up match. The MTM Gaming Lobby staff can assist you in finding modem games and challenging opponents. +

The Multi-Players Games Forum MPGAMES

This specialized games forum supports the entertainment needs of members who play any of the unique and challenging, multiple-player games via the CompuServe online environment. Get hints, plan strategies, and socialize with fellow multi-player gamers and the forum's staff. +

The Multiple Choice TMC

The Multiple Choice offers a whole host of online games and tests to challenge, amuse, and even train you. Trivia games are available in versions for kids, teens and all ages. Relaxing and amusing games include jumbled word games, games where you fill in the missing part of a classic quote or an ad slogan, and games where you enter random verbs, nouns and adjectives and silly letters are generated. There are two achievement challenges. One tests high school competency similarly to the New York State Board of Regents Tests for grades 9 - 12. The other is a simulation of the "Miller Analogies Test" used as an entrance test to many graduate schools. Use either to test your mettle or practice up for the real thing. Use personality profile tests to see how well you know yourself or how well you know others, IQ tests, intelligence tests, or the Super Brain Teaser. +

Parlor and Trivia Games TTGAMES

This choice gives you a menu of all the parlor and trivia games currently available on CompuServe such as Hangman, You Guessed It! and SHOWBIZ Quiz.

Play-By-Mail Games Forum PBMGAMES

Join the Play-By-Mail Games Forum to talk about all types of commercial Play-By-Mail Games, including *Beyond the Stellar Empire*, *Heroic Age*, *Out Time Days*, *SuperNova*, *Realms of Altair*, *Starweb*, *It's A Crime*, *Illuminati*, *Continental Rails* and many others. Some companies even sponsor CompuServe-only versions of their games. Not only can you discuss games online, but you can play them by Electronic Mail or via the Message Board, as well. If you enjoy PBM Games — SciFi, Power, Fantasy, War, Crime, Sports — this is your forum! +

Role-Playing Games Forum RPGAMES

The Role-Playing Games Forum invites you to discuss and play all types of board/paper/text role-playing games including AD&D, Rune Quest, Gamma World, Traveller, Champions and Justice, Inc. Role-playing games are conducted in the conference area every evening. For additional game support, access the Gamers' Forum (GO GAMERS). +

Science Trivia Quiz SCITRIVIA

Is there a budding Einstein in the audience? Even if you missed the Nobel Prize this year, you can challenge the top scorers in the Science Trivia Hall of Fame. Test your knowledge of biology, chemistry and physics through the Science Trivia Quiz. Questions and comments can be discussed in the Science/Math Education Forum (GO SCIENCE).

SHOWBIZQUIZ SBO

SHOWBIZQUIZ is a trivia game that tests your knowledge of the entertainment world in a variety of categories such as Frank Sinatra, the Twilight Zone or the Rolling Stones.

The Modem Games Forum MODEMGAMES

Owners of modem-capable computer games meet in the Modem Games Forum. Members play in head-to-head tournaments organized by forum staffers and run in the Modem-To-Modem Gaming Lobby™. The forum also contains dozens of game programs that offers members a variety of games that can be played one-on-one via modem. +

The Modem-To-Modem Challenge Board MTMCHALLENGE

Owners of selected modem-capable games can locate worldwide opponents to play through the use of the MTM Challenge Board. Search the Challenge Board to find and challenge players to popular modem games such as *Armor Alley*, *Battle Chess*, *Command HQ*, *Faces*, *Falcon 3.0*, *Flight Simulator*, *Knights Of The Sky*, *Medieval Warrior*, *Operation Combat*, *Stunt Driver*, *3-D Helicopter*, and *Vette*. +

SNIPER! SNIPER

Set in 1943 on the battlegrounds of World War II, SNIPER! is the multi-player war game that pits your squad of soldiers against others in a realistic simulation of wartime conditions. Using the color graphics front-end program called "Scope," the geography, architecture and military units spring to life. Your success in working your way up through the ranks to General depends not only on your skill and daring, but also on the strengths and weaknesses of your individual soldiers and the squad as a group, the uncertainty of intelligence about enemy forces and the effects of chance. +

Stage II — Two Stage Trivia STAGEII

Stage II is a trivia game whereby you answer three trivia questions and then look for a common theme in the answers. It can be played individually or as a group. +

War/Simulation Games WARGAMES

Is strategy your strong suit? This Choice gives you a menu of war and simulation games such as MegaWars I and III and SNIPER!.

The Whiz Quiz WHIZ

Do you think you are a knowledgeable person? The Whiz Quiz, sponsored by Grolier's Academic American Encyclopedia, will test your knowledge in a variety of categories including geography, current events, movies, sports, music, science, literature, history and myths and legends. Up to four people can play. The top ten scores for a session will enter the Wizard Hall of Fame.

You Guessed It! YGI

You Guessed It! is a real-time, multi-player game show simulation in which players form teams, answer general information and trivia questions and vie for prizes. There's interaction between players, as well as a cast of "online personalities." There is a lobby for meeting other players and a BIO feature, which lets you learn more about those playing. Will you meet new friends, have fun and discover the True Meaning of Life? You Guessed It! +

Section 7

Investing and Finance

This section provides you with an overview of the services which can assist you with your investments. Though tailored for the individual investor, CompuServe's financial services are also utilized by many Wall Street firms. You can get quotes on stock prices, find out information about companies and buy and sell securities. CompuServe invites you to use the H&R Block ticker symbol to practice and see the type of information each product provides. Type HRB at most company or issue prompts and get live information without a surcharge.

Basic Quotes BASICQUOTES

Members of CompuServe's Basic Services can retrieve delayed quotes for items such as stocks, options, indexes, exchange rates and mutual funds. Each stock quote provides the volume, high, low and most-recent trade, as well as an indication of any current news stories on a particular issue. Up to 20 quotes can be retrieved in a single session.

Brokerage Services BROKERAGE

This menu enables you to choose among the various brokerage services on CompuServe.

Business Dateline BUSDATE

Business Dateline is a searchable database containing the full text of articles from more than 115 regional business publications in the U.S. and Canada. The articles provide a regional outlook with information on local economic conditions, retailing, real estate, people and management, financial institutions, transportation and electronics from 1985 to the present.\$*

Calculating Personal Finances FINTEL

This section offers products that enable you to calculate your net worth and generate a loan amortization schedule. +

Commodity Markets COMMODITIES

CompuServe offers access to historical information on futures contracts and cash prices along with exclusive newsletters offering news, features and analysis. CompuServe's commodities database contains open, high, low, settling and cash prices along with volume and open interest for every trading day over the past 12 years. Futures prices are generally available by 7:00 P.M. Eastern time (U.S.) with the cash price, volume and open interest available 24 hours later. The data are provided by MJK Associates which uses multiple sources to ensure accuracy and guarantee timeliness. Data are available for all commodities on the U.S., Canadian and select global exchanges with significant trading volume. Data include financial and currency futures as well as metal, petroleum and agricultural commodity contracts. Composite prices from the Commodity Research Bureau are also available. +

Commodity Pricing —

One Contract CPRICE

Pricing History — One Contract presents historical performance by day, week or month for the requested commodity contract (or optionally the contract nearest delivery). The program displays open, high, low and settling prices along with volume and open interest. Also available are aggregated volume and open interest for all contracts for

the requested commodity along with the cash market price for the commodity. \$

Commodity Symbol Lookup CSYMBOL

Commodity Group Listing displays available commodity groups including foods, grains, metals, financial, petroleum, fibers, currencies and indexes. Access symbols, active contracts, exchange, where traded and commodity description are shown for each commodity.

Company Analyzer ANALYZER

Company Analyzer provides "one-stop shopping" for financial information. Simply enter a company name, ticker symbol, or CUSIP number, and the ANALYZER will search the various financial services to determine which ones contain data for the company you have entered. The service then builds a customized menu of the services offering information, which can include income statement, balance sheet, and ownership information from Disclosure, Value Line, Standard & Poor's and estimates of future earnings from the Institutional Brokers Estimate System. Also available from the menu are price and volume graphs, pricing statistics, a detailed issue examination and current news when available. \$E

Company Information COMPANY

This menu provides access to the various sources of information on specific companies.

Company Screening COSCREEN

Company Screening makes it possible to screen the DISCLOSURE II database based on entered criteria and produce a list of companies that meet the criteria. The ticker symbols of the companies can be saved for use in other CompuServe programs. Selection criteria include a variety of growth rates and financial ratios along with industry codes, state, total assets, book value, market value, annual sales, net income, cash flow, latest price, etc. Updated weekly with market prices updated overnight. \$E

Corporate Affiliations AFFILIATIONS

Corporate Affiliations offers profiles and reference information on most of the large U.S. public companies and their affiliates. This database includes organizations traded on the New York and American Stock Exchanges, their affiliates, and any company traded over-the-counter having affiliates. Information on a business can include its name, address, phone number, business description, the names of its executives, and the business's place in its corporate family hierarchy. \$*

Current Market **SNAPSHOT** SNAPSHOT

Current Market **SNAPSHOT** provides a picture of the current stock market by depicting key indicators in a concise one-page report of statistics. **SNAPSHOT** highlights current trading trends by presenting the highest, lowest and latest values for the Dow Jones 30, Standard and Poor's 500 and NASDAQ Composite. The strength of this trend is defined by summarizing New York Stock Exchange activity, including percent change and number of shares traded in the current session. The trend's breadth is described by reporting advancing and declining issues and separating up from down volume. **SNAPSHOT** also presents the value of the U.S. dollar in gold, yen, deutsche marks and pounds. \$E

Current Quotes **QQUOTE**

Quick Quote. CompuServe's current quotations service, allows you to retrieve the current market value of stocks, options and market indexes. Quotes are delayed over 15 minutes, which is as soon as the exchanges will allow you to receive them without the payment of a monthly fee. The information includes volume, high/ask, low/bid, last, change and time of last trade or quote. Major foreign currency exchange rates are updated twice each day, and current values for mutual funds and money market funds are available by 7 P.M. ET. You can retrieve the quotes by specifying a ticker symbol, the company name or a previously stored file of ticker symbols. Optionally, retrieved data may be directed to an output file in formats readable by microcomputer spreadsheet packages.

QQuote will place an asterisk at the end of a quote line for any issue which has a current news story available. To read this late-breaking news, simply enter /CONEWS at the Issue: prompt. Updated continually. \$

D&B Dun's Market Identifiers **DUNS**

Dun and Bradstreet brings three searchable directories of business information online with its Market Identifiers databases. You can search:

- ▶ **D&B-Dun's Market Identifiers**, a directory with information on over 2 million U.S. public and private establishments having more than 5 employees or with 1 million in sales
- ▶ **D&B-Canadian Dun's Market Identifiers**, a directory with information on over 350,000 Canadian companies
- ▶ **D&B-International Dun's Market Identifiers**, a 90-country international directory with information on over 200,000 public, private, and government controlled companies located in Asia, Africa, Europe, the Middle East, South America, the Pacific Rim and Australia.

Information on a company can include its name, address, telephone number, and company characteristics such as sales figures, number of employees, corporate family relationships, and names of the executives. \$*

Detailed Issue Examination **EXAMINE**

Detailed Issue Examination gives a detailed description of a single issue including trading status, recent price, dividends, risk measures and capitalization. For stocks, it shows the shares outstanding, twelve-month earnings-per-share, beta factor, indicated annual dividend and the dividend yield. For bonds, the program includes the maturity date, bond rate, yield to maturity, interest payment history and amount outstanding. Options information includes shares per contract, open interest, expiration date and exercise price. The 52-week high and low price are included for all securities. Updated overnight. \$

DISCLOSURE II **DISCLOSURE**

The **DISCLOSURE II** database is compiled from the 10K's and other reports that all publicly-owned companies file with the Securities and Exchange Commission. This information includes the 10K management discussions, detailed financial statements, business segment data, 5-year financial summaries, company name and address, a list of SEC filings, a business description, officers and directors, a list of subsidiaries and lists of insider owners, institutional owners and owners of 5% or more of the company's stock. Updated every Sunday with market prices updated every night. Ownership information is updated quarterly. \$E

Dividends, Splits, Bond Interest **DIVIDENDS**

Dividends, Splits, Bond Interest gives dividend, split and bond interest information for an issue over a given period. Hard-to-obtain mutual fund distributions are also available. You may specify either the number of dividends you wish to view or a specific date range. The report includes the ex-date, record date, payment date, distribution type and the rate or amount of each distribution. Updated overnight. \$

Dun's Electronic Business Directory **DYP**

Dun and Bradstreet's Electronic Business Directory is a directory of information on more than 8 million professionals and businesses in the U.S., both public and private and of all sizes and types. In addition to names, addresses, and telephone numbers, the directory lists the type of business, its SIC code, number of employees, the industry to which each entry belongs, the population of each entry's city and information about parent companies. \$*

Earnings/Economic Projections **EARNINGS**

This menu choice enables you to access information about different companies' earnings, projected earnings and growth, and economic projections.

Error-Free File Transfer **FILTRN**

FILTRN, CompuServe's file transfer program, facilitates accurate transfer of data files from your microcomputer to CompuServe, and from CompuServe to your microcomputer. B protocol, which is supported by CompuServe's **VIDTEX** software, and **XMODEM** protocol are available to ensure accurate transfer. Other popular transfer protocols can also be selected. +

European Company Library EUROLIB

The European Company Library contains directory and financial information on more than 2 million European companies. Information is available from leading business databases such as D&B-European Dun's Market Identifiers, Europe's Largest Companies, Hoppenstedt Austria, Hoppenstedt Benelux, Irish Company Profiles and Kompass Europe. Information can be retrieved by entering the company name, industry codes or specific geographic location. \$

Financial Forums FINFORUM

This section contains financial forums. The Financial Forums enable you to ask specific questions about financial matters such as investments and the economy, or about technical matters such as running Lotus 1-2-3. You'll be asking professionals who know their subject matter well, and you will have a chance to trade ideas with others like yourself.

Futures Focus ACF

Futures Focus is a weekly newsletter for the futures trader published by News-A-Tron. It features the TSF trading system, a market overview and tips on how to improve one's trading performance. Updated Fridays. \$

German Company Library GERLIB

The German Company Library contains directory, financial and product information for more than 48,000 public and private German companies. Information is available from leading business databases such as Creditreform, D&B-German Dun's Market Identifiers, Hoppenstedt Directory of German Companies, and Kompass Germany. Information can be retrieved by entering the company name, industry codes or specific geographic location. \$

Highlights — Previous Day MARKET

Market Highlights analyzes the most recent trading day for the New York Stock Exchange, American Stock Exchange and Over-The-Counter markets and prepares 19 different reports. Included are the most active stocks, the largest gainers and losers, stocks for which the price has risen or dropped over the past three, four or five trading days, stocks with new 6-month highs or lows, stocks with a low above yesterday's high or a high below yesterday's low and stocks that have traded twice their average volume. Updated overnight. \$

Historical Stock/Fund Pricing SECURITIES

This menu accesses the MicroQuote II historical database in a variety of ways.

I/B/E/S Earnings Estimates IBES

I/B/E/S is the Institutional Broker's Estimate System and represents a consensus of annual and long-term forecasts from more than 2,500 analysts at 130 brokerage and institutional research firms. These firms include the top 20 research firms in the country and 100% of the all-star analysts as ranked by Institutional Investor magazine. The database includes information about more than 3,400 companies and reports the most optimistic and pessimistic EPS estimates as well as median, mean and variation. Current share price, earnings per share and price/earnings ratio are included. Updated every Sunday with market values updated daily. \$E

Index Symbol Lookup INDICATORS

This product gives the ticker and the CUSIP number for all indexes included in the MicroQuote II database along with the time period for which each index has data. Issues are categorized into manageable groups designated by Market/Industry Indexes, Bonds/Yields, Exchange Rates, Volumes, Advances and Declines and any issues that are new or do not fall into one of the previous categories.

Instructions/Fees FINHELP

This area provides immediate answers to commonly asked questions, information about session charges and product surcharges, update times, and offers you an opportunity to give feedback on the financial service offerings.

International Company Information COINTL

Information on millions of international companies from Canada (GO COCAN), Germany (GO COGERMAN), the UK (GO COUK) and other European countries (GO COEURO) is available in International Company Information. Each section contains its own databases to help you easily track information such as the countries' largest companies and their products for many public and private companies and leading businesses. Available company information includes location, number of employees, annual earnings and industry codes.

Investext INVTEXT

Investext contains the full text of company and industry research reports compiled during the most recent 2 years by analysts in more than 50 Wall Street, regional, and international brokerage houses and research firms. Company reports include historical information such as a company profile; revenues, earnings and other financial operating results; stock performances; and can additionally include the researching brokerage's recommendations and an analysis and forecast of the company's future performance. Industry reports, available for more than 50 industry groups, can contain information on trends and conditions in the industry; new technology and product development; competition and market share; and can additionally contain an analysis with descriptive text and statistics. \$

Investment Analysis ANALYSIS

Investment Analysis menu selections offer various methods of using MicroQuote II investment data. DISCLOSURE Screening and Securities Screening give members the opportunity to search the entire DISCLOSURE universe of over 10,500 companies or the MicroQuote universe of over 125,000 securities respectively for prospective purchase candidates. Return Analysis and Portfolio Valuation can then be used to track purchased securities and gauge your success.

Investors' Forum INVFORUM

The Investors' Forum provides a meeting place where those interested in the world of investing meet to discuss market trends, download investment software and participate in "real-time" conferences with money managers, brokers and individual investors. Conferences are scheduled regularly, and many feature experts speaking on specific areas of investing. All types of investments, from stocks to real estate to insurance, are discussed, and both novice and expert investors are welcome. +

IQINT — Company Information IQINT

IQINT, like MQINT, is designed for program-controlled downloading to your microcomputer. IQINT, however, retrieves descriptive items about the specified issue from MicroQuote II, company financial information from DISCLOSURE II and earnings information from I/B/E/S. Updated weekly. \$

Issue/Symbol Lookup SYMBOLS

Through this menu you can determine what securities and indexes are covered and the access symbol for each. Updated overnight.

List Bonds for Company BONDS

Bonds Listing displays all active bonds for the designated company. The report includes the ticker symbols, CUSIP numbers, issue description, yield and current selling price for each bond. Also included in the report is the quality rating expressed by both Standard & Poor's and Moody's. Updated overnight. \$

Market Quotes/Highlights QUOTES

This menu delivers CompuServe's current and historical quotes products via menus. Quick Quote contains current market quotes on stocks, options and market indexes along with end-of-day foreign currency exchange rates, net asset values for mutual funds and current yields on money market funds. The MicroQuote database contains historical information on more than 125,000 stocks, bonds, mutual funds and options as well as international exchange rates and hundreds of market indexes. Dividend, interest, distribution and split histories go back 20 years, and daily price and volume data are available for the past 12 years.

MicroQuote II also contains investment data on earnings, risk and capitalization. Quick Quote current stock quotes are delayed over 15 minutes. Most commodities data are available by 7:00 P.M. Eastern Time, and MicroQuote II price and volume information for all securities is updated and available by 7:00 A.M. the next morning. CompuServe is very careful about the accuracy of its data. We perform automated reasonability tests and use independent sources to check any discrepancies. Many major investment banking firms regularly depend upon this data. Here are a few tips that you may find useful when using quotation data:

- ▶ You will need to enter a ticker symbol. If you do not know it you can enter an asterisk followed by the beginning of the company name or you can look them up using the Issue/Symbol Lookup programs, GO LOOKUP.
- ▶ If you are at a prompt for company name or ticker symbol and you wish to exit the program, the navigational commands such as TOP or MENU will not work. Instead, you need to enter /T or /M so that the system knows you are not trying to enter a company name or ticker symbol.

- For some products you will need to enter the date or the number of days, weeks or months for which you wish pricing information. Dates may be entered in several formats including mm/dd/yy (i.e. 10/15/91 or 2/7/92).

To check the current price of a stock anywhere on the service type QUOTES and a stock ticker symbol at any prompt. Separate the symbols with commas to price more than one issue. The display includes the ticker symbol, the day's most recent quote and posting time, change from yesterday's close and the number of shares sold. There is a small surcharge for each quote displayed except when retrieved via the QUOTES option on the Services menu in CompuServe Information Manager. \$

Micro Software Interfaces INTERFACES

This choice contains menu options for software interfaces that can increase the abilities of your personal computer to interact with CompuServe. \$

MMS International Financial Reports MMS

MMS International is a multinational corporation specializing in financial and economic research. MMS has expertise in monetary theory and forecasting of central banking policies and operations. They produce a series of economic reports released on a daily, weekly and biweekly basis. Reports offered include FEDWATCH, which focuses on interest rate trends and Federal Reserve Board activity, daily analysis of the debt, currency and equity markets, and special briefings on economic data, including expectations. Also included is the recommended MMS stock portfolio. A schedule of updates is included online with the product. \$

Money Magazine Financial Information Center MONEYMAG

The Money Magazine Financial Information Center provides mutual fund information along with other electronic investment services to help you reach your financial goals. Services available include:

- FundWatch Online — a comprehensive mutual fund database for screening and reporting on over 1,700 professionally managed investment alternatives. FundWatch Online allows you to screen on numerous criteria to find the best-performing funds with the lowest expense rates. And the detailed reports show you how any of the funds have performed in the current month, current year, and over 1, 3, 5, and 10 year time spans, as well as the fees and expenses and a contact phone number should you decide to invest or have additional questions. \$
- Steer your own financial future. With Money Magazine Online you can read articles from *Money* magazine about taxes, portfolio management, retirement, education and how to enjoy your money. Gain helpful insights and receive practical advice from the staff at *Money* magazine. +
- The WealthBuilder Forum for members using or interested in WealthBuilder by *Money* magazine software. +
- A Money Store for purchasing *Money* magazine print and software products.
- Access to Quick Quotes for current quotes and news on your securities. \$

MQDATA — Prices, Dividends, Security Descriptions MQDATA

MQDATA creates files for transfer to your microcomputer and allows access to MicroQuote II data. Members may select one or more issues for a range of days, weeks or months and create files formatted for use in spreadsheets, databases or BASIC programs. Members can also download dividends, earnings, yields and other descriptive and performance data. Updated overnight. \$

MQINT — Securities Prices MQINT

MQINT is designed to meet the needs of microcomputer software that automates the downloading process. CompuServe guarantees an unchanging dialogue within the program, with all prompts ending in a colon. MQINT allows access to the MicroQuote II, Quick Quote and Commodity databases. Members may select to retrieve single-day quotes for one or several issues or a time-series of quotes for a single issue or contract. The program minimizes data transmission time and employs a check sum if requested to assure correct data. Updated continually. \$

Multiple Issues — 1 Day QSHEET

Multiple Issues — 1 Day gives volume, close/average, high/ask, low/bid and CUSIP numbers for several issues for a given day. You may enter a previously stored file of up to 500 ticker symbols for processing. Updated overnight. \$

National Association of Investors Corporation Forum NAIC

The goal of the National Association of Investors Corporation Forum is to educate long-term investors in how to find quality companies and buy stocks at good prices. Well-managed companies are identified from reported financial data and in-depth analysis. Members can share information on portfolio management, software and favorite stocks. +

News-A-Tron Market Reports NAT

Market Reports give analysis and cash market prices on selected commodities, market indexes, financial instruments and foreign exchange information. \$

Options Profile OPRICE

Options Profile lists all options currently trading on a given common stock or market index. Coverage includes put and call options trading on major U.S. exchanges. It lists the name, 15-minute delayed price or pricing date, ticker symbol and exchange code for the underlying company. The exercise price and closing option price are displayed for each active option. Market prices updated continuously. \$

Personal Finance/Insurance FINANCE

This menu includes many services and programs that are useful for making personal financial and insurance decisions.

Portfolio Valuation PORT

Portfolio Valuation finds the value of a previously created portfolio for dates you select and displays unrealized gains and losses. Market prices updated continuously. \$

Price/Volume Graph TREND

Price/Volume charting provides graphic presentations of both the traded price and the trading volume for the requested days, weeks or months. Relevant information such as the current earnings, price, dividend and risk information for common stocks is displayed with the graph. Your personal computer and communications software must be able to support graphics to use this product. Updated overnight. \$

Pricing History — 1 Issue PRICES

Pricing History — 1 Issue gives over 12 years of historical prices by day, week or month. It includes CUSIP, exchange code, volume, high/ask, low/bid and close/average for a given security. You may designate the beginning and ending date or a number of time periods. Updated overnight. \$

Pricing Statistics PRISTATS

Pricing Statistics provides a snapshot of price and volume performance for a requested issue over a given period. It indicates such items as whether an issue is trading closer to recent high or low prices. The statistics include the current high/ask, low/bid and close average as well as the highest high, the highest close, the lowest low, the lowest close, the highest volume, the lowest volume and the average and standard deviation for high, low, close and volume. Also included are the total volume, the beta factor and the beta centile rank. Updated overnight. \$

Quick Way QWK

Quick Way offers all the functions of a traditional stockbroker conveniently through your computer including market and limit orders and trading on margin. The service is provided by Quick & Reilly, one of the largest discount brokerage firms. Quick & Reilly offers its customers:

- Discount commissions
- Online quotes for stocks, options, market indexes, commodities and mutual funds
- The ability to place buy and sell orders, review, change, cancel orders, and receive confirmations when orders are executed
- The ability to place buy or sell orders 24 hours per day

With Quick & Reilly you can open individual or joint accounts, as well as IRA, Keogh, pension, profit sharing, custodial, trust, estate, corporate, partnership, and investment club accounts. Portfolio evaluation services include value, income, unrealized gains and losses, and year-to-date realized gains and losses. For monthly exchange fees, you can get real-time quotes (otherwise quotes are delayed a minimum of 20 minutes). \$

Rategram Federally Insured CDs RATEGRAM

Rategram provides a service for finding the highest yielding federally insured savings instruments available nationwide. Information is available on liquid money market accounts, certificates of deposits, money market mutual funds and tax free money market funds. A weekly yield summary is provided along with a rate almanac listing information such as the prime lending rate, discount rate, federal funds rate, Fannie Mae home loan mortgage rates and one year T-bill and T-note rates. \$

Return Analysis RETURN

Return Analysis calculates the annualized returns for your securities. Because you enter the holding period, this product is useful for analyzing the historical performances of specific issues such as mutual funds in bull and bear markets. Updated overnight. \$E

S&P Online S&P

S&P Online from Standard & Poor's Corporation contains recent information on approximately 4,700 companies including business summaries, earnings outlooks, historical earnings and dividends and product line summaries. All information is dated to indicate when it was last reviewed. The S&P Master List presents buy recommendations for various investment objectives and S&P Investment Ideas present stocks which Standard & Poor's expects will outperform the market over the next 12 months. Updated every Tuesday night. \$

Search for Company Name, Ticker Symbol or CUSIP LOOKUP

LOOKUP will search by name, CUSIP number, ticker symbol, CNUM or SIC code and list all the issues for a company you select. The product displays the ticker symbol, CUSIP number, exchange code, SIC code, name and description for each issue. Use LOOKUP to find ticker symbols or CUSIP numbers for use in other investment services.

Securities Screening SCREEN

This product enables you to select a type of investment and then screen the MicroQuote II database to see what securities meet your criteria. When selecting common stocks, for example, you can search on price, earnings, dividends, risk, capitalization, recent highs and lows, exchange and industry. Securities Screening is useful for identifying issues to buy or sell short and for picking bonds with specific maturity dates and yield targets. Updated overnight. \$E

Spear Rees & Company SPEAR

Spear provides professional investment services to individual investors trading stocks, zero coupon bonds, options, index options, SEPs and IRAs, government securities, mutual funds and insurance products. Spear Rees & Company offers its customers:

- ▶ Instant execution of market orders
- ▶ No fee IRAs
- ▶ Discount commissions
- ▶ Special investment products
- ▶ Automatic portfolio and tax record keeping databases
- ▶ Real-time quotes for stocks, options, market indexes and commodities for an additional monthly exchange fee
- ▶ The ability to place buy and sell orders; review, change, or cancel orders; and receive confirmations when orders are executed
- ▶ A program for limited commission-free trading
- ▶ Around-the-clock availability

Spear customers can have a full range of accounts, including cash, margin, option, corporate, investment club, custodial and Keogh. Spear handles trading services, customer statements, dividends, trade confirmations and transfer of funds. \$

Thomas Register Online THOMAS

Thomas Register Online provides annually updated information on almost 150,000 U.S. and Canadian manufacturers and service providers. Information in each database record includes the company name, address, telephone number, and products or services provided. Also available for some companies are trade names with descriptions, the company's TELEX and cable address, asset rating, number of employees, exporter status, names of parent and subsidiary companies, and executive names and titles. \$*

TRW Business Profiles TRWREPORT

TRW Business Profiles provide credit and business information on more than 13 million organizations. Use this database to find actual account information for over 70 million business account relationships as reported by participating corporations. Information in a report can include credit histories; financial information and ratios; key business facts such as size, ownership and products; UCC filings; tax liens; judgments and bankruptcies; and an executive summary. \$*

UK Company Library UKLIB

The UK Company Library contains directory, credit and financial information on more than 1.2 million UK companies. Information is available from leading business databases such as D&B-European Dun's Market Identifiers, Extel Cards, ICC British Company Directory, ICC British Company Financial Datasheets, InfoCheck, Key British Enterprises and Kompass UK. You can retrieve information by entering the company name, industry codes or specific geographic location. \$*

UK Historical Stock Quotes UKPRICE

This service offers pricing information updated on a daily basis for over 5,000 United Kingdom equity issues and approximately 350 market indices. Most securities in the service have data dating back to July 1, 1990. \$

UK Issue Lookup SEDOL

This service enables you to quickly and easily locate SEDOL (Stock Exchange Daily Official List) numbers, which provide a means of identifying issues traded on the UK exchanges. After finding an issue's SEDOL number, historical quotes can be retrieved from the UK Historical Pricing Service.

Value Line Annual Reports VLANN

Value Line Annual Reports are summarized financial statements for industrial and service companies. Four annual statements, the balance sheet, income statement, sources and uses of funds and key ratios report are available. Updated every other Sunday. \$

Value Line Data Base II VLINE

Value Line Corporate Reports includes information for over 1,700 companies, representing 95% of the dollar value of stocks traded on major U.S. exchanges. Data are provided for the past 12 years where possible. \$

Value Line Quarterly Reports VLQTR

Value Line Quarterly Reports summarize information for the four quarters in any available fiscal year including sales, EPS, net income, dividend and stock price data. Updated every other Sunday. \$

Value Line 3-5 Year Projections VLFORE

Value Line provides individual company forecasts of earnings, sales, dividends, book value and anticipated high and low prices three to five years into the future. Updated quarterly. \$

WealthBuilder Forum WBUILDER

Plan for a successful financial future. The WealthBuilder Forum offers support to users of WealthBuilder software who want to improve their personal investing. As a member, you can discuss topics such as potential investments; planning for retirement, business, education or other personal goals and how WealthBuilder can help you define and meet your financial needs. +

The Business Wire TBW

The Business Wire makes available press releases, news articles and other information from the world of business. It is updated continuously throughout the day and brings information on hundreds of different companies. +

EMI Non-graphic Map AERORAD

An EMI Non-graphic Map shows radar precipitation with numerical indicators of precipitation intensity. Display the eastern two-thirds of the U.S., the western two-thirds, or the entire country (information for the Southwest is not included). You can also send the eastern or western maps directly to a FAX machine (for a fee). The weather data are updated every hour with information from the National Weather Service.

Executive News Service ENS

Members can keep informed of news affecting their business and personal interests with the Executive News Service. ENS is the unique electronic clipping service that monitors Associated Press news wires, the Washington Post, United Press International and Reuters news wires for stories containing words or phrases you specify. The stories are clipped as they come across the wires and held in electronic folders for you to review at your convenience. \$E

Motor Sports Forum RACING

Motor Sports Forum provides the member with driver biographies, track information, sanctioning organization addresses and contact information, schedules and other information of interest to motor sports fans. In addition, the forum includes real-time auto racing reports, filed directly from major events around the world. +

NCAA Collegiate Sports Network NCAA

Rah Rah! Sis-Boom Bah! Keep up-to-date on your favorite college football, basketball, baseball and softball Division I, II and III teams. Updated weekly, the NCAA Network, sponsored by the National Collegiate Athletic Association, provides you with accurate statistics for individual players and teams, current news releases and poll results for men's and women's collegiate sports. \$

NewsGrid NEWSGRID

NewsGrid is a comprehensive news service compiled from several global news wire services. It covers business, U.S. and world news. You can access stories using Headline Menus, Market Updates or Keyword Search. Headline Menus change as new top stories become available throughout the day. Market Updates provide regularly scheduled financial reports on the economy and Wall Street. Keyword Search selects stories sent within the past seven days based on the keywords you enter. +

Newspaper Library NEWSLIB

Newspaper Library offers full-text articles from more than 50 newspapers from across the United States (classified ads not included). These 50 range from the A of the *Akron Beacon Journal* to the W of the *Wisconsin State Journal & Madison Capital Times* and include such papers as the *Boston Globe*, *Chicago Tribune*, *Charlotte Observer*, *Detroit Free Press*, *Lexington Herald-Leader* and the *Washington Post*. There is a two-day delay in making today's articles available. \$*

NWS Aviation Weather AWX

CompuServe Aviation Weather is instant weather for pilots. It uses the N.O.A.A. Service "A" weather wire. This is the same data used in International Flight Service stations. Most of the data is coded but is easy to read with a little practice. It includes hourly reports, terminal forecasts, NOTAMS, PIREPS, SIGMETs, AIRMETS, area forecasts and radar summaries. Updated continuously.

Outdoors News Clips OUTNEWS

Review the latest full-text news reports on issues concerning the environment and outdoors activities including hunting and fishing. News items are extracted from major news sources such as AP and UPI. \$

Roger Ebert's Reviews & Features EBERT

Before spending your hard earned money on movie tickets and popcorn, access Roger Ebert's Reviews and Features for reviews of even the most recent box-office hits and flops. The well-known critic also provides the movie-goer with celebrity interviews, a Movie Lover's Source List, a list

of the top ten movies of all times and advice on attending film festivals. A Feedback section is available to communicate directly with Roger.

Sports SPORTS

This menu includes options for sports news, sports forums, games and other sports information.

Sports Forum FANS

The Sports Forum includes discussions on the NFL, major league baseball, NHL hockey and NBA basketball. Topics include trade rumors, performances and injuries of upcoming opponents and possible franchise moves. Members can get in the spirit of the games by playing Fantasy Football and Baseball within this forum. +

Sports Medicine INFOUSA

Jog, bike, swim or ski to the Sports Medicine clinic. Information is available through Information USA on basic exercise physiology, exercise testing, training, nutrition and the general risks versus benefits of exercise. Articles discussing specific sports give information on each sport's benefits, advantages and disadvantages and how to get started. You can keep track of your fitness efforts by using the chart of energy costs for various activities. +

UK Newspaper Library UKPAPERS

The UK Newspaper Library contains articles from the leading United Kingdom newspapers including the *Daily Telegraph*, *The Financial Times*, *The Guardian*, *The Times*, *The Independent*, *Today* and *The Observer*. Articles are extracted from current issues of the newspapers, as well as from several years back. Retrieve full-text articles by searching for a name, word or phrase. \$*

UK News/Sports UKNEWS or UKSPORTS

UK News Clips and UK Sports Clips provide access to full-text articles from the Reuters news wires about the latest news and sports affecting the United Kingdom. UK News Clips cover a broad range of financial, political and economic news, while UK Sports Clips cover the latest UK sports results and major sports news. +

Weather WEATHER

This choice contains various weather products. Weather information is also available as part of some aviation products (GO AVIATION).

Weather Maps MAPS

Using CompuServe CIM or any GIF compatible program, you can display 16 color or black and white maps of the United States, United Kingdom, Continental Europe, Pacific Rim and Australia/New Zealand. Each section offers a satellite map, current conditions and forecast maps. Radar depiction and regional wake-up maps are also available for the United States. Most maps are provided by Accu-Weather, Inc.

Weather Reports WEA

For United States locations, the National Weather Service features short term state and local forecasts, extended state and national forecasts, severe weather alerts, precipitation probability, state summaries and daily climatological reports. For locations outside the United States, Accu-Weather offers current conditions and three-day forecasts.

Section 9

Personal Interests and Hobbies

This section contains information on diverse interests and hobbies such as food, wines, genealogy, sailing, stamp collecting, pets, fitness and health.

AIDS Information AIDS

This choice gives you a menu of products that contain information pertaining to AIDS, the Acquired Immune Deficiency Syndrome.

Aquaria Fish Forums FISHFORUMS

Aquarium professionals and hobbyists alike can find information and friends in FISHFORUMS. Join the Aquaria/Fish Forum (GO FISHNET) to talk 'fish'. Members of fish specialty groups can exchange information on products, fish diseases and news. Join a live conference and meet fellow fish fanciers across the country. Regular conferences are scheduled with some of the nation's best known aquarists. Questions to the Forum Administrator (SysOp) will be answered within 24 hours, but if you can't wait, a voice line is available. +

Art/Music/Literature ARTS

From Bach to rock, from Shakespeare to Spiderman, this menu lets you converse on a variety of topics.

Automobile Forum CARS

Attention, car buffs! The Automobile Forum covers all facets of the automotive world from buying, selling and fixing cars to dreaming about what future cars will be like. You can find answers to your questions or demonstrate your own knowledge about car finance, insurance, safety and problems. Swap stories with other members about unforgettable experiences, classic cars or new developments in the car industry. +

Automotive Information AUTO

This menu provides information on a variety of automotive products, including car showrooms, an auto racing forum and automotive equipment.

Bacchus Wine Forum WINEFORUM

The Bacchus Wine Forum presents information on many wine-related and home beer brewing topics. Information about your favorite wines may also be shared with other wine lovers. Issues of *The Informed Enophile*, a wine newsletter, are included, and online wine-tasting parties are held regularly. +

Cancer Forum CANCER

The Cancer Forum is an online hotline providing information about cancer and support for people with cancer, their friends and relatives. Topics covered include standard and supplemental methods of cancer treatment, research and cancer in children. Support is provided by forum members and the Cancer Hotline in Kansas City. The forum does not provide medical opinions or diagnoses. +

CCML AIDS Articles AIDSNEWS

People interested in AIDS research can use this searchable medical library to find full text AIDS-related articles. Sources include medical reference books, text books, and medical journals such as the *New England Journal of Medicine*, *Science* and *Nature*. \$*

Collectibles Forum COLLECT

Philatelists, numismatics and other collectors will enjoy the Collectibles Forum. Beginners and dealers will want to stop by regularly for pricing and trading information and to check out the Collectors' and Dealers' Network. Baseball cards and other collectibles are also included. +

Comics/Animation Forum COMICS

The Comic Book Forum features news, reviews and conferences with some of the greats of comic books and animations. +

Cooks Online COOKS

This is a place where people can share their enthusiasm for cooking and gourmet food. Members swap recipes, exchange cooking tips and share menu planning ideas. Fine restaurants are discussed, and members can consult with cooking experts online. +

Crafts Forum CRAFTS

If you enjoy stitching, knitting, wood-working or other crafts, join the Craft Forum and become enveloped in a world of fresh ideas and inspiration. Message sections are devoted to specific crafts like quilting, cross-stitching, sewing and painting. Members compare techniques, swap project ideas and describe projects they are working on now or have done in the past. The libraries are stuffed with downloadable patterns and articles about crafts. +

Diabetes Forum DIABETES

The Diabetes Forum is for anyone interested in diabetes, hypoglycemia or related genetic autoimmune conditions. Meet other diabetics, family members of diabetics, friends and medical practitioners. Message sections and libraries cover medications, diet and exercise, technology, treatments and more. +

Disabilities Forum DISABILITIES

The Disabilities Forum is a communication facility and support group for anyone interested in disabilities to exchange information. Disabled people share information, ideas and experiences related to their daily living. Parents and families of disabled people and professionals who work with disabled people also share their experiences and information. The Disabilities Forum is open to everyone. +

Food/Wine FOOD

This Menu contains forums for people who enjoy good food and wine.

Genealogy Forum ROOTS

Are you related to Pocahontas? Need information from Revolutionary war veterans' land applications? Want a list of Irish genealogy societies, addresses of vital records departments in all the Canadian provinces or a list of organizations that help adoptees locate their natural parents? Maybe you just want to read or photograph faded tombstones. You'll find what you're looking for in the Genealogy Forum, the forum for people interested in researching ancestry and using PCs for genealogy databases, word processing and genealogy data communications. +

HamNet (Ham Radio) Forum HAMNET

This conferencing facility of HamNet Online enables you to converse with others who are interested in amateur radio and short-wave listening. +

Handicapped Users' Database HUD

Handicapped Users' Database provides articles and topics of interest both for and about the handicapped. Included are a reference library, a list of organizations and information about computer products specifically geared for use by handicapped individuals. An online message board for the exchange of ideas is also available. +

Health and Fitness Forum GOODHEALTH

The Health and Fitness Forum provides the member with general health-related information and support groups. Included are discussions of exercise, nutrition, fitness, mental health, emotional and family health, the elderly, food, substance abuse such as alcohol and drug dependency, environmental hazards, and alternative health care.

Health/Fitness HEALTH

This menu contains options for information on health-related matters including sports medicine, sexuality, mental health and general health topics.

HealthNet HNT

HealthNet is a comprehensive online medical reference source containing a reference library and section about sports medicine. Included in the Reference Library are sections about disorders and diseases, home health care, prescription drugs and eye care. The Sports Medicine section contains information on nutrition, exercise and the benefits of and injuries incurred from some specific sports. +

Literary Forum LITFORUM

The Literary Forum is a gathering place for professional writers, literature readers, journalists, humorists and those with an interest in any related field. Included are sections on poetry, controversial topics, fiction, science fiction, comics, humor and journalism. +

MENSA Forum MENSEA

Sponsored by American Mensa, Ltd., the MENSA Forum provides a place for Mensa members and non-members to exchange information and ideas on the development and application of human intelligence. Message and library sections include topics such as scholarships, gifted children and puzzles. +

Military and Veterans Forum MILITARY

The Military and Veterans Forum encourages discussion of current topics and includes a section for vets to inquire about benefits and data library files on the MIA/POW issue, military hardware, Atomic Vets, veterans organizations and member writings. It contains Vietnam veterans information plus current military service information including careers and military news. This area also includes information on current military service. +

Model Aviation Forum MODELNET

The Model Aviation Forum is for the model hobbyist. Builders of model airplanes, rockets, cars and boats will find all these disciplines covered in the forum. In addition, forum members have access to newsletters and articles from *Model Aviation Magazine* and a complete contest calendar. A 'Swap Shop' enables hobbyists to trade parts.

Network Earth Forum EARTH

Get involved in your world. The Network Earth Forum, from Turner Broadcasting's television program NETWORK EARTH, is for people who want to help solve environmental problems. Members hold conferences online with environmental experts and the staff from the television program to enhance the members' knowledge and ability to help save the environment. +

New Age Forum NEWAGE

Welcome to the dawning of a new age. Join the New Age Forum to participate in lively discussions about "new age" topics such as psychic arts and sciences; yoga and meditation; Eastern and occult religions and beliefs; natural foods/healing; and environmental issues. +

Outdoor Forum OUTDOORFORUM

The Great Outdoors provides outdoor lovers with an avenue to converse and share information with other outdoor lovers. Areas and topics of information include camping, climbing, backpacking, fishing, hunting, cycling, sailing and winter sports. The National Rifle Association manages a section on firearms. In addition, search and rescue, nature, wildlife, equipment reviews and park and campground information is included. +

Personal Finance/Banking FINTOL

This menu offers products that enable you to balance your checkbook, calculate your net worth and generate a loan amortization schedule.

Pets/Animal Forum PETS

The Pets/Animal Forum covers all kinds of animals, including dogs, cats, snakes, birds, reptiles, horses, bats and other critters. Find help with animal behavior problems. Tell your favorite pet stories. There is an Ask-A-Vet section, pet loss support, pet graphics and other files for downloading, and a fire hydrant section for pet owners to relieve themselves. +

Photography Forum PHOTOFORUM

Shutterbugs of all levels, professional and amateur, can meet in the Photography Forum. Members can discuss photography equipment, film types and camera techniques. Professionals can communicate with others in the business and share money-making ideas. +

RockNet ROCK

RockNet provides the music enthusiast with up-to-the-minute news and information on the world of rock. It contains

- ▶ The RockNet Forum (GO ROCKNET)
- ▶ Rock news
- ▶ A list of top albums and tapes, and
- ▶ Articles about rock music. +

RockNet (Rock Music) Forum ROCKNET

The RockNet Forum has many members with the record industry, and you may learn news items before they appear in newspapers. +

Sailing Forum SAILING

The Sailing Forum is an electronic Yacht Club for people interested in discussing and learning about all aspects of sailing. It includes conferences with sailing celebrities and experts. Members enjoy relaxing on deck and soaking up the digital sunshine, diving into the depths of the database libraries and round-robin discussions in the conference area. +

Sci-Fi/Fantasy Forum SCIFI

The Sci-Fi Forum is a place where people who enjoy science fiction can get together and chat about their mutual likes and dislikes. There are also conferences with famous authors, producers and publishers. +

Scuba Forum DIVING

The Scuba Forum is run by experienced scuba divers and diving professionals and has information ranging from seeking scuba instruction to pursuing a career in diving. The forum is for experienced divers as well as people with just a casual interest who want to find out more about diving. Browse through the forum for dive sites; ask questions of fellow divers; attend scheduled conferences with diving physicians, professional divers, instructors, underwater photography specialists and others. Learn how to care for equipment and take better underwater photographs. Make new diving friends on the Scuba Forum. +

TrainNet Forum TRAINNET

TrainNet is your railroad forum. If you are a model railroader or railfan, TrainNet offers something for anyone interested in anything that runs on flanged wheels from Amtrak to Z Scale. You can use TrainNet to find a hobby store near you, find railroad historical or technical societies, or locate model railroading and railfan magazines. All aboard! +

Section 10

Professional Interests

This section describes forums which enable professionals to exchange ideas and information with others in the same field. People interested in the law, medicine, and other professional fields will find a forum to suit their professional interests.

AMIA Medical Forum MEDSIG

AMIA is sponsored by the American Medical Informatics Association. Members represent all segments of the professional medical community and use this forum to exchange ideas and information on medically related topics. +

Aviation Forum AVSIG

The Aviation Special Interest Forum is a group of people interested in computers and airplanes. It covers general flying issues, safety, weather, air traffic control, balloons and soaring, want ads and personal computer programs. AVSIG is open to any and all who care to visit and share their ideas and experience in the field of aviation. +

Broadcast Professional Forum BPFORUM

Broadcast Professional Forum covers the major publications, manufacturers and trade associations, conventions, organizations and seminars that relate to the fields of broadcast and audio engineering, production and land mobile communications. Also included is the latest FCC news as it relates to the broadcast and communications professions. +

Business Management MANAGEMENT

This menu contains information for the needs of managers of both large and small businesses.

Compendex—Engineering Index COMPENDEX

The Compendex—Engineering Index is a searchable database containing abstracts of articles taken from significant engineering and technical literature. Information comes worldwide from journals, publications of engineering professional organizations, conference proceedings and selected government reports and books. Covering virtually all engineering disciplines, topics include properties and testing of materials, fluid flow, pollution, ocean technology, applied physics, food technology and measurement. \$*

Computer Consultant's Forum CONSULT

The Computer Consultant's Forum is the place for computer consultants to exchange ideas and information on networks, product vendors, commercial software and equipment. Independent consultants can share business tips, technical information and solutions to client problems. The forum is sponsored by the Independent Computer Consultants Association (ICCA), which represents data processing professionals. +

Computer Training Forum OPTRAIN

The Computer Training Forum is for computer trainers, teachers, information center staff, vendors and anyone else with an interest in the computer learning process. Data libraries contain information on training techniques office automation, careers and computers in schools. International members contribute reports on computer trends overseas. Members can enroll in free online Professional Seminars taught by leading instructors across the country. +

Int'l Entrepreneurs' Network USEN

The Int'l Entrepreneurs' Network is an information exchange for entrepreneurs and business resources. Topics discussed include business start-up procedures and the development of entrepreneurship. Members are encouraged to discuss business-related problems, ideas and techniques. +

IQuest Business Management InfoCenter IQBUSINESS

Use the IQuest Business Management InfoCenter as an online reference tool to find information about business including management research, marketing studies and specific companies. InfoCenter databases provide access to business management information extracted from published sources such as journals, books and government publications. \$*

IQuest Education InfoCenter IOEDUCATION

Use the IQuest Education InfoCenter as an online reference tool to find information such as education theory and research, testing and vocational training. InfoCenter databases provide access to information extracted from published sources such as journals, books and government publications about education. \$*

IQuest Engineering InfoCenter IQENGINEER

Use the IQuest Engineering InfoCenter as an online reference tool to find information such as engineering research, mathematics materials, physics and aerospace. InfoCenter databases provide access to information extracted from published sources such as journals, books and government publications about engineering. \$*

IQuest Medical InfoCenter IQMEDICINE

Use the IQuest Medical InfoCenter as an online reference tool to find information such as medical practice, research, pharmaceutical news and allied health studies. InfoCenter databases provide access to information extracted from published sources such as journals, books and government publications about health and medicine. \$*

Journalism Forum JFORUM

Journalism Forum serves the professional journalist with a variety of services and specialized data libraries. Journalism Forum offers separate data libraries for radio, TV, print and photo/video journalists. In addition, there are data libraries dedicated to jobs listings, freelance opportunities, equipment exchanges, commentary and a listing of names and phone numbers of proven resources. +

Legal Forum LAWSIG

If you are an attorney, police officer, corrections officer, paralegal or lay person interested in the law, the Legal Forum is for you. Topics such as copyrights, bankruptcy, software/hardware for the law office, Lexis vs. Westlaw, pros and cons of polygraph tests, fingerprinting children and other law-related subjects are debated. +

Media Newsletters MEDIANEWS

Media Newsletters offers the full text of articles from several of the leading newsletters covering the broadcasting and publishing industries. The articles provide facts, figures, analysis and current information on changing market and company conditions, company activities, new products and technologies, and government policies and trade agreements. The title, newsletter name, publisher and date of publication are provided with each text. \$*

Media Services MEDIA

This section contains the services for people in media including broadcasting, marketing and engineering.

PR and Marketing Forum PRSIG

The Public Relations and Marketing Forum provides a special interest group for professional communicators such as public relations, marketing and communications directors or those holding related jobs in the public and private sector. The data libraries cover a wide variety of topics as they relate to PR including government, education, public affairs, financial institutions, consumer affairs, computers, high tech, health/social services and PRSA. The teleconferences enable a member to hear from recognized communications experts. In addition, the forum may be used to establish meetings by members for specific reasons. +

Safetynet SAFETYNET

The Safetynet Forum provides an area where anyone interested in safety-related issues can post messages, participate in teleconferencing and receive information from the data libraries. Topics covered include regulations and standards, chemical and physical hazards, hazardous materials, fire services/prevention/investigation, computer security and applications and emergency medical services. +

Section 11

Reference Library

This section comprises an extensive reference library that enables you to gather vast amounts of current and historical information quickly and efficiently. The section includes large databases comprised of demographic information; articles from periodicals; directories of products, manufacturers, and households; trademark and legal information; government proceedings, information, and statistics; consumer information; and newsletters.

Academic American

Encyclopedia ENCYCLOPEDIA

The online edition of Grolier's Academic American Encyclopedia is filled with the latest in science, technology, politics, business, law, the arts and social sciences as well as the whole range of historical data associated with a top-ranked encyclopedia. This is a general reference source of over 33,000 articles and ten million words that is updated and revised four times a year.

Book Review Digest BOOKREVIEW

Book Review Digest provides references to over 26,000 fiction and nonfiction English language books. Reviews are drawn from over 80 American, Canadian and British periodicals covering general and social sciences, humanities and general reference. The digest maintains a full citation and abstract for each book included and is updated twice weekly. \$

Books in Print BOOKS

Books in Print enables you to find books distributed in the U.S. for single- or multiple-copy purchase, books currently in print, books to be published in the next six months, and books which went out of print or out of stock in the last two years. You can search by subject, author and title and find information such as: author, title, publisher, date of publication, edition, binding (such as paperback), list price and subject. \$

Business Database Plus BUSDB

Keep current in your field without trips to the library or subscribing to scores of periodicals. Business Database Plus is a service that lets you search for and retrieve full-text articles from more than 450 regional, national and international business and trade publications. BDP gives you seven methods to locate articles that can provide you with sales and marketing ideas, product news, industry trends and analysis. For additional articles, access Magazine Database Plus (GO MAGDB), Computer Database Plus (GO COMPOB) and Health Database Plus (GO HLTOB). \$

Business Demographics BUSDEM

Business Demographics Reports are designed to help businesses analyze their markets. Two types of reports are available by various geographical units (including Zip Code, county, Arbitron TV Markets) and Nielsen TV Markets. The Business to Business Report details all major business categories (as represented by SIC codes) by number of employees and state percentage. The Advertisers Service Reports provide employee counts and number of establishments by employee size for retail trade businesses. \$

CENDATA The Census Bureau Service CENDATA

Now at your fingertips, the Census Bureau offers its data on manufacturing, housing starts, population, agriculture and more to CompuServe members. CENDATA lists tabular data and reports from the censuses conducted by the Census Bureau including the 1990 Census of Population. Some of the data have been condensed into reports that

are available on CENDATA and answer specific questions such as "How many bookstores are in Franklin County, Ohio?" and "What are the occupations with major employment gains for women?" CENDATA also has the latest press releases from the Census Bureau. It even lists the Census Bureau representative in your state. +

Commerce Business Daily COMBUS

The Commerce Business Daily is a database that includes the full text of U.S. Commerce Department publications listing all significant

- ▷ Federal contracts
- ▷ Requests for proposals
- ▷ Other data related to government contracts.

It is comprised of listings from the Commerce Business Daily, published by the U.S. Commerce Department, and from "DMS Bluetops," published by the Office of the Assistant Secretary of Defense. The database is updated daily and includes only listings from the most recent 90 days. Listings available include a summary of each contract/procurement, the name of the contracting agency, the "Section Heading" or category of the needed product/service, and the date the text was issued. \$

Computer Database Plus COMPOB

The computer industry changes daily and no one can keep up with all the new changes, right? Wrong. Computer Database Plus is a comprehensive collection of computer-related article summaries and/or full text from leading computer industry publications covering hardware, software, electronics, engineering, communications and technology applications. Computer Database Plus includes nearly 200 magazine, newspaper and journal titles including *PC Magazine*, *Byte*, *Digital Review*, *MacUser*, *PC Week*, *PC World* and *Communications of the ACM*. Coverage for most titles starts with 1987. Search the over 250,000 articles by subject, company name, product name, featured people, publication name and publication date. Updated weekly. \$

Computer Directory COMPODIR

Computer Directory provides information on over 69,000 computer-related products and more than 8,500 manufacturers. Hardware, software, peripherals and data communications and telecommunications equipment products are covered. Product information includes the manufacturer's name, key specifications, compatibility information and pricing data. Company listings include address, telephone numbers (including toll-free and fax numbers when available), annual sales figures, top executives, number of years in the business and types of products manufactured. \$

Consumer Reports CONSUMER

Before you buy a new car, camera, VCR or other big-ticket item, check it out in Consumer Reports. Automobiles, appliances, electronics/cameras and products for the home are all covered. Easy-to-use reports provide the features to look for, brand ratings and recommendations from Consumers Union. The Automobiles feature allows you to select cars by size, reliability and other important characteristics. Most

reports appeared in Consumer Reports magazine within the last two years. Reports are added monthly.

Data-Processing Newsletters DPNEWS

Data-Processing Newsletters is a searchable database providing the full text of articles taken from several of the leading newsletters covering the computer, electronics and telecommunications industries. It gives facts, figures, analysis, and current information on changing market and company conditions, company activities, new products and technologies, government policies and trade agreements. \$*

Demographics DEMOGRAPHICS

This section enables you to obtain demographic information for any area of the United States. Information includes the population as well as the income, age and race of the residents. The data is based on the 1990 Census and current year and five-year forecasts.

Dissertation Abstracts DISSERTATION

Dissertation Abstracts provides information on dissertations for academic doctoral degrees at accredited U.S. institutions since 1861, selected masters theses, and dissertations accepted at Canadian and many other non-U.S. institutions. Information on each database entry includes the author, title, date of publication, and the college and degree for which the dissertation was submitted. Abstracts are available online for dissertations added to the database after July 1980. \$*

Government Information GOVERNMENT

This choice give you a menu of information on government services and publications.

Government Publications GPO

There are two basic parts to this program. The first is a catalog of government publications, books and subscription services. In addition to providing ordering information, any CompuServe Member with a valid MasterCard or VISA can order online any publication handled by the Government Printing Office. The orders are compiled and forwarded directly to the Government Printing Office at least once a week and more frequently as volume dictates. The second part has online consumer information articles from government publications including articles on personal finance, health and fitness, automotive topics, food preparation and storage, parent and child, energy conservation and consumer notes. The entire database is updated weekly or as important changes occur. +

Health Database Plus HLTDDB

Health Database Plus provides information from consumer and professional health, nutrition, and fitness publications. The database makes available the full text of articles from selected lay journals published after January 1989, including *Food and Nutrition*, *Health and Psychology Today*. Synopses with author abstracts are available for articles published in technical and professional journals after June 1989, including *Patient Care*, *RN* and the *New England Journal of Medicine*. The full text of health related articles taken from a variety of consumer publications since 1983 are also generally available. \$

Information USA INFOUSA

Information USA contains three sections which provide access to free or nearly free government publications:

- ▶ How would you like a birthday greeting from the President? Biking and hiking maps from the National Park Service? Information USA tells you how to use the free or nearly free government publications and services that are available. It explains the art of obtaining information from bureaucrats and gives other helpful information when dealing with the government.
- ▶ Information USA/International lists American Embassies and consulates, potential health hazards and passport information available from the State Department. Travel-

ers benefit from booklets on cost of living overseas, customs, language materials, schools and hospitals. ▶ Information USA/Travel has information available on favorite pastimes such as diving, hiking, camping or visiting historical sites.

Information USA was extracted from the reference book of the same name written by Matthew Lesko. +

IQuest IQUEST

IQuest, CompuServe's online information retrieval service, provides easy access to more than 850 databases from companies such as Dialog Information Services Inc., BRS Information Technologies, NewsNet Inc., Data-Star, ORBIT Search Service, Pergamon Financial Data Services, H.W. Wilson Company, FT Information Online, Ltd., G. Cam-L'Europeenne De Donnees, Questel Inc. and VU/TEXT Information Services Inc. All types of information are included. From scholarly to popular press, business-related to the obscure, IQuest is the most comprehensive source of online information anywhere. IQuest contains fully indexed historical data and is updated electronically each day. Both bibliographic and full-text documents are available. Source materials include magazines, newspapers, indexes, conference proceedings, directories, books, newsletters, government documents, dissertations, encyclopedias, patent records and reference guides. All IQuest databases are accessible via the same easy-to-use, menu-driven format. No training is required. IQuest offers three simple ways to retrieve information:

- ▶ IQuest-I will choose the appropriate database once a member has selected a topic.
- ▶ IQuest-II allows a member to go directly to a specified database.
- ▶ Smart-SCANS search multiple databases.

Online real-time help is available in IQuest by typing SOS. \$*

Journal Graphics Transcripts TRANSCRIPTS

Order printed television broadcast transcripts through Journal Graphics Transcripts. Transcripts are available for selected talk shows, news and information shows, specials, documentaries, PBS programs, and shows covering government and politics, business, finance and economics, public affairs, health and science, education and literature. \$

Legal Research Center LEGALRC

The Legal Research Center provides access to seven databases containing

- ▶ Indices to articles from more than 750 law journals
- ▶ Indices to publications, studies, and other sources covering practical and theoretical aspects of criminal justice, criminology, and law enforcement
- ▶ Summaries of legislative, regulatory, judicial and policy documents covering federal taxation; major legal issues in banking and finance
- ▶ Indices to child abuse information sources

Databases included are American Banker Full Text, Child Abuse and Neglect (published by the U.S. Department of Health and Human Services), Congressional Information Services, Criminal Justice Periodical Index, Legal Resource Index, National Criminal Justice Reference Service (published by the U.S. Department of Justice), and Tax Notes Today. \$*

Magazine Database Plus MAGDB

Find full-text magazine articles in more than 90 publications in Magazine Database Plus. This valuable research tool offers many advantages over your local library because the Database gives you six different methods of finding an article, magazines cannot be vandalized, and you don't have to leave the comfort of your own home or office. For additional online magazine articles, see Business Database Plus (GO BUSDB), Computer Database Plus (GO COMDPB) and Health Database Plus (GO HLTDDB). \$

Magill's Survey of Cinema MAGILL

Magill's Survey of Cinema provides a database of in-depth articles covering films released since 1902. Database entries can contain the film title, information about its release date, country of release, cast, credits, Motion Picture Association of America rating, running time and production studio. The plots and significant influences are extensively summarized and discussed. \$*

Marketing/Management Research Center MGMTRC

The Marketing/Management Research Center offers access to nine databases containing

- ▶ Indices and full text of major U.S. and international business, management and technical magazines
- ▶ Indices to market and industry research reports, market studies and statistical reports
- ▶ U.S. and international company news releases.

Conduct marketing and management research using key word searches in databases such as ABI/INFORM, Findex, FINIS, Industry Data Sources, Infomat International Business, McGraw-Hill Publications Online, PTS MARS, PTS New Product Announcements, and PTS PROMT. \$*

Marquis Who's Who BIOGRAPHY

The Marquis Who's Who database provides information on key North American professionals, obtained primarily directly from the subject. The information includes the subject's name; occupation; date and location of birth; name of spouse and names of parents and children; education; positions held during career; civic, military and political activities; memberships; awards; and other organizational affiliations. \$*

Neighborhood Report NEIGHBORHOOD

The Neighborhood Report provides a summary of the demographic makeup of any Zip Code in the United States. Population, race and age breakdowns are displayed on the report as well as the household income distribution, the types of households and the occupations of the residents of the neighborhood. Housing patterns for the neighborhood are also examined with the status of occupied housing, average home value and rent, and the age of housing structures shown on the report. With the Neighborhood Report

Special Interest Groups (Forums)

This section contains forums for a variety of special interests such as education, aviation, computer art, astronomy, the military and entertainment.

Art Gallery Forum ARTGALLERY

Imagine 256 on-screen colors at once. Art Gallery Forum offers graphic images that are pushing the current upper limits of resolution, file size and artistic abilities. If you are interested in larger resolution image files with as many colors as possible, this forum is for you.

The increasing use of microcomputers and other high technologies in our schools and homes has been a natural topic of discussion in this forum. +

Astronomy Forum ASTROFORUM

Amateur or professional stargazers can join cosmic forces with fellow astronomers from around the world. Beginners with a universe of questions can learn about hardware or techniques. Professionals can take advantage of the Astronomy Forum to rapidly disseminate information among colleagues. Members of all levels can learn about national or international special events of interest. Archives contain public domain astronomy software and quality reference articles. +

Computer Art Forum COMART

The Computer Art Forum covers images generated by or created on a computer using a paint program. The libraries contain thousands of colorful and imaginative GIF (Graphics Interchange Format) images, from 2-color images to 256-color fractal displays (like those seen in a kaleidoscope). Information is available on downloading and displaying these images, which can be displayed on nearly any type of computer system. Images available include anything from animals and science fiction scenes to fractals and pioneering graphic images from the early days of computer technology.

Consumer Electronics Forum CEFORUM

The Consumer Electronics Forum is dedicated to exchanging information about electronic consumer products such as VCRs, telephone answering machines, compact disk players and even earth station equipment. The forum features articles, reviews, new products and news in its data libraries. You can get answers for your questions and discuss the latest issues facing this industry. Special interactive online conferences feature guests from manufacturers such as Sony, Pioneer and Panasonic. +

Education Forum EDFORUM

The Education Forum is designed to meet the diverse needs of people involved in the teaching and learning process. This includes teachers, parents, students, faculty members and other professionals in the education field.

Educational Research Forum EDRESEARCH

The Educational Research Forum is for people who are interested in research about the process and products of education. Through the forum, the latest research findings are shared and compared, and a dialogue is established between researchers and educators in the schools. The forum is sponsored by the American Educational Research Association. +

The Electronic Frontier Foundation Forum EFF

The EFF Forum enables people to share facts and opinions about issues concerning computer-based communication. Popular topics of discussion among the members of this forum include policy, social concerns and innovation. +

ERIC - Education Research ERIC

The Educational Resources Information Center (ERIC) database contains abstracts of articles covering all aspects of education, including vocational education, counseling, teacher education and testing. Information extends back to 1966 and is updated monthly. There are two subfiles within ERIC: the Resources in Education (RIE) file and the Current Index to Journals in Education (CIJE) file. The RIE subfile contains research/technical reports, conference papers and proceedings, program descriptions, opinion papers, bibliographies, reviews, dissertations, teaching and curriculum materials, lesson plans and guides. The CIJE subfile contains abstracts of articles from 750 education related professional journals. The information available in each article can include the author, title, source publication, publication year, and an abstract of the article. ERIC is published by the U.S. Department of Education. \$+

Foreign Language Forum FLEFO

The Foreign Language Forum provides a service to both general and specific interests in the area of foreign languages and foreign language learning. It includes

- Conferences
- A job bank for translators, educators and students
- Information on legislation and factors influencing the foreign language profession
- A list of professional organizations. +

Graphics Corner CORNER

Anyone interested in GIF (Graphics Interchange Format) images will love the Graphics Corner, which is devoted to the display of GIF images. The libraries contain images ranging from 32-level grayscale images to 256-color images that can be created and viewed from nearly any type of computer system. Images in the libraries include people and portraits; domestic and wild animals; nature scenes such as mountains, seas, flowers and trees; cars, boats, planes; landmarks; space and astronomy and much more. +

Graphics File Finder GRAPHFF

Browsing through the Graphics Forum files has never been easier. The Graphic File Finder is a comprehensive keyword searchable database of files found in the Graphic forums. Participating forums include the Art Gallery Forum, Computer Art Forum, Graphics Corner Forum, Graphics Support Forum and the Quick Pictures Forum. The Graphics File finder enables you to search for files by topic, file submission date, forum name, file type, file extension, file name or submitter's user ID number. +

Graphics Forums GRAPHICS

The Graphics Forums contain five forums: Art Gallery Forum (GO ARTGALLERY), Computer Art Forum (GO COMART), Graphics Corner Forum (GO CORNER), Graphics Support Forum (GO GRAPH SUPPORT), Graphics Vendor Forum (GO GRAPHVEN) and the Quick Pictures Forum (GO QPICS). An introduction to graphics is also provided, along with a graphics file finder (GO GRAPHFF). +

Graphics Support Forum GRAPHSUPPORT

The Graphics Support Forum offers advice, general discussions and discussion of GIF-related hardware and software support issues. Graphics Support Forum users can explore new and exciting topics including scanners and digitizers, computer graphics presentation, graphics in desktop publishing, video boards, paint programs, GIF encoders/decoders, GIF animation, computer animation, artists and clip art. +

Hollywood Hotline HOLLYWOOD

Hollywood Hotline is a news and information service of noteworthy events in motion pictures, television programs and music recordings. It also includes a trivia quiz, entertainment features and an entertainment encyclopedia that includes such things as past Academy and Tony award winners. Hollywood Hotline also offers you reviews of the most recently released movies in the theater. In addition there is an informative guide to the movies that lists the films by useful categories such as "Must See! Get Right in Line" and "For an Entertaining Night at the Movies." +

Human Sexuality Database and Forums HUMAN

Human sexuality questions and problems are answered in an informative manner. Special features include articles on social skills, dating, relationships and sexual problems. Experts answer questions on a variety of topics. Two forums are available for members to share their feelings, experiences and relationships with others in a warm, supportive environment. +

IBM Special Needs Forum IBMSPECIAL

As a teacher, parent or student, do you or someone you know have special learning needs? If so, visit the IBM Special Needs Forum which addresses all aspects of special education — from education of the handicapped to bilingual and vocational education, from K-12 to adult literacy programs. The forum includes information on and support of IBM educational programs such as Write to Read, Listen to Learn and PALS, and emphasizes software and hardware for IBM-compatible machines. +

prospective home buyers or apartment dwellers can research areas to which they are considering moving. Similarly, home sellers can determine the most favorable selling points of their current Zip Code. An 80-column printer is needed for printing reports. Updated annually. \$

New Car Showroom NEWCAR

New Car Showroom is a comparison shopping guide for consumers making new vehicle purchases. You can examine and compare features and specifications of passenger cars, trucks, vans and special-purpose vehicles. Over 500 foreign and domestic cars and trucks are compared by prices, standard and optional features and technical specifications, such as fuel economy and roominess. You can also calculate your monthly payments after you have selected a vehicle. \$*

NORD Services/Rare Disease Database NORD

The NORD Services/Rare Disease Database provides the member with current and accurate information on rare disorders and diseases. Some topics covered include AIDS research, education for handicapped children and information on digestive disease research centers. Members also have access to biomedical literature through MEDLINE and can communicate with other members on various subjects. In addition, a NORD newsletter is available which explains NORD and presents news on the latest rare disease updates and facts. Through NORD's networking program, people with the same orphan disorder can be linked together for mutual support. +

NTIS-Government Sponsored Research NTIS

National Technical Information Service offers a database of references to articles from government-sponsored research, development and engineering reports. Information available on each article can include the title, author, corporate source, sponsor, report number, publication year, contract number and abstract. The database is updated every two weeks and includes information from 1970 to the present. \$*

PaperChase PCH

PaperChase gives access to MEDLINE, the National Library of Medicine's database of references to biomedical literature. Included are over 6.5 million references from 4,000 journals which date from January 1966 through the current date. \$

Patent Research Center PATENT

The Patent Research Center provides access to databases containing:

- ▶ Summaries of U.S. patents granted in chemical, mechanical, electrical and design categories
- ▶ Summaries of patents granted internationally

Conduct research on patents listed in the Claims/U.S. Patent Abstracts (1950 to present) and the World Patents Index (1963 to present). \$*

Peterson's College Database PETERSON

Peterson's College Database offers the member a comprehensive database that contains detailed descriptions of over 4,000 accredited or approved U.S. and Canadian colleges that grant associate and/or bachelor degrees. Members may search colleges by characteristics or college name/location. The guide will also give you in-depth information about specific aspects of any college you choose.

Phone*File PHONEFILE

Want to find your college roommate or a long lost relative? Phone*File contains the names, addresses and phone numbers of more than 75 million US households. Relatives and friends across the nation are easy to find by searching the database by name and address; surname plus state, city and zip code or telephone number. Phone*File can be a

cost-effective way of acquiring addresses and phone numbers. \$

Physicians Data Query PDO

Physicians Data Query accesses four databases published by the National Cancer Institute. One database contains material written for the lay person covering more than 80 cancer types, providing information on treatment alternatives, stage expectations and general prognoses. Another is written for health care providers, making current information on most major cancers available, such as prognosis, stage-of-growth classifications with treatment options, and extensive bibliographies for further research. A directory database contains organizational and physician listings, with names, addresses, and other information provided for cancer centers, programs and specialists. A protocol database contains the treatment and medications used for different cancers. \$*

PsycINFO—Psychological Abstracts PSYCINFO

The PsycINFO database provides abstracts of articles from international literature in psychology and behavioral sciences. The articles cover applied, developmental, general and experimental psychology, communications systems, education, personal and professional issues, psychometrics, treatment and prevention, social processes and issues and more. Information on each article can include the authors, title, journal name, language, date of publication and abstract. The database is published by the American Psychological Association. \$*

SUPERSITE SUPERSITE

SUPERSITE demographic information from CACI is available for the entire U.S. and every state, county, SMSA, Arbitron TV Market (ADI), Nielsen TV Market (DMA), Place, Census Tract, Minor Civil Division (MCD) and geometric definition by circle and Zip Code in the United States.

Demographic reports are provided covering general demographics, income, housing, education, employment and current and five-year forecasts. In addition, sales potential reports for major types of retail stores can be generated. ACORN (A Classification of Residential Neighborhoods) Target Marketing profiles and potentials are also available. ACORN classifies all households in the U.S. into 44 market segments based on the demographic, socioeconomic and housing characteristics of the neighborhoods. The ACORN Market Potential Reports are created by linking the ACORN clusters to syndicated national surveys. Each report in SUPERSITE is surcharged, and you will be shown the cost of your requested reports before they are run to give you the opportunity to abort the run before incurring any surcharges. An 80-column printer is needed for printing reports. Sample reports are available at no surcharge. Updated annually. \$E

Trademark Research Center TRADERC

The Trademark Research Center provides access to databases containing all textual-numeric (non-graphic) federal trademarks active in the U.S. and all non-graphic trademarks for the 50 U.S. states and Puerto Rico. The content of any entry contains the U.S. class, international class, a description of the service or product, the status of the trademark, the registration date and date of first use. Additional information can include the filing date, original owner, assignor and assignee, series code and serial number. \$*

US-State-County Reports USSTCN

The US-State-County Demographic Profiles provide summaries of the demographic makeup of the entire United States, any state or county. The profile gives population data, race and age breakdowns, household income distribution, types of households and occupations of residents in the defined area. In addition, the status of occupied housing, average home value and rent and the age of housing structures are reported. The US-State-County

Profiles carry a surcharge per report. With these reports you can compare a Zip Code report, generated by the Neighborhood Report, to its county or state. An 80-column printer is needed for printing reports. Updated annually. \$

Issues Forum ISSUESFORUM

The Issues Forum is a forum for the free exchange of ideas about current issues and names in the news. There are sections for discussion of peace, politics, individualism, high tech, handicapped, paranormal, men and women's issues, youth and social issues. A number of regularly scheduled conferences are held, and the data libraries contain many interesting articles, message threads and conference transcripts. +

Quick Pictures Forum QPICS

The Quick Pictures Forum stores low and medium resolution graphic images, provides discussion for specific files and supports the reading of GIF files used elsewhere on CompuServe. If you have low-end machines or read a lot of files online, The Quick Picture Forum offers a large library of graphic images that are small in file size and amount of color. All files in this forum are less than 20K in size and have 16 colors or less. +

Religion Forum RELIGION

The Religion Forum is designed for people who like to share discussions, opinions and information, as well as ask questions on topics that relate to religion. Forum members may meet new friends while expanding their theological horizons. +

Science/Math Education Forum SCIENCE

This forum serves a variety of needs for science educators, students and others with interests in science and science education. It includes a large data library of software that can be downloaded into class and home computers. Plus, this forum contains practice problems for science and math college boards. +

Showbiz Forum SHOWBIZ

There's no business like show business, and it's everybody's business in the Showbiz Forum. Share information and opinions with other members about your favorite movies, plays, celebrities and television shows. Keep informed of which movies are box-office hits, and, through the message board, you may even meet a future celebrity. +

Soap Opera Summaries SOAPS

What did Erica do to Brooke? What did Frankie say to the DA? And who was in bed with Phillip? If you care about any of these questions, you should check out the Soap Opera Summaries. In addition to daily summaries, you will learn what is happening in real life to your favorite stars, cast lists, where to write to soap stars and fan club news. \$

Space/Astronomy SPACE

If you like to ponder the secrets of the stars or are involved with the more practical aspects of astronomy and space education, explore the different parts of the Space/Astronomy. Find up-to-date sunspot and solar flare information in the American Sunspot Program. Find space shuttle status reports, reports on manned and unmanned missions, launch schedules, payload manifests, annual reviews of NASA's activities and accomplishments, and an archive of the spinoffs of space technology in the NASA News and Information section. Also access Sky and Telescope Online, the electronic news service of *Sky & Telescope* astronomy magazine. +

Space Forum SPACEFORUM

Space Forum is for members interested in all aspects of space exploration, travel, research, colonization, research and development and related activities. NASA news releases are posted regularly in this forum. +

Students' Forum STUFO

The Student's Forum is popular with students who want to share their ideas and interests with other students around the world. Teachers exchange ideas using the forum. +

Working from Home Forum WORK

The Working From Home Forum unites those who work from their homes with others who are in similar circumstances. It allows a member to exchange information, make contacts, share resources and solutions to problems, meet other members and keep up-to-date on the latest home/office management tips, resources, laws, tax benefits and marketing approaches. +

Section 13

Travel

The Travel chapter provides you with air, hotel, car, tour and cruise information. In addition, U.S. domestic and international information is available.

ABC Worldwide Hotel Guide ABC

The hotel guide provides an up-to-date comprehensive listing of over 68,000 hotel properties worldwide including location, local and toll-free telephone numbers, credit cards accepted, rates and facilities. You can search for hotels by city, hotel name, chain, rates, special services or amenities. Updated every three months. +

Adventures in Travel AIT

Adventures in Travel contains travel articles covering all aspects of travel all over the world. Articles are written by travel writer Lee Foster and other professional travel writers. New articles appear every two weeks, and you can also read articles from previous weeks. Updated twice a month. +

Air Information/Reservations FLIGHTS

Air Information/Reservations contains EAASY SABRE, EAASY SABRE (CIM), the Official Airline Guide Electronic Edition Travel Service, WORLDSPAN Travelshopper and WORLDSPAN Travelshopper (CIM). Each offers complete schedule and fare information for all commercial flights throughout the world. When using any of these products, you will be asked for your departure and destination cities and your date of travel. All systems offer reservations and ticketing options as well as other travel information.

Department of State Advisories STATE

The United States Department of State's Citizen Emergency Center maintains a continuously updated information service for Americans traveling abroad. Advisories and warnings cover conditions such as warfare, political unrest, hotel/motel shortages, currency regulations and other information of interest to the American traveler. Updated constantly by the Department of State.

EAASY SABRE (CIM) SABRECIM

EAASY SABRE has been CIMplified. Use the CompuServe Information Manager (CIM) to access EAASY SABRE and access flights, fares, hotel and car rental information and reservations. With CIM, you can easily scroll through pages of flights and fares. A Travel Profile is stored with your AAdvantage number to make reservations and flight searching easier. Use the powerful Bargain Finder feature to access the lowest fares available.

Hotel Information HOTELS

This choice contains menu options for finding information on accommodations when traveling in the U.S. and around the world.

OAG Electronic Edition Travel Service OAG

If you are planning a trip, the Official Airline Guide Electronic Edition should be your first stop. OAG contains travel news, frequent flyer/lodger information, hotel information, ski reports and country and traveler's information, plus the schedules and availability for all commercial flights operating throughout the world. In addition, look to OAG for these special departments:

- ▶ Airport Arrivals, Departures and Gate Information provides up-to-the-minute information on arrival and departure information for most major airports across the country.
- ▶ The World Travel Guide contains information about more than 300 countries, including passport/visa requirements, business and social customs, shopping and festivals.
- ▶ "Events Online" is a collection of databases with information about folk, historical, ethnic, sporting and cultural events in the U.S. and Canada.
 - ▶ Zapotel's Adventure Atlas describes 5,000 adventure tours including bicycle, kayak and horseback trips.
 - ▶ Frequent, a monthly newsletter for frequent flyers, includes information about frequent flyer programs and contests, as well as tips on earning extra points and miles.

Check the Official Recreation Guide, or look for tours, cruises and discount travel. OAG contains fares for all North American and international flights. Make reservations online and, depending on the airline, select from several available ticketing options. Information on hotels and motels throughout the world, travel discount packages and weather information is also available. Updated continually. \$

Travel Forum TRAVSIG

The Travel Forum allows you to exchange travel stories, ideas and information with other forum members who are interested in traveling. You can talk with others who have already been to your destination to find out the best (or worst) restaurants and hotels. You can learn about the customs in foreign countries and other important information. You can also find out about destination spots, cruises, academic travel programs and rail travel. Leave questions for others or share your experiences. +

VISA Advisors VISA

VISA Advisors is a passport and visa expediting firm located in Washington D.C. providing visa and passport requirements and documents. They will assist you in visa and passport processing and legalization of documents. VISA Advisors charges a service fee per document and hand carries your documents to the embassies or consulates involved. Updated monthly.

West Coast Travel WESTCOAST

West Coast Travel is a travel guide by Lee Foster which beckons you to the many pleasures of travel destinations in the western United States. For each area, Lee describes the flavor, how to get there, the area's history, the main attractions, nearby trips and where to get more information. He also has a section featuring articles on special interest travel. Questions may be left for Lee, which he will answer in future columns. Updated weekly. +

WORLDSPAN Travelshopper WORLDSPAN

WORLDSPAN Travelshopper gives direct access to the WORLDSPAN reservation system (formerly PARS), which is owned by TWA, Northwest Airlines and Delta Airlines. You can look up flight availability and fares for any airline in the world. Travelshopper also provides the lowest fares available with Travelshopper's Low Fare Finder. Also you can book hotel rooms and rental cars. You can make reservations online and arrange ticketing through your travel agent or local airlines, or you can opt to pay by check (time permitting) or by credit card and have airline tickets mailed to you. Additional services and travel information, such as TWA and NORTHWEST flight operations information, weather, in-flight meals and movies, local times in other cities and currency conversion are provided in Travelshopper.

WORLDSPAN Travelshopper (CIM) WORLDCIM

CompuServe and WORLDSPAN Travelshopper provide this new interface to the WORLDSPAN Reservation System for members who use CompuServe Information Manager (CIM). WORLDSPAN Travelshopper (CIM) allows you to navigate easily through flights, fares, fare restrictions and flight details. In addition, store your flight search criteria, passenger information and personal profile data online to save time and money when making a reservation or simply browsing flights.

EAASY SABRE SABRE

EAASY SABRE, the travel reservation system from American Airlines, provides flight schedules for almost all commercial airlines, information on more than 45 million airfares and access to more than 20,000 hotels and 52 car rental agencies. You can use EAASY SABRE to find the fastest route to a destination, check weather reports and AAdvantage travel awards and take advantage of the lowest airfares with the Bargain Finder feature. After confirming airline, hotel and car reservations online, you can arrange to receive your tickets through a travel agency, city ticket office, corporate travel office, airport or by U.S. mail. EAASY SABRE also offers a travel club called Travelers Access in which club members enjoy the lowest fares and hotel rates (money-back guaranteed), plus a 5% cash bonus on all bookings made through Travelers Access. Book flights, rent cars and reserve condo vacations, cruises and hotels. Save up to 25% on vacation travel and up to 65% on short-notice travel. Updated continually.

CompuServe's basic membership offers unlimited connect-time to access many popular services that can help you get more out of your computer, and more out of life. With this membership, new members quickly become proficient on CompuServe and veteran members have a convenient way to use popular services on a more frequent basis.

Any member can participate in the basic services flat-rate pricing program. If you haven't signed up yet, select GO from the Services pull-down menu in the CompuServe Information Manager and type CHOICES. (Persons not using the CompuServe Information Manager can type GO CHOICES at any ! prompt.) Simply follow the instructions online.

Additional CompuServe services are offered on a pay-as-you-go basis. A "+" sign identifies an extended service and a "\$" indicates a premium service.

Another handy service locator is the decorative CompuServe Navigational wall chart. Hang it by your computer for easy reference or add life to any office or computer room. Quick Reference Words are included. GO ORDER to request yours.

Basic services flat-rate pricing, the directory and the wall chart are just some of the ways CompuServe helps you get value for your online dollar. CompuServe is the information service you won't outgrow.

CompuServe®

Our complete package of basic CompuServe services includes unlimited connect-time to access:
